You can just look at the data about the hot hit on the Mule-Con-201 study braindumps everyday, and you will know that how popular our Mule-Con-201 learning guide is.

Salesforce Certified MuleSoft Catalyst Consultant Sample Questions (Q78-Q83):

NEW QUESTION # 78

An architect leads a Catalyst engagement to redesign an electronic retailer's digital marketplace. As part of that effort, the organization is integrating with a single logistics management partner that currently only operates in North, Central, and South America. There are initiatives to expand to global markets in the near future.

The organization wants integrations with the current logistics partner to be implemented as soon as possible to start realizing immediate business value. The architect recognizes that creating solutions that integrate only with the initial logistics partner will create constraints and technical debt for integrations with future logistics partners.

What is the recommended Catalyst approach to handle these out-of-scope future events?

- **A. Balance the short-term goal of integrating with the current logistics partner with the long-term goal of integrating with multiple global logistics partners in the future by architecting and designing the appropriate abstractions for multiple logistics partners while implementing them only for the current partner**
- B. Consider the short-term goal of integrating with the current logistics partner as the highest priority and implement the required integrations for that partner so value can be realized immediately
- C. Introduce the organization to a new logistics partner that has been successful with previous Catalyst engagements and who will be able to integrate seamlessly with this organization
- D. Consider the long-term goal of integrating with multiple global logistics partners as the highest priority and wait until all additional partners have been identified to begin integrations

Answer: A

NEW QUESTION # 79

Why is maximizing reuse potential important in architectural design?

(Choose Two)

- A. It discourages innovation.
- **B. It saves time and reduces costs.**
- **C. It extends the lifecycle of existing assets.**
- D. It necessitates the constant creation of new components.

Answer: B,C

NEW QUESTION # 80

How should business environment drivers be organized to effectively influence strategic goals and KPIs?

- A. In a randomized manner to ensure flexibility.
- **B. Into a logical network that connects vision, goals, and initiatives.**
- C. According to their impact on financial outcomes only.
- D. Isolated from organizational vision to avoid bias.

Answer: B

NEW QUESTION # 81

The Center for Enablement (C4E) should drive which capabilities in an organization that has a decentralized delivery model?

- A. Asset documentation, specifications, publishing
- **B. Asset consumption, harvesting, governance**
- C. Asset design, implementation, validation
- D. Asset delivery oversight, acceptance testing

Answer: B

NEW QUESTION # 82

What are the benefits of applying an API-led approach to connectivity in composable solutions?

- **A. Enhances modular integration and scalability**
- B. Encourages reliance on monolithic system designs
- C. Reduces the need for robust API management
- D. Limits the flexibility in handling multiple data types

Answer: A

NEW QUESTION # 83

.....
