Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q23-Q28):

NEW QUESTION # 23

A Platform Engineer works for a service provider and needs to establish access and authentication for multiple clients into an NKP cluster. Each client has their own LDAP source that should be used for authentication into the cluster. How would this be accomplished?

- A. The LDAP connector configuration would be modified to include an array for each client LDAP source to authenticate with. Users would provide the client name defined in the array as part of their login.
- B. A common LDAP source needs to be established and client specific groups and users need to be configured within this common LDAP provider. Then an LDAP connector would be created for this LDAP provider.
- **C. An NKP workspace needs to be created for each client and an LDAP connector would be created for each NKP workspace.**
- D. An NKP project would be created for each client and an LDAP connector would be created for each NKP project. Users would provide the project name their company was assigned as part of their login.

Answer: C

NEW QUESTION # 24

What is a prerequisite for upgrading an NKP license to Ultimate?

- A. Size the Worker nodes appropriately to support the installation of default platform services.
- B. Size the Sidecar containers appropriately to support the installation of default platform services.
- C. Size the ETCD nodes appropriately to support the installation of default platform services.
- **D. Size the Control Plane nodes appropriately to support the installation of default platform services.**

Answer: D

NEW QUESTION # 25

A company is developing a new web application consisting of several microservices, including:

Authentication service

User management service

Payment processing service

Each microservice is developed by different teams and requires an isolated environment for testing and development. To facilitate development and testing, the team decides to create a specific workspace in NKP. What should the team do to start this new creation?

- A. From the Administration selection dropdown list in Infrastructure Providers, select Add Infrastructure Provider.
- **B. From the workspace selection dropdown list in the top menu bar, select Create Workspace.**
- C. From the workspace selection dropdown list in the top menu bar, select Add Workspace.
- D. From the Cluster selection, select Add Cluster.

Answer: B

NEW QUESTION # 26

A company has decided to expand NKP to features that require higher product tiers, like fleet- management and additional infrastructure providers. The company has already obtained the necessary licensing. Which action is required when adding and activating a license from NKP Starter to a higher-tier product?

- A. Regenerate the ACME-based certificate for NKP.
- **B. Log out and log back in as a Global License Administrator.**
- C. Ensure that worker nodes are sized appropriately.
- D. Contact Nutanix Support.

Answer: B

NEW QUESTION # 27

Which steps are necessary to configure a custom role in Kommander for a specific user group?

(Select two)

- A. Patch the kube-proxy DaemonSet
- **B. Create a Kommander role and bind it to a group**
- C. Define a ClusterRole resource
- **D. Configure identity provider group claims**

Answer: B,D

NEW QUESTION # 28
