SAFE Agilist

Description

The true success of an enterprise is its ability to make good on its vision, brand recognition, customer satisfaction, and employee welfare without compromising on any one of any given point. Applying Lean/Agile principles and practices across all levels within an enterprise is the first step toward such a change.

The Scaled Agile Framework (SAFe) is a complete methodology for large-scale multi-team Agile projects and programs to carry out this transformation seamlessly. Created by Dean Leffew, this framework effortlessly synchronizes the alignment, collaboration and delivery of multiple agile teams leading the way for enterprise success.

When an enterprise changes its fundamental business process, it is critical to ensure that its team members fully embrace the values and ways of Agile. Our 2-day Leading SAFe training class gives you the knowledge required to become a Certified SAFe Agilist, and to lead agile transformation within your enterprise using the Scaled Agile Framework and its underlying principles of flexibility, lean thinking and product development flow.

Successful completion of this Scaled Agile Framework training course satisfies the requirement for the SAFe Agilist certification and prepares you to pass the exam.
