You just have to study with valid and accurate Cisco 300-820 practice material that is according to sections of the present Cisco 300-820 exam content. PrepAwayTest offers you the best 300-820 Exam Dumps in the market that assures success on the first try. This updated 300-820 exam study material consists of 300-820 PDF dumps, desktop practice exam software, and a web-based practice test.

Cisco Implementing Cisco Collaboration Cloud and Edge Solutions Sample Questions (Q87-Q92):

NEW QUESTION # 87

When designing the call control on a Cisco Expressway Core, which is the sequence of dial plan functions?

- A. transforms, CPL, user policy, search rules
- **B. search rules, transforms**
- C. search rules, zones, local zones
- D. DNS zone, local zone, search rules

Answer: B

Explanation:

Explanation

NEW QUESTION # 88

Which two statements about Cisco Webex Video Mesh Nodes are true? (Choose two.)

- A. When Expressway Core works with VMN clusters, Expressway Core decides which VMN is used for signaling/media connection.
- B. A VMN can terminate a media connection while operating in maintenance mode.
- C. Cloud-registered devices choose a VMN cluster based on the lowest STUN round trip delay.
- D. When Cisco Unified Communications Manager works with multiple VMNs, Cisco Unified CM decides which VMN is used for signaling connection.
- E. The cascading traffic between VMN must bypass the firewall.

Answer: C,D

NEW QUESTION # 89

Refer to the exhibit. Logins and failing via mobile and remote access. How is this resolved?

- A. Although a traversal client zone exists, there is no Unified Communications traversal client zone. One must be created.
- B. SIP is disabled on the Expressway-E. The SIP protocol must be enabled on the server.
- C. No Cisco UCM servers are configured in the Expressway-C. Servers must be added for CallManager and IM and Presence services.
- D. Mobile and remote access login has not been enabled for the domain configured in the Expressway-C. The domain must be edited to allow Cisco UCM registrations.

Answer: A

Explanation:

If you look at the bottom of the diagram, it shows a CUCM server configured and also states at the very bottom that the UC traversal zone is not configured.

NEW QUESTION # 90

Which protocol and port are used for signaling between on-premises Cisco Webex Video Mesh Nodes and Cloud Media Services?

- A. signaling over HTTPS TCP port 443
- B. standard SIP over TCP port 5060
- C. standard SIP TLS over TCP port 5061
- D. signaling over TCP port 444

Answer: A

NEW QUESTION # 91

Which two licenses are required for the B2B feature to work? (Choose two.)

- A. Rich Media Sessions
- B. Traversal Server
- C. Advanced Networking
- D. TURN Relays
- E. Device Provisioning

Answer: A,B

NEW QUESTION # 92
