Now in such a Internet so developed society, choosing online training is a very common phenomenon. VCEdumps is one of many online training websites. VCEdumps's online training course has many years of experience, which can provide high quality learning material for examinee participating in Cyber AB Certification CMMC-CCA Exam and satisfy all the needs of the students.

Cyber AB CMMC-CCA Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices. |
| Topic 2 | <ul style="list-style-type: none">CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations. |

| | |
|---------|---|
| Topic 3 | <ul style="list-style-type: none"> • CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries. |
| Topic 4 | <ul style="list-style-type: none"> • Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments. |

Analyze Your Progress With Desktop CMMC-CCA Practice Exam Software

Our CMMC-CCA study materials have plenty of advantages. For example, in order to meet the needs of different groups of people, we provide customers with three different versions of CMMC-CCA study materials, which contain the same questions and answers. You can choose the one that best suits you according to your study habits. Secondly, the passing rate of our CMMC-CCA Study Materials is very high. Generally speaking, 98 % - 99 % of the users can successfully pass the exam, obtaining the corresponding certificate.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q37-Q42):

NEW QUESTION # 37

When interviewing a contractor's CISO, they inform you that they have documented procedures addressing security assessment planning in their security assessment and authorization policy. The policy indicates that the contractor undergoes regular security audits and penetration testing to assess the posture of its security controls every ten months. The policy also states that after every four months, the contractor tests its incident response plan and regularly updates its monitoring tools. Impressed by the contractor's policy implementation, you decide to chat with various personnel involved in security functionalities. You realize that although it is documented in the policy, the contractor has not audited their security systems in over two years. How many points would you score the contractor's implementation of the practice CA.L2-3.12.1 - Security Control Assessment?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

CA.L2-3.12.1 requires "periodically assessing security controls to determine effectiveness." The policy defines a 10-month cycle, but no audits have occurred in over two years, failing the implementation objective.

Per the DoD Scoring Methodology, this 5-point practice scores -5 (Not Met) when not fully implemented, as partial compliance isn't recognized. The CMMC guide stresses actual execution over documented intent.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), CA.L2-3.12.1: "Assess controls at defined frequency."

* DoD Scoring Methodology: "5-point practice: Met = +5, Not Met = -5."

Resources:

* https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf

NEW QUESTION # 38

An organization's password policy includes these requirements:

- * Passwords must be at least 8 characters in length.
- * Passwords must contain at least one uppercase character, one lowercase character, and one numeric digit.
- * Passwords must be changed at least every 90 days.
- * When a password is changed, none of the previous 3 passwords can be reused.

Per IA.L2-3.5.7: Password Complexity, what requirement is missing from this password policy?

- A. It does not include a list of prohibited passwords.
- B. It does not specify a minimum change of character requirement.
- **C. It does not require the password to contain at least one special character.**
- D. It does not require MFA.

Answer: C

Explanation:

IA.L2-3.5.7 requires password complexity rules that include uppercase, lowercase, numeric, and special characters. The given policy addresses three requirements but does not mandate at least one special character.

Extract:

"Enforce password complexity by requiring combinations of upper-case letters, lower-case letters, numbers, and special characters." Thus, the missing requirement is the use of a special character.

Reference: CMMC Assessment Guide - Level 2, IA.L2-3.5.7.

NEW QUESTION # 39

Patrick's company was hired to conduct a CMMC Level 2 assessment for Alto Technologies, where his aunt Jane is the VP of Marketing. Patrick did not disclose his relationship to Jane to his employer because he wanted to work on the Assessment Team and did not think Jane was aware of his job. Which of the following was the most appropriate course of action for Patrick?

- **A. Disclose the potential conflict of interest to his employer before being assigned to the assessment.**
- B. Do not disclose the relationship since Jane likely wasn't aware of what he did for work.
- C. Recuse himself without explanation.
- D. Follow the specific conflict-of-interest policies at his company.

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC requires disclosure of familial COIs to ensure objectivity, making Option C the most appropriate.

Option A (recusing without explanation) lacks transparency. Option B (not disclosing) violates CoPC. Option D (following policies) is vague and secondary to disclosure.

Extract from Official Document (CoPC):

* Paragraph 2.2 - Objectivity (pg. 5): "Disclose potential conflicts of interest, such as familial relationships, to the employer before assignment." References:

CMMC Code of Professional Conduct, Paragraph 2.2.

NEW QUESTION # 40

When examining a contractor's access control policy and SSP, you observe that system administrators routinely use accounts with elevated privileges for checking email and browsing internal websites. Why is it critical to implement practice AC.L2-3.1.6 - Non-Privileged Account Use?

- A. Mitigates the consequences of a security breach by safeguarding against data loss
- B. Prevents unauthorized modification of security functions
- C. Enables easier auditing and logging of privileged activities
- **D. Reduces exposure to threats that might exploit the misuse of privileges**

Answer: D

Explanation:

Comprehensive and Detailed In-Depth Explanation:

AC.L2-3.1.6 requires "non-privileged accounts for non-security functions." Using privileged accounts for routine tasks increases exposure to threats (e.g., malware) that could exploit those privileges (D), per CMMC intent. Auditing (A), breach mitigation (B),

and function modification (C) are related but not the primary criticality.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), AC.L2-3.1.6: "Reduces threat exposure by limiting privileged account use."

* NIST SP 800-171A, 3.1.6: "Minimize risk from privilege misuse."

Resources:

* https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf

NEW QUESTION # 41

You are part of an Assessment Team tasked with conducting a CMMC Assessment for an OSC. When assessing the contractor's implementation of SC.L2-3.13.6 - Network Communication by Exception, objectives [a] and [b], the OSC's system admin informs you that they use Fortinet Next-Generation Firewall (NGFW). Fortinet NGFWs are hardcoded to deny all traffic by default, and traffic is only allowed on an exception basis. While this is factual, the Lead Assessor asks you to test the NGFW to ascertain whether it meets the intent of Assessment Objectives in SC.L2-3.13.6 - Network Communication by Exception. What is the benefit of testing as an assessment method?

- A. Testing provides insight into the OSC's handling of CMMC practices.
- B. Testing allows you to determine if the OSC has the intent to meet the Assessment Objectives.
- **C. Testing allows you to observe what has been done and what has not been done.**
- D. Testing helps determine if CMMC practices are implemented and whether adequate resources were provided to the individuals performing the practices.

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP defines testing as observing actual versus expected behavior (Option B). Options A, C, and D are less precise benefits.

Extract from Official Document (CAP v1.0):

* Section 2.2 - Conduct Assessment (pg. 25): "Testing allows you to observe what has been done and what has not been done under specified conditions." References:

CMMC Assessment Process (CAP) v1.0, Section 2.2.

NEW QUESTION # 42

.....

Our CMMC-CCA study materials are very popular in the international market and enjoy wide praise by the people in and outside the circle. We have shaped our CMMC-CCA exam questions into a famous and top-ranking brand and we enjoy well-deserved reputation among the clients. Our CMMC-CCA learning guide boasts many outstanding and superior advantages which other same kinds of exam materials don't have. And we are very reliable in every aspect no matter on the quality or the according service.
