While attempting career growth is crucial, you can only do so after clearing the Energy and Utilities Cloud Accredited Professional AP-207 Exam.

Salesforce Energy and Utilities Cloud Accredited Professional Sample Questions (Q61-Q66):

NEW QUESTION # 61

A developer discovers that the Lightning Web Components in their Energy and Utilities Cloud org aren't being rendered correctly. What could be the likely reason for this issue?

- A. There are incorrect permissions on Lightning Web Components.
- B. The developer needs to re-write the components to be compatible with Energy and Utilities Cloud.
- C. Lightning Web Components aren't supported on Energy and Utilities Cloud.
- D. Remote Site Settings entries are missing.

Answer: A

NEW QUESTION # 62

An energy utility company is implementing the Customer Acquisition Management application. The application should support unauthenticated self-serve portal users.

What's the preferred method to configure the application security to meet the requirement?

- A. The Customer Acquisition Management application cannot support unauthenticated self-serve portal users.
- B. A consultant should assign an EnergyRuntimeB2CSales sample permission set to the Guest User profile and an EnergyRuntime82CSalesCustomerCommunityUser sample permission set to customer community users.
- C. A consultant should create new permission sets to grant appropriate access to all required objects.
- D. A consultant should assign an EnergyRuntimeSales sample permission set to the Guest User profile and an EnergyRuntimeSalesCustomerCommunityUser sample permission set to customer community users.

Answer: B

Explanation:

For the Customer Acquisition Management application to support unauthenticated self-serve portal users, the correct configuration of permission sets is crucial. The EnergyRuntimeB2CSales sample permission set designed for Guest User profiles enables unauthenticated users to interact with necessary parts of the application without compromising security or functionality. Additionally, the EnergyRuntimeB2CSalesCustomerCommunityUser permission set provides authenticated community users with appropriate access rights, ensuring a seamless user experience across both authenticated and unauthenticated scenarios.

Reference = The setup and configuration of these permission sets are discussed in the Salesforce Energy and Utilities Cloud security and user management documentation, ensuring applications like Customer Acquisition Management are accessible yet secure.

NEW QUESTION # 63

What's an example of a parent and child premise record?

- A. The parent premise is the apartment unit, and the child is the apartment building.
- B. The parent premise is the apartment building, and the child is the apartment unit.
- C. The parent premise is the type of service provided, and the child is the apartment.
- D. The parent premise is the apartment, and the child is the type of service provided.

Answer: B

NEW QUESTION # 64

An energy and utility company relies on a third-party pricing application for multi-site quotes. The utility company wants Salesforce to manage the multi-site quotation process and continue to use the third-party pricing application.

How can the utility company meet these requests using Energy and Utilities Cloud?

- A. Only CPQ pricing is available; requesting pricing for a master Quote or Order from an external source is not available.
- B. Install the "Third Party Pricing Application" DataPack from the Process Library.
- C. Duplicate the third-party pricing application prices into the Salesforce Price list.
- D. Use the external pricing feature to send and receive pricing requests from an external pricing engine.

Answer: D

NEW QUESTION # 65

An energy company is implementing the CPQ module of Energy and Utilities Cloud. The consultant set up the Advanced Rule on the Order with the Entity Filter type "Qualification." The filter selects the accounts with the condition CreatedDate < 365 days.

Which scenario should be executed during the testing phase?

- A. Test the order creation: Order can't be created for the account older than 365 days.
- B. Test the product eligibility: The product will not be not available for accounts older that 365 days
- C. Test the account creation: Accounts younger than 365 days won't be qualified for creation.
- D. Test the account creation: Accounts older than 365 days will not be qualified for creation.

Answer: A

NEW QUESTION # 66

.....
