

DA0-002 Exam Questions Available At 25% Discount With Free Demo

What's more, part of that itPass4sure DA0-002 dumps now are free: <https://drive.google.com/open?id=1AsFPUG92wXy8saqVqNCGmU70vt6xM0pz>

Our DA0-002 study materials can have such a high pass rate, and it is the result of step by step that all members uphold the concept of customer first. If you use a trial version of DA0-002 training prep, you can find that our study materials have such a high passing rate and so many users support it. After using the trial version, we believe that you will be willing to choose DA0-002 Exam Questions.

Many candidates who are ready to participate in the CompTIA certification DA0-002 exam may see many websites available online to provide resources about CompTIA certification DA0-002 exam. However, itPass4sure is the only website whose exam practice questions and answers are developed by a study of the leading IT experts's reference materials. The information of itPass4sure can ensure you pass your first time to participate in the CompTIA Certification DA0-002 Exam.

Exam CompTIA DA0-002 Voucher & DA0-002 Download Fee

Many people often feel that their memory is poor, and what they have learned will soon be forgotten. In fact, this is because they did not find the right way to learn. CompTIA Data+ Exam (2025) exam tests allow you to get rid of the troubles of reading textbooks in a rigid way, and help you to memorize important knowledge points as you practice. Industry experts hired by DA0-002 Exam Question explain the hard-to-understand terms through examples, forms, etc. Even if you just entered the industry, you can easily understand their meaning. With DA0-002 test guide, you will be as relaxed as you do normally exercise during the exam.

CompTIA Data+ Exam (2025) Sample Questions (Q70-Q75):

NEW QUESTION # 70

The director of operations at a power company needs data to help identify where company resources should be allocated in order to monitor activity for outages and restoration of power in the entire state. Specifically, the director wants to see the following:

- * County outages
- * Status
- * Overall trend of outages

INSTRUCTIONS:

Please, select each visualization to fit the appropriate space on the dashboard and choose an appropriate color scheme. Once you have selected all visualizations, please, select the appropriate titles and labels, if applicable.

Titles and labels may be used more than once.

If at any time you would like to bring back the initial state of the simulation, please click the Reset All button.

Answer:

Explanation:

Power outages

Explanation:

This is a simulation question that requires you to create a dashboard with visualizations that meet the director's needs. Here are the steps to complete the task:

- * Drag and drop the visualization that shows the county outages on the top left space of the dashboard.

This visualization is a map of the state with different colors indicating the number of outages in each county. You can choose any color scheme that suits your preference, but make sure that the colors are consistent and clear. For example, you can use a gradient of red to show the counties with more outages and green to show the counties with less outages.

- * Drag and drop the visualization that shows the status of the outages on the top right space of the dashboard. This visualization is a pie chart that shows the percentage of outages that are active, restored, or pending. You can choose any color scheme that suits your preference, but make sure that the colors are distinct and easy to identify. For example, you can use red for active, green for restored, and yellow for pending.

- * Drag and drop the visualization that shows the overall trend of outages on the bottom space of the dashboard. This visualization is a line graph that shows the number of outages over time. You can choose any color scheme that suits your preference, but make sure that the color is visible and contrasted with the background. For example, you can use blue for the line and white for the background.

- * Select appropriate titles and labels for each visualization. Titles and labels may be used more than once.

For example, you can use "County Outages" as the title for the map, "Status" as the title for the pie chart, and "Trend" as the title for the line graph. You can also use "County", "Number of Outages",

"Active", "Restored", "Pending", "Time", and "Number of Outages" as labels for the axes and legends of the visualizations.

NEW QUESTION # 71

A data analyst is following up on a recent, company-wide data audit of customer invoice data. Which of the following is the best option for the analyst to use?

- A. ISO
- B. PCI DSS
- C. GDPR
- D. PII

Answer: C

Explanation:

This question falls under the Data Governance domain of CompTIA Data+ DA0-002, which includes understanding compliance

frameworks for data audits, especially for customer data. The scenario involves a data audit of customer invoice data, which likely contains personal information, making privacy regulations relevant.

* PCI DSS (Option A): PCI DSS (Payment Card Industry Data Security Standard) applies specifically to payment card data, not general customer invoice data unless credit card details are involved, which isn't specified.

* GDPR (Option B): GDPR (General Data Protection Regulation) is a comprehensive privacy regulation for handling personal data of EU citizens, including customer invoice data, which may contain PII like names and addresses. It's the most relevant for a company-wide data audit.

* ISO (Option C): ISO standards (e.g., ISO 27001) relate to information security management but are not specific to customer data privacy audits.

* PII (Option D): PII (Personally Identifiable Information) is a concept, not a framework or tool for conducting an audit.

The DA0-002 Data Governance domain emphasizes "identifying PII and data privacy concepts," and GDPR is the most appropriate framework for auditing customer data to ensure compliance with privacy laws.

NEW QUESTION # 72

Which of the following supports capabilities such as automatic versioning, corruption checks, KPIs, and user authentication?

- A. Pipeline
- **B. Source control**
- C. Notebook
- D. REST API

Answer: B

Explanation:

This question falls under the Data Governance domain, focusing on tools that support data management and quality control features. The task is to identify a tool with capabilities like versioning, corruption checks, KPIs, and authentication.

* Notebook (Option A): Notebooks (e.g., Jupyter) are for data analysis and coding but don't inherently support versioning, corruption checks, or authentication.

* REST API (Option B): REST APIs enable data access but don't provide versioning or corruption checks as a primary function.

* Pipeline (Option C): Data pipelines automate data workflows but don't typically include versioning or authentication.

* Source control (Option D): Source control systems (e.g., Git) support automatic versioning (tracking changes), corruption checks (integrity verification), KPIs (e.g., commit frequency), and user authentication (access control), making this the best fit.

The DA0-002 Data Governance domain includes "data quality control concepts," and source control systems provide the listed capabilities to ensure data integrity and security.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 73

Which of the following is found in metadata?

- A. Data lineage
- B. Transformations
- C. Syntax
- **D. Variable types**

Answer: D

Explanation:

This question pertains to the Data Concepts and Environments domain, focusing on the content of metadata. Metadata describes data attributes, and the task is to identify what it typically includes.

* Transformations (Option A): Transformations (e.g., data cleaning steps) are part of data lineage, not metadata.

* Data lineage (Option B): Data lineage tracks data flow and transformations, which is related to metadata but not a direct component.

* Syntax (Option C): Syntax refers to code structure, not a metadata component.

* Variable types (Option D): Metadata includes information about data fields, such as variable types (e.g., integer, string), which is a standard component.

The DA0-002 Data Concepts and Environments domain includes understanding "data schemas and dimensions," and metadata typically contains details like variable types to describe the dataset.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 1.0 Data Concepts and Environments.

NEW QUESTION # 74

Given the following dataset:

Day

Number of Guests

Monday

455

Tuesday

346

Wednesday

382

Thursday

563

Friday

887

Saturday

934

Sunday

346

Which of the following is the mode?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

This question falls under the Data Analysis domain, focusing on statistical measures. The mode is the value that appears most frequently in a dataset.

* Monday: 455

* Tuesday: 346

* Wednesday: 382

* Thursday: 563

* Friday: 887

* Saturday: 934

* Sunday: 346

The value 346 appears twice (Tuesday and Sunday), while all other values (455, 382, 563, 887, 934) appear once. Thus, the mode is 346.

* Option A: 346- Correct, as it's the most frequent value.

* Option B: 446- Incorrect, as 446 doesn't appear in the dataset.

* Option C: 455- Incorrect, as 455 appears only once.

* Option D: 559- Incorrect, as 559 doesn't appear in the dataset.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and the mode is a fundamental measure of central tendency.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 75

.....

For some candidates who want to pass an exam, some practice for it is quite necessary. Our DA0-002 learning materials will help you to pass the exam successfully with the high-quality of the DA0-002 exam dumps. We have the experienced experts to compile DA0-002 Exam Dumps, and they are quite familiar with the exam centre, therefore the DA0-002 learning materials can help you pass the exam successfully. Besides, we also pass guarantee and money back guarantee if you fail to pass the exam exam.
