最新的 Change Management Professional CCMP 免費考試真題 (Q40-Q45):

問題 #40

What does the change management lead need to do to sustain sponsor engagement?

- A. Engage lower and mid-level managers instead
- B. Communicate directly to front-line staff about change initiative
- **C. Provide regular updates on the change initiative status**
- D. Delegate sponsorship responsibilities to other stakeholders

答案: C

解題說明:

ACMP stresses that sponsors must remain active and visible throughout the change. The change manager sustains this engagement by providing regular updates, coaching, and reminders of required actions.

Delegating responsibilities (D) dilutes sponsor accountability. Engaging lower-level managers (B) or bypassing to front-line staff (C) weakens sponsorship. The best practice is to keep sponsors informed and aligned through consistent updates (A).

(Reference: ACMP Standard, Process Group 4 - Sponsorship; Activity: Sustain sponsor engagement with regular updates and coaching.)

問題 #41

What is the primary purpose of determining why the change is required?

- A. To determine how the organization and its structure will be affected
- **B. To explain the current opportunity, risks of consequences and benefits**
- C. To describe a common direction for the future state
- D. To discern the change the organization intends to adopt

答案: B

解題說明:

The primary purpose of determining why change is required is to articulate the case for change- explaining opportunities, risks, consequences of not changing, and expected benefits. ACMP highlights that this rationale is foundational for building awareness, stakeholder alignment, and sponsor commitment. Future state direction (B), structural effects (D), and identifying the change (C) follow from this rationale, but the starting point is always explaining why change is necessary.

(Reference: ACMP Standard, Process Group 2 - Case for Change; Purpose: Clarify opportunities, risks, consequences, and benefits.)

問題 #42

What statement describes "physical resources" when developing a resource plan?

- A. Physical resources are the systems hardware, software, facilities, workspaces, furniture etc.
- B. Physical resources are the number of people required to support the change management effort
- C. Physical resources are staff identified and budgeted as part of the overall project plan
- D. Physical resources are the cost of all resources supporting the change effort

答案： A

解題說明：

ACMP distinguishes between human, financial, and physical resources. Physical resources include tangible assets such as facilities, workspaces, equipment, technology, and tools necessary to support the change.

They are not people (B), staff (C), or costs (D) but the material infrastructure required. Identifying these ensures that adoption is not hindered by inadequate tools or environments. Thus, option A correctly defines physical resources in the context of the resource plan.

(Reference: ACMP Standard, Process Group 3 - Resource Plan; Categories: Human, financial, and physical resources.)

問題 #43

Completing the change management effort should include which of the following actions to evaluate the outcomes of the change initiative against the change objectives?

- A. An assessment of the sponsor's effectiveness as a sponsor for the change effort
- B. Compare the outcomes of the change management effort against the change objectives set at the beginning of the change effort
- C. A competency review of employees to ensure that they have the confidence to adopt the new direction of their role in the organization
- D. A review and assessment of the change lead's performance in leading the change initiative

答案： B

解題說明：

ACMP requires a formal evaluation of outcomes against objectives as part of closure. This ensures accountability, provides evidence of success, and informs future projects. Reviewing the change lead (A), employee competencies (B), or sponsor effectiveness (C) may contribute to lessons learned but do not represent the core closure evaluation. The correct evaluation step is option D.

(Reference: ACMP Standard, Process Group 5 - Close; Activity: Evaluate outcomes compared to initial objectives.)

問題 #44

As a mature company in a heavily regulated industry, what is one of the factors that could limit the organizational capacity to change IT systems?

- A. Historical experience with change
- B. External environmental stability
- C. Operational ability to absorb change
- D. Extent to which the organization has experience with change management tools

答案： C

解題說明：

ACMP identifies change capacity and saturation as key evaluation factors. In a regulated, mature industry, the operational ability to absorb change is often constrained by compliance demands, rigid processes, and simultaneous initiatives. While historical experience and tools matter, the limiting factor is the practical ability of the organization to absorb and execute change without disrupting core operations. Thus, option D is correct.

(Reference: ACMP Standard, Process Group 1 - Evaluate; Activity: Assess change capacity and saturation.)

問題 #45

.....

通過ACMP Global CCMP認證考試可以給你帶來很多改變。比如工作，生活，都會有很大的提升，因為畢竟CCMP考試是一個ACMP Global認證的相當重要的考試，但通過CCMP考試不是那麼簡單的。
