An organization is implementing new technology that will significantly improve how they interact with their customers. Which term BEST describes this situation?

- A. IT transformation
- B. Digital organization
- **C. Digital transformation**
- D. High velocity IT

**Answer: C**

Explanation:

#### Explanation

Digital transformation is the process of using digital technologies to create new or modify existing business processes, culture, and customer experiences to meet changing business and market requirements<sup>1</sup>. It is not just about implementing new technology, but also about changing the way an organization operates and delivers value to its customers. High velocity IT is one of the four dimensions of service management in ITIL

4, which refers to the rapid delivery and operation of IT-enabled products and services that can continuously evolve<sup>2</sup>. Digital organization and IT transformation are not specific terms defined in ITIL 4, but they could be related to digital transformation in some contexts. References:
