### ISACA COBIT 2019 Foundation Sample Questions (Q139-Q144):

#### NEW QUESTION # 139

What is the focus of an enterprise that has a cost leadership strategy design factor?

- A. Long-term cost optimization
- B. Medium-term cost equalization
- C. Short-term cost minimization

**Answer: A**

#### NEW QUESTION # 140

To gain the GREATEST benefit from the COBIT framework, a stakeholder should have a certain level of experience and a thorough understanding of:

- A. the entire enterprise.
- B. the regulatory compliance function.
- C. the IT function.

**Answer: A**

Explanation:

To gain the greatest benefit from the COBIT framework, a stakeholder should have a certain level of experience and a thorough understanding of the entire enterprise. A stakeholder is a person or group that has an interest or concern in an enterprise's activities or outcomes. Examples of stakeholders are board members, executives, managers, employees, customers, suppliers, regulators, etc. To gain the greatest benefit from the COBIT framework, a stakeholder should have a certain level of experience in I&T governance or management practices, as well as a thorough understanding of the entire enterprise's vision, mission, values, goals, objectives, strategies, processes, culture, etc. This would help them to apply the COBIT framework effectively and efficiently to their specific context and needs.<sup>1</sup> References: COBIT 2019 Framework:

Introduction and Methodology, [COBIT 2019 Framework: Stakeholder Needs]

#### NEW QUESTION # 141

Which of the following is the PRIMARY benefit or output derived from setting targeted capability levels and performing a capability-level gap analysis for selected processes?

- A. Identification and mitigation of all identified risks
- B. Development of a business case outline
- C. Development of enterprise goals that align to established targets
- D. Identification of process improvement opportunities

**Answer: D**

Explanation:

The primary benefit or output derived from setting targeted capability levels and performing a capability-level gap analysis for selected processes is the identification of process improvement opportunities, according to the official COBIT 2019 Study Manual from ISACA. This gap analysis can help to identify areas where processes are not meeting their desired capability levels and can provide insight into how processes can be improved to meet their desired levels. This can help to increase efficiency and reduce costs.

#### NEW QUESTION # 142

Responsibility for developing an EGIT business case outline and details resides with which of the following?

- A. Risk and compliance function and IT audit
- B. IT managers and IT process owners
- C. Board of directors and business executives
- **D. CIO and program steering committee**

**Answer: D**

Explanation:

Explanation

The EGIT business case outline and details are documents that describe the rationale, objectives, scope, approach, benefits, costs, risks, and timeline of the EGIT implementation program. The EGIT business case outline and details provide the basis for obtaining approval, funding, resources, and support for the program from the stakeholders. The responsibility for developing an EGIT business case outline and details resides with the CIO and program steering committee. The CIO is the senior executive responsible for leading and managing the information and technology function in an enterprise. The CIO has a role in developing, reviewing, validating, and approving the EGIT business case outline and details, ensuring that they are aligned with the enterprise's strategy, objectives, needs, and expectations. The CIO also has a role in communicating and presenting the EGIT business case outline and details to other stakeholders such as the board, executives, business managers, IT managers, etc., and obtaining their buy-in and commitment for the program. The program steering committee is a group of senior stakeholders who provide strategic direction, oversight, guidance, and approval for the EGIT implementation program. The program steering committee has a role in developing, reviewing, validating, and approving the EGIT business case outline and details, ensuring that they are consistent with the enterprise's vision, mission, values, strategy goals, and objectives. The program steering committee also has a role in monitoring and controlling the execution of the EGIT implementation program plan against the EGIT business case outline and details<sup>34</sup> References: 3: COBIT 2019 Implementation Guide: page 37-38 4: COBIT 2019 Implementation Guide: page 39-40

#### NEW QUESTION # 143

Which of the following performance measures is used to assess a specific focus area?

- A. Key goal indicator
- **B. Maturity level**
- C. Process capability rating

**Answer: B**

Explanation:

According to the COBIT 2019 Framework: Introduction and Methodology, a maturity level is a performance measure that is used to assess a specific focus area. A focus area is a topic that is relevant for governance and management of enterprise information and technology (I&T), such as cybersecurity, privacy or digital transformation. A maturity level indicates the extent to which a focus area is implemented and integrated in the enterprise's governance system. There are six maturity levels defined in COBIT 2019, ranging from 0 (incomplete) to 5 (optimized).<sup>3</sup>, p. 77-78 References: 3: COBIT 2019 Framework: Introduction and Methodology

#### NEW QUESTION # 144
