<https://drive.google.com/open?id=1zuk4yNNjSrL4ozm7LCGFxpIL8DW8dRF7>

Our FCP_FMG_AD-7.6 exam questions generally raised the standard of practice materials in the market with the spreading of higher standard of knowledge in this area. So your personal effort is brilliant but insufficient to pass the FCP - FortiManager 7.6 Administrator exam and our FCP_FMG_AD-7.6 test guide can facilitate the process smoothly & successfully. Our FCP - FortiManager 7.6 Administrator practice materials are successful by ensuring that what we delivered is valuable and in line with the syllabus of this exam. And our FCP_FMG_AD-7.6 Test Guide benefit exam candidates by improving their ability of coping the exam in two ways, first one is their basic knowledge of it.

Fortinet FCP_FMG_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.
Topic 2	<ul style="list-style-type: none">This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.
Topic 4	<ul style="list-style-type: none">Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.

Using FCP_FMG_AD-7.6 Reliable Test Preparation - No Worry About FCP - FortiManager 7.6 Administrator

FCP_FMG_AD-7.6 certification has great effect in this field and may affect your career even future. FCP_FMG_AD-7.6 real questions files are professional and high passing rate so that users can pass the exam at the first attempt. High quality and pass rate make us famous and growing faster and faster. Many candidates compliment that FCP_FMG_AD-7.6 Study Guide materials are best assistant and useful for qualification exams, they have no need to purchase other training courses or books to study, and only by practicing our FCP_FMG_AD-7.6 Fortinet Network Security Expert exam braindumps several times before exam, they can pass exam in short time easily.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q15-Q20):

NEW QUESTION # 15

An administrator configures a new BGP peer in the FortiManager device-level database of FortiGate. They reinstall the policy package to the managed FortiGate device without any errors. However, when the administrator logs in to FortiGate, they do not see the BGP configuration changes.

What is the most likely reason why FortiManager did not push the BGP peer changes to FortiGate?

- A. Fortigate has a BGP template assigned on the FortiManager database.
- B. The administrator must run a sanity check on FortiManager to make sure the database is not corrupted.
- C. The FortiGate firmware version is different from the FortiManager ADOM version.
- D. The administrator must use the Install Wizard and select Install device settings only to push BGP settings

Answer: A

Explanation:

If a BGP template is assigned to the FortiGate device on FortiManager, device-level BGP configurations made directly in the device-level database are overridden by the template settings, so the changes do not get pushed to the device.

NEW QUESTION # 16

An administrator created a new ADOM named Training for FortiGate devices only. Then, the administrator added the root FortiGate device of a Security Fabric group to the Training ADOM.

Which statement correctly describes the expected result for the downstream devices in the Security Fabric, given the actions taken by the administrator?

- A. The downstream devices show as unauthorized in the root ADOM.
- B. The downstream devices are automatically authorized.
- C. The downstream devices must be added using the Add Device wizard.
- D. The downstream devices will appear in the Managed FortiGate section of the rootADOM.

Answer: A

Explanation:

When you add the root FortiGate device of a Security Fabric group to an ADOM (in this case, Training), FortiManager:

- Automatically detects the downstream FortiGate devices in the Security Fabric.
- However, those downstream devices are not automatically added or authorized.
- They will appear as unauthorized devices under the root FortiGate in the Training ADOM, not in the root ADOM.

You must manually authorize each downstream device if you want FortiManager to manage them.

NEW QUESTION # 17

An administrator has assigned a global policy package to a new ADOM named ADOM1. What will happen if the administrator tries to create a new policy package in ADOM1?

- A. FortiManager will automatically install policies on the policy package in ADOM1.

- B. FortiManager will automatically assign the global policy package to the new policy package.
- C. The administrator will be able to select the option to assign the global policy package to the new policy package.
- D. The administrator will have to assign the global policy package from the global ADOM.

Answer: B

Explanation:

In FortiManager, when a global policy package is assigned to an ADOM, any new policy package created within that ADOM will automatically inherit and include the assigned global policy package. This is designed to ensure consistency and centralized control over shared policies across multiple ADOMs.

NEW QUESTION # 18

Refer to the exhibit. How will FortiManager try to get updates for antivirus and IPS?

```
FortiManager # diagnose fupdate view-serverlist fds
FortiGuard Server Comm : Enabled
Server Override Mode   : Strict
FDS server list       :
Index  Address          Port    TimeZone  Distance  Source
-----
*0     10.0.1.50        8890    -5         0         CLI
1      96.45.33.89      443     -5         0         FDNI
2      96.45.32.81      443     -5         0         FDNI
...
9      fds1.fortinet.com 443     -5         0         DEFAULT
```

- A. From the list of configured override servers or public FDN servers
- B. From public FDNI server IP address with the fourth highest octet only
- C. From the default server fds1.fortinet.com
- D. From the configured override server IP address 10.0.1.50 only

Answer: D

Explanation:

As the server override mode is strict, there is no fallback. FMG will communicate only with server configure in override server list.

NEW QUESTION # 19

An administrator has a FortiGate-HQ device with VDOMs-root, HR and Facilities, currently managed under the FortiManager ADOM-Site1. They try to move VDOM HR to the FortiManager ADOM-Site2, but it does not work.

Why is the administrator not able to move FortiGate-HQ VDOM HR to FortiManager ADOM-Site2?

- A. The administrator must delete the FortiGate-HQ device from FortiManager and add it again using the Add Device wizard before moving the VDOM.
- B. FortiManager must be in ADOM normal mode, which does not allow VDOMs to be managed separately.
- C. The administrator must have full access in the device layer of FortiGate-HQ VDOM-root before they can VDOMs to different ADOMs.
- D. The FortiGate-HQ must be managed under the FortiManager ADOM-root to allow moving its VDOMs to different ADOMs.

Answer: D

Explanation:

FortiGate devices must be managed under the FortiManager ADOM corresponding to the root VDOM to allow their individual VDOMs to be moved and managed in different ADOMs. Managing the root VDOM in a different ADOM prevents moving subordinate VDOMs across ADOMs.

NEW QUESTION # 20

.....

We have an authoritative production team, after you purchase FCP_FMG_AD-7.6 study materials, our professions can consolidate important knowledge points for you, and we guarantee that your FCP_FMG_AD-7.6 practice quiz is tailor-made. The last but not least, we can provide you with a free trial service, so that customers can fully understand our format before purchasing our FCP_FMG_AD-7.6 training guide, which can be an unparalleled trial experience compared to other counterparts.
