PMI-200 Training Materials & PMI-200 Dumps PDF & PMI-200 Exam Cram

The beauty of life may be that we don't know what will happen in the future, but even so, we are willing to pursue a bright future. Happiness for us may be the life we want to live, and our PMI-200 Study Materials can provide a good foundation for you to achieve this goal. A good job requires good skills, and the most intuitive way to measure your ability is how many qualifications you

have passed and how many qualifications you have.

PMI Agile Certified Practitioner (PMI-ACP)® certification is a valuable credential for individuals who have expertise in agile methodologies. PMI Agile Certified Practitioner (PMI-ACP)® certification is offered by the Project Management Institute (PMI) and requires individuals to pass the PMI-200 Exam. PMI Agile Certified Practitioner (PMI-ACP)® certification is ideal for individuals who have experience working in agile environments or who are looking to transition to agile methodologies. The PMI-ACP certification is recognized by organizations around the world and can open up new career opportunities for individuals who hold the credential.

PMI Agile Certified Practitioner (PMI-ACP)® Sample Questions (Q436-Q441):

NEW QUESTION # 436

A product owner adds a 21-point, high-priority story to a sprint backlog. The team is concerned that it cannot be completed during the current sprint. What should the team do?

- A. Work extra hours to complete the story and satisfy the customer's requirements.
- B. Increase the length of the sprint to accommodate the story.
- **C. Break down the story into smaller increments and negotiate other stories on the sprint backlog.**
- D. Advise the product owner that the story will have to wait until the next sprint.

Answer: C

NEW QUESTION # 437

A business analyst has identified a new risk in an Agile project. What is the best first step the business analyst should take regarding this risk?

- **A. Add the risk in a clearly visible location and ensure it is discussed after the next daily stand up.**
- B. Call an immediate meeting with all team members to discuss the newly identified risk.
- C. Call a meeting with the project manager and senior management to determine how the risk will be managed.
- D. Email the project manager and add it to the risk register so that it is discussed during the next daily standup.

Answer: A

NEW QUESTION # 438

New stakeholders are joining a project team where the agile coach will educate them about their roles and responsibilities. How should the stakeholders ensure their objectives are met by product delivery?

- A. Provide feedback for completed user stories.
- **B. Write acceptance criteria for the user stories.**
- C. Define how the features will be implemented.
- D. Tell the team which features to include in the backlog.

Answer: B

NEW QUESTION # 439

To: Team Manager
From: Agile Project Lead
Subject: Re: Initiative status as of today

Hi Team Manager,

Here is the initiative information you requested for the monthly review.

Backlog

User Story Title	Estimate in Story Points	Minimum Viable Product (MVP)? Yes / No	Status
New log-in screen	6	Yes	Complete
Save passwords	4	yes	Complete
Defect fixing – triaged top 10	8	No	Not Started
Accessibility – color blind	4	Yes	Not Started
Increase security	21	Yes	Not Started
Shopping cart	7	No	Not Started
Accept credit card payments	5	No	Not Started
Accept bank drafts	9	No	Not Started
New sort order	3	No	Not Started
Add AI chatbot	5	Yes	Not Started

MVP Remaining Story

Risk Register

#	Title	Summary	Impact
1	Defect backlog size	Significant number of known defects exist, but not all will be addressed in the MVP	Defects prioritized with product owner and top 10 defects will be addressed. Remaining defects will be prioritized in future initiative.
2	Holiday Impact	Burn for April expected to decrease due to holiday schedule	Expected reduction of 1 story point of burn for sprints 4 through 6. Then return to normal burn.
3	Regulation Changes	Proposed government regulations might be enacted which would cause rework in the project.	Team chose to watch this risk and not take action at this time. Not likely to impact MVP.
4	Team Morale	Our project team feels that their value to the company is tied to the value of the initiative they are working on.	No impact to current velocity or initiative. Will need to monitor.

Thanks,
Agile Project Lead

The manager of the team is responsible for delivering a specific initiative within the organization. They are preparing for the monthly project review meeting, where they will present the current state of this initiative.

The agile project lead sends the manager the following email with the initiative's current status.

Which summaries are correct and will be presented during the monthly project review? (Refer to the email and exhibits to the Team Manager)

- A. MVP has 25 remaining story points; MVP will complete at the end of sprint 9; with no other deviations, the entire backlog will complete at the end of sprint 16.
- B. MVP has 25 remaining story points; MVP will complete at the end of sprint 8; with no other deviations, the entire backlog will complete at the end of sprint 15.
- **C. MVP has 30 remaining story points; MVP will complete at the end of sprint 9; with no other deviations, the entire backlog will complete at the end of sprint 16.**
- D. MVP has 30 remaining story points; MVP will complete at the end of sprint 8; with no other deviations, the entire backlog will complete at the end of sprint 15.

Answer: C

Explanation:

Step 1: Identifying Remaining MVP Story Points

From the backlog, the MVP-related stories that are not started include:

Accessibility - color blind (4 story points)

Increase security (21 story points)

Add AI chatbot (5 story points)

Total remaining MVP story points = $4 + 21 + 5 = 30$

Step 2: Projected Sprint Completion

MVP Completion: The risk register mentions a burn reduction for sprints 4-6 due to holiday schedules.

If the burn rate is consistent after sprint 6, the MVP will be completed by sprint 9.

The entire backlog is projected to complete by sprint 16 assuming no further deviations.

NEW QUESTION # 440

An agile facilitator is helping a team. The team is taking too long in each daily coordination meeting, and the facilitator is beginning to view the time as unproductive.

What should the agile facilitator do to help the team?

- A. Change the structure of the daily coordination meetings so team members only comment on the blockers they face during the day.
- **B. Pay attention to the comments of each team member during the meeting and intervene every time they deviate from the objective of the meeting.**
- C. Let team members decide how to execute the meeting because they are self-organized and should know what works for them.
- D. Reduce the number of participants in the daily coordination meeting so only one representative for each user story or area of expertise can participate each day.

Answer: B

Explanation:

The agile facilitator should focus on keeping the daily coordination meeting (daily stand-up) focused and efficient. If the meeting is becoming unproductive or lengthy, the facilitator needs to actively manage the flow and intervene when team members deviate from the meeting's objective, which is to quickly discuss progress, identify blockers, and align on the work for the day. By doing this, the facilitator can help the team maintain the purpose and time-box of the meeting, which is generally 15 minutes.
