As an online tool, it is convenient and easy to study, supports all Web Browsers and system including Windows, Mac, Android, iOS and so on. You can apply this version of Platform-App-Builder exam questions on all electric devices.

Salesforce Certified Platform App Builder Sample Questions (Q279-Q284):

NEW QUESTION # 279

What option is available to an App Builder when defining an object-specific Create Record custom action?
Choose 2 answers

- A. Redirecting the end user to the detail page of the target object
- B. Pre-Defining field values on the target object.
- C. Specifying the fields and layout of the action.
- D. Allowing the end user to choose the record type

Answer: B,C

Explanation:

Explanation

The app builder has two options available when defining an object-specific Create Record custom action:

Pre-Defining field values on the target object. This means that the app builder can specify default values for certain fields on the target object when creating a new record using the custom action.

Specifying the fields and layout of the action. This means that the app builder can choose which fields to include in the action and how they are arranged on the screen. Option B and D are not options available when defining an object-specific Create Record custom action.

NEW QUESTION # 280

The services manager wants to make sure the team enters case priority consistently.

What feature can an app builder use to accomplish this?

- **A. Path**
- B. Next Best Action
- C. In-App Guidance
- D. Flow

Answer: A

Explanation:

Explanation

The best feature to use to ensure consistent case priority entry is Path. Path allows users to see key fields and guidance for each stage of a process, such as a case lifecycle. Path can also enforce data quality by making certain fields required at each stage. See [\[this article\]](#) for more information on Path.

NEW QUESTION # 281

Cloud Kicks works on an annual subscription model. When a sale rep marks an opportunity as closed won, a new opportunity should automatically be created for the renewal. The contracts team works outside of salesforce but also needs to be notified about closed deals in order to initial the contract process with the customer.

Which automation solution would meet these requirements?

- A. Approval Process
- B. Outbound Message
- **C. Record-triggered flow**
- D. Validation Rule

Answer: C

Explanation:

A record-triggered flow can be used to automate actions when a record is created or updated. In this case, a record-triggered flow can be configured to create a new opportunity and send an email to the contracts team when an opportunity is marked as closed won.

NEW QUESTION # 282

Universal Containers (UC) wants to test code against a subset of production data that is under 5 GB.

Additionally, UC wants to refresh this sandbox every weekend.

Which type of sandbox should be used to accomplish this?

- **A. Partial Copy**
- B. Developer
- C. Developer Pro
- D. Full Copy

Answer: A

Explanation:

To test code against a subset of production data under 5 GB and to refresh the sandbox environment weekly, the most suitable type

of sandbox is:

* Partial Copy (B). A Partial Copy sandbox includes a copy of your production org's metadata and a subset of your production data as defined by the sandbox template. It allows up to 5 GB of data and can be refreshed every 5 days, making it ideal for scenarios where a representative sample of production data is needed for testing without the storage and refresh limitations of a Full Copy sandbox.

Developer Pro (A) and Developer (D) sandboxes also allow for testing and development but do not include a subset of production data—they either have no data or only limited sample data. A Full Copy sandbox (C) provides a full replica of production data, far exceeding the 5 GB requirement and generally is refreshed less frequently due to larger data volume and longer copy times.

NEW QUESTION # 283

Which two features can extend record access beyond the organization-wide defaults?

- A. Owner-based sharing rules
- B. Public or private groups
- C. Criteria-based sharing rules
- D. Dynamic role hierarchy

Answer: A,C

NEW QUESTION # 284

.....
