Our product boosts many merits and useful functions to make you to learn efficiently and easily. Our C-ARCIG-2508 guide questions are compiled and approved elaborately by experienced professionals and experts. The download and tryout of our C-ARCIG-2508 Torrent question before the purchase are free and we provide free update and the discounts to the old client. Our customer service personnel are working on the whole day and can solve your doubts and questions at any time.

SAP C-ARCIG-2508 Exam Syllabus Topics:

Topic	Details
Topic 1	• Managing Clean Core: This section of the exam measures the skills of Implementation Consultants and focuses on applying clean core principles within SAP environments. It highlights practices that maintain standard processes, minimize customizations, and ensure long-term system stability.
Topic 2	• CI to Managed Gateway: This section of the exam measures the skills of Implementation Consultants and deals with the integration setup between SAP Ariba and Managed Gateway. It emphasizes understanding connection points and smooth data flow for business processes.
Topic 3	• SAP Ariba Procurement Integration Configuration: This section of the exam measures the skills of Implementation Consultants and focuses on procurement-related integration tasks. It highlights knowledge of system setup that enables seamless procurement processes between SAP Ariba and SAP S • 4HANA.
Topic 4	• SAP Ariba Strategic Sourcing Integration Configuration: This section of the exam measures the skills of Solution Architects and focuses on the configuration required for strategic sourcing processes within SAP Ariba. It ensures candidates understand integration steps that connect sourcing data with SAP systems.
Topic 5	• Managed Gateway Tools: This section of the exam measures skills of Solution Architects and addresses the tools provided within Managed Gateway. It covers their role in monitoring, managing, and troubleshooting integration scenarios.
Topic 6	• Managed Gateway Configuration: This section of the exam measures skills of Implementation Consultants and emphasizes practical knowledge of configuring Managed Gateway. It includes mapping, routing, and handling different business process requirements.

Topic 7	• Master Data: This section of the exam measures skills of Solution Architects and ensures knowledge of handling master data within SAP Ariba integrations. It focuses on consistent and accurate synchronization across connected systems.
Topic 8	• Supplier Lifecycle Performance: This section of the exam measures the skills of Implementation Consultants and includes the setup and management of supplier lifecycle performance processes. It validates understanding of integration elements supporting supplier evaluation and collaboration.
Topic 9	• SAP Ariba AddOn Simplified Configuration (SPRO): This section of the exam measures the skills of Solution Architects and includes simplified configuration through the SPRO transaction in SAP. It ensures candidates can manage add-on settings to streamline system deployment.

This is a great offer because it helps you prepare with the Latest C-ARCIG-2508 Dumps even in case of real SAP Certified Associate - Implementation Consultant - Managed gateway for spend management and SAP Business Network (C-ARCIG-2508) exam changes.

SAP Certified Associate - Implementation Consultant - Managed gateway for spend management and SAP Business Network Sample Questions (Q49-Q54):

NEW QUESTION # 49
You're running the incremental export from the SAP system in SAP Ariba Buying and Invoicing integration via Managed Gateway for Spend&Network.
Which parameter should you enable to prevent cyclic updates of the purchase requisition?

- A. ARBCIG_BUY_REQ
- B. BUY_PR_EXPORT
- C. BUY_PR_CHANGE_ENABLED
- D. BUY_PR_EXPORT_CHANGES

Answer: D

NEW QUESTION # 50
While defining an RFC destination in a direct connectivity deploym:Network integration via Managed Gateway for Soend&Network, what the Technical Settings section for the Path Prefix field?

- A. /cxf/receiveERPIDOC
- B. /cxf/receiveERPMD
- C. /cxf/receiveANIDOC
- D. /exf/receiveIDOC

Answer: A

Explanation:
Solution:
rom the learning.sap.com content on Creating an RFC Destination for direct connectivity via the Managed Gateway (Spend & Network), the Path Prefix in the Technical Settings must be:
/cxf/receiveIDOC learning.sap.com+1
Among your provided options, the one that matches this exactly is C. /cxf/receiveERPIDOC - because it's the only one starting with /cxf/receive, although note that the exact correct value in the documentation is
/cxf/receiveIDOC (not "ERPIDOC"). But based on closest correspondence to the documentation, the correct selection is C.

NEW QUESTION # 51
What is the purpose of maintaining variants and partitions in the context of integration using the SAP Integration Suite, managed gateway for spend management and SAP Business Network?

- A. Touse partition settings to generate backup IDocs in SAP
- B. To define data variants for version control of integration flows
- C. To maintain print variants for PO output types in SAP
- D. To differentiate configuration parameters for different documents based on the solution

Answer: D

Explanation:
Solution:
Based on learning.sap.com documentation, the purpose of maintaining variants and partitions in the SAP Integration Suite, managed gateway for spend management and SAP Business Network is:
*To differentiate configuration parameters for different documents based on the solution. This allows you to assign unique variant and partition combinations to specific SAP Ariba solutions (e.g., Procurement, Sourcing), enabling distinct behaviors or mappings per solution. SAP Help Portal+1 Therefore, the correct answer is:
*D. To differentiate configuration parameters for different documents based on the solution

NEW QUESTION # 52
Your customer is on SAP ERP Central Component ECEhP3 or below and would like to adopt the Sourcing Contract Services feature. Which Ariba add-on software components should you download from the SAP Service Marketplace?

- A. ARBCIGC
- B. ARBCIGR
- C. ARBCIGR
- D. ARBCI2

Answer: D

NEW QUESTION # 53
Which of the following validation options does the Document Validator tool offer? Note: There are 3correctanswers to this question.

- A. User Login Credentials
- B. Transformation
- C. Content Validation
- D. Tax Calculation
- E. Schema Validation

Answer: B,C,E

Explanation:
I wasn't able to find a definitive reference on learning.sap.com that explicitly lists the validation options offered by the Document Validator tool in the context of the SAP Integration Suite, Managed Gateway for Spend Management, or Business Network. The material I could access doesn't clearly enumerate these options.
However, based on typical functionality and supported features described across related SAP documentation (though not verified via learning.sap.com), the most likely valid options related to the Document Validator are:
*A. Schema Validation
*B. Content Validation
*C. Transformation
Options like D. User Login Credentials and E. Tax Calculation do not align with standard validation functionalities of such tools (they are operational or calculation features, not validations).
I cannot confirm these definitively from learning.sap.com because the relevant course or help pages that spell out the Document Validator's validation capabilities were not found in my search results.
If you can provide a specific chapter, lesson title, or link from learning.sap.com about the Document Validator tool, I'd be able to

check again more precisely.

NEW QUESTION # 54

......

Our company is professional brand established for compiling C-ARCIG-2508 exam materials for candidates, and we aim to help you to pass the examination as well as getting the related certification in a more efficient and easier way. Owing to the superior quality and reasonable price of our C-ARCIG-2508 Exam Materials, our company has become a top-notch one in the international market. Our C-ARCIG-2508 exam torrents are not only superior in price than other makers in the international field, but also are distinctly superior in the following respects.
