ATLASSIAN Jira Administration for Data Center Sample Questions (Q25-Q30):

NEW QUESTION # 25

You inherited a mature Jira instance with hundreds of projects and associated schemes. You are trying to optimize the administration of the instance.

You need to create a new project and determine which schemes to apply.

Select the two best approaches. (Choose two.)

- A. Attempt to generalize existing schemes with project roles and share those.
- B. Create a custom project template that uses the most common shared schemes.
- C. Use one of the project templates other than Jira Default Schemes.
- D. Evaluate existing shared schemes based on common project category or other criteria.
- E. Use the Scheme Helper admin tool to see which combinations of schemes are compatible.
- F. Create a project using the Jira Default Schemes and then create new schemes to avoid sharing conflicts.

Answer: D,E

NEW QUESTION # 26

You are prompted to perform a re-index after you have made configuration changes to a very large Jira instance.

Which reason would justify re-indexing only a project instead of a full re-index of the instance?

- A. Only project users would be affected by the re-index.
- B. Workflow changes were limited to the project's unique workflow.
- C. Only custom fields used by the project were modified.
- D. Time tracking was modified for the project.

Answer: C

NEW QUESTION # 27

You associated your project with a new priority scheme.

	Values
Old Priority Scheme	Critical, High, Medium, Low
New Priority Scheme	P1, P2, P3, P4

Identify what else may need to be updated as a direct result.

- A. swimlanes by queries
- B. field configuration where priority was required
- C. default values in field context
- D. issue collectors using a custom template
- E. statistics gadgets based on priority

Answer: E

NEW QUESTION # 28

Your project has three issue types that share a common workflow.
Which reason would make you recommend the implementation of separate workflows for each issue type?

- A. Each issue type uses a different issue security level.
- B. The issue types need different sets of resolutions.
- C. The issue types need different sets of priorities.
- D. One of the issue types needs a new status.
- E. Different project roles are working on the issue types.

Answer: A

NEW QUESTION # 29

A filter subscription is configured as shown below.

Recipients	jira-administrators
Schedule	Days per Week
Interval	once per day at 6:00 am Monday through Friday

Anita receives the subscription but Steven does not, even though both can see the filter and all its issues. What explains the difference?

- A. project permissions
- B. product access
- C. group membership
- D. personal settings

Answer: D
