Our reputation for compiling the best 220-1202 training materials has created a sound base for our future business.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q128-Q133):

NEW QUESTION # 128

Multiple users are reporting audio issues as well as performance issues after downloading unauthorized software. You have been dispatched to identify and resolve any issues on the network using best practice procedures.

INSTRUCTIONS

Quarantine and configure the appropriate device(s) so that the users' audio issues are resolved using best practice procedures. Multiple devices may be selected for quarantine.

Click on a host or server to configure services.

If at any time you would like to bring back the initial state of the simulation, please click the Reset All button.

Answer:

Explanation:

See Explanation below for complete solution.

Explanation:

Host 2, Host 3, Host 4 , Host 5 ,Host 6, Host 7, Host 8 , Media Server - Stop All unwanted and malicious service (Persistence.j1zpxn Installer Service) from all the listed host and Media servers Refer screenshot below on the required service started/stopped on host2, same service to be started and stopped across all host servers.

□ A screenshot of a computer AI-generated content may be incorrect.

□ A screenshot of a computer AI-generated content may be incorrect.

NEW QUESTION # 129

A user wants to use a USB to move a 4.57GB .pst file from one Windows computer to another.

Which of the following filesystems should the USB be formatted with?

- **A. NTFS**
- B. APFS
- C. FAT32
- D. ext4

Answer: A

Explanation:

FAT32 cannot support files larger than 4GB. NTFS supports large file sizes and is compatible across Windows systems, making it the correct choice for transferring a 4.57GB file.

NEW QUESTION # 130

A user reports that their internally hosted CRM application splash screen attempts to load, pauses for a few seconds, and then disappears. A technician installs the application software on their computer and is able to recreate the issue. When checking the application logs, the technician sees the following:

Windows could not start the CRM Service on Local Computer 10169. The

service did not start due to a log-on failure.

Which of the following would most likely cause this issue?

- A. The bandwidth available is insufficient to run the application.
- **B. The LDAP service account used by the service is disabled.**
- C. The computer does not meet minimum hardware specifications.
- D. VLAN settings are blocking communication to the hosted application.
- E. The user typed their account password incorrectly.

Answer: B

Explanation:

The log entry indicates the CRM service cannot start due to a log-on failure, which most commonly occurs when the service account used to run the application (often an LDAP/domain service account) is disabled or has incorrect credentials. This prevents the required background service from starting and causes the application to close immediately.

NEW QUESTION # 131

You have been contacted through the help desk chat application. A user is setting up a replacement SOHO router. Assist the user with setting up the router.

INSTRUCTIONS

Select the most appropriate statement for each response. Click the send button after each response to continue the chat.

If at any time you would like to bring back the initial state of the simulation, please click the Reset All button.

□

Answer:

Explanation:

See explanation below.

Explanation:

First Chat Response:When the user mentions setting up a new router, the best initial response to maintain a helpful and professional tone is:

>Select reply:"I am happy to assist you today."

Second Chat Response:When the user states that they need to set up basic security settings:

>Select reply:"Is this the first router in your office?"

Third Chat Response:After learning it's a replacement router and the user is logged into the router's web page:

>Select reply:"The first thing you need to do is change the default password." Fourth Chat Response:For the response about password settings:

>Select reply:"Create a new password with an uppercase, a lowercase, and a special character." Fifth Chat Response:When the router prompts to reboot:

>Select reply:"Yes, reboot please."

Study Guide Reference: The CompTIA A+ Core 2 guide highlights the importance of changing default credentials and using strong password policies, particularly in SOHO environments where routers are often targeted.

NEW QUESTION # 132

A company executive is currently attending a major music festival with a large number of attendees and is having trouble accessing a work email account. The email application is not downloading emails and also appears to become stuck during connection attempts. Which of the following is most likely causing the disruption?

- A. Too many devices in the same area are trying to connect to the mobile network.
- B. Company firewalls are configured to block remote access to email resources.
- C. The phone has no storage space available.
- D. The festival organizer prohibits internet usage during the event and has blocked the internet signal

Answer: A

Explanation:

Large gatherings like music festivals often overwhelm local cellular towers due to the sheer number of devices competing for bandwidth and signal. This congestion can cause mobile applications, such as email clients, to stall or fail when attempting to download messages.

NEW QUESTION # 133

.....

Do you always feel that your gains are not proportional to your efforts without valid 220-1202 study torrent? Do you feel that you always suffer from procrastination and cannot make full use of your sporadic time?
