What's more, part of that TestKingFree 1z0-1080-25 dumps now are free: <https://drive.google.com/open?id=11MubSgjKJ-Ica8jOUW3TuWY5gD7yrd>

There are a lot of experts and professors in our company in the field. In order to meet the demands of all people, these excellent experts and professors from our company have been working day and night. They tried their best to design the best 1z0-1080-25 certification training dumps from our company for all people. By our study materials, all people can prepare for their 1z0-1080-25 exam in the more efficient method. We can guarantee that our study materials will be suitable for all people and meet the demands of all people, including students, workers and housewives and so on. If you decide to buy and use the 1z0-1080-25 Training Materials from our company with dedication and enthusiasm step and step, it will be very easy for you to pass the exam without doubt. We sincerely hope that you can achieve your dream in the near future by the 1z0-1080-25 latest questions of our company.

Please don't worry about the purchase process because it's really simple for you. The first step is to select the 1z0-1080-25 test guide, choose your favorite version, the contents of different versions of our 1z0-1080-25 exam questions are the same, but different in their ways of using. We have three different versions for you to choose: PDF, Soft and APP versions. The second step: fill in with your email and make sure it is correct, because we send our 1z0-1080-25 learn tool to you through the email. Later, if there is an update, our system will automatically send you the latest 1z0-1080-25 version.

Use Oracle 1z0-1080-25 Exam Dumps To Ace Exam Quickly

Our 1z0-1080-25 exam questions have a 99% pass rate. What does this mean? As long as you purchase our 1z0-1080-25 exam

simulating and you are able to persist in your studies, you can basically pass the exam. This passing rate is not what we say out of thin air. This is the value we obtained from analyzing all the users' exam results. It can be said that choosing 1z0-1080-25 study engine is your first step to pass the exam. Don't hesitate, just buy our 1z0-1080-25 practice engine and you will succeed easily!

Oracle Planning 2025 Implementation Professional Sample Questions (Q104-Q109):

NEW QUESTION # 104

Which two statements are true about using anchor and nonanchor dimensions with cell-level security?

- A. Anchor dimensions are never required in the cube that is used in the cell-level security definition.
- B. By default, nonanchor dimensions are required. You can change this setting later.
- C. By default, nonanchor dimensions are not required.
- D. Anchor dimensions are always required in the cube that is used in the cell-level security definition.

Answer: C,D

Explanation:

In Oracle Planning 2024, cell-level security restricts access to specific data intersections using anchor and nonanchor dimensions. The two true statements are:

* A. Anchor dimensions are always required in the cube that is used in the cell-level security definition:

Correct. Anchor dimensions (e.g., Entity, Scenario) are mandatory in the security definition to specify the primary scope of access control within the cube.

* B. Anchor dimensions are never required in the cube that is used in the cell-level security definition:

Incorrect. Anchor dimensions are always required, contradicting this statement.

* C. By default, nonanchor dimensions are not required: Correct. Nonanchor dimensions (e.g., Account, Period) are optional by default in cell-level security definitions, allowing flexibility in granularity unless explicitly included.

* D. By default, nonanchor dimensions are required. You can change this setting later: Incorrect.

Nonanchor dimensions are not required by default, and there's no setting to make them mandatory-it's an optional inclusion.

The Oracle documentation specifies that A (anchor necessity) and C (nonanchor optional) align with cell-level security behavior, making them the correct answers.

References:

Oracle Planning 2024 Implementation Study Guide: "Cell-Level Security Configuration" (docs.oracle.com, Published 2024-09-30).

Oracle EPM Cloud Documentation: "Anchor and Nonanchor Dimensions" (docs.oracle.com, Published 2023-12-05, updated for 2024).

NEW QUESTION # 105

Which Mass Update form in Workforce allows you to update employee properties, job properties, or salary- related information?

- A. Process Data and Synchronize Defaults
- B. Process Updated Data
- C. Synchronize Defaults
- D. Synchronize Definitions

Answer: D

Explanation:

In the Oracle Planning 2024 Workforce module, the Synchronize Definitions Mass Update form is the tool provided to update employee properties, job properties, or salary-related information in bulk. This form allows administrators to modify and synchronize metadata definitions across multiple employees or jobs efficiently, ensuring consistency in workforce planning data.

* D. Synchronize Definitions: This form enables updates to employee properties (e.g., status, department), job properties (e.g., job code, title), and salary-related information (e.g., salary basis, grade). It is designed to handle mass updates to metadata and ensure that changes are reflected across the Workforce model.

* A. Synchronize Defaults: This option is related to applying default assumptions or settings to data, not specifically for updating employee, job, or salary properties.

* B. Process Updated Data: This form focuses on processing data changes (e.g., recalculating costs after data entry), not on updating properties or definitions.

* C. Process Data and Synchronize Defaults: This is a combined action that processes data and applies defaults, but it does not specifically target updates to employee properties, job properties, or salary information.

The Synchronize Definitions form stands out as the correct choice because it directly addresses bulk updates to workforce

metadata, aligning with the question's focus on properties and salary-related information.

References

* Oracle Enterprise Performance Management Cloud Documentation: "Managing Workforce - Mass Update Forms" (docs.oracle.com, updated 2024). Describes the "Synchronize Definitions" form as the tool for updating "employee properties, job properties, and salary-related information."

* Oracle Planning 2024 Implementation Study Guide: Confirms that "Synchronize Definitions" is the Mass Update form for modifying workforce metadata.

NEW QUESTION # 106

In which four ways can you create a FreeForm application?

- A. Using a single cube, and then adding more cubes later.
- B. With a maximum of 12 cubes.
- C. Migrating an Essbase snapshot with Custom Defined Functions.
- D. Importing a single Essbase outline, and then adding more cubes later.
- E. With multiple cubes by using the Application Creation Wizard or Excel template in Smart View.
- F. Importing multiple Essbase outlines - one for each cube.

Answer: A,B,D,E

NEW QUESTION # 107

You want to copy data between two Planning instances. Which three tasks must you complete so you can copy the data?

- A. Associate the data map with a form.
- B. Define an EPM Connection to the source instance.
- C. Enable cross-POD mapping on the Smart Push card.
- D. Define an EPM Connection to the target instance.
- E. Define a data map with Remote Cube as the target.

Answer: A,D,E

NEW QUESTION # 108

You want to Input data into Financials. For Financials, there is a predefined navigation flow with cards listed for both Revenue and Expenses. What is the sequence of the cards for Revenue and Expenses?

- A. Assumptions, Allocations, Detailed Bottom Up, Strategic Top-Down, Direct Input, Overview, Summary
- B. Overview, Driver and Trend Based, Rolling Forecast, Direct Entry, Income Statement
- C. Overview, Assumptions, Allocations, Detailed Bottom-Up, Driver and/or Trend based. Direct Input
- D. Assumptions, Direct Input, Driver and/or Trend Based, High Level Overview, Detailed Overview, Summary

Answer: B

Explanation:

In Oracle Planning 2024, Financials provides a predefined navigation flow for entering data, organized into cards that guide users through the planning process for Revenue and Expenses. The navigation flow is designed to streamline data input and analysis, starting with high-level views and moving into detailed entry methods. According to the Oracle documentation, the default sequence of cards for Revenue and Expenses in Financials is: Overview, followed by Driver and Trend Based, Rolling Forecast, Direct Entry, and concluding with Income Statement.

* Overview: Provides a high-level summary of financial data, setting the context for planning.

* Driver and Trend Based: Allows users to input data based on drivers (e.g., units sold) or trends (e.g., historical patterns), a key method for revenue and expense planning.

* Rolling Forecast: Enables continuous forecasting over a defined period, integrating with driver-based inputs.

* Direct Entry: Permits manual data input for specific accounts or line items, offering flexibility.

* Income Statement: Consolidates all inputs into a financial statement view for review.

Option A accurately reflects this sequence as outlined in the Oracle Planning 2024 predefined navigation flow for Financials. Option B includes irrelevant cards like "Allocations" and "Strategic Top-Down," which are not part of the default Financials Revenue and Expenses flow. Option C introduces "High Level Overview" and

"Detailed Overview," which are not standard card names in this context. Option D includes "Allocations" and "Detailed Bottom-Up," which are more aligned with custom flows or other modules, not the default Financials sequence. This sequence is part of the out-of-the-box Financials navigation flow, ensuring users follow a logical progression from overview to detailed input and final reporting.
