Exam HCL-HWA-ADM-102 Format - New HCL-HWA-ADM-102 Exam Online

In order to meet your different needs for HCL-HWA-ADM-102 exam dumps, three versions are available, and you can choose the most suitable one according to your own needs. All three version have free demo for you to have a try. HCL-HWA-ADM-102 PDF version is printable, and you can print them, and you can study anywhere and anyplace. HCL-HWA-ADM-102 Soft text engine has two modes to practice, and you can strengthen your memory to the answers through this way, and it can also install in more than 200 computers. HCL-HWA-ADM-102 Online Test engine is convenient and easy to learn, and you can have a general review of what you have learned through the performance review.

HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q199-Q204):

NEW QUESTION # 199

In a complex scenario combining typical installation, server setup, Docker deployment, and hardware: Planning a containerized high-availability HCL Workload Automation 10.2 with 2 masters and consoles on OpenShift. Which actions ensure success? (Select All

that Apply)

- A. Configure custom secrets for certificates if needed
- B. Set umask 022 before traditional install
- C. Use Helm chart with scaled servers
- D. Access entitled registry for images
- E. Ensure 2 GB minimum swap on host

Answer: A,C,D,E

Explanation:

Helm charts scale to multiple servers for HA in container deployments; host hardware must meet minimums like 2 GB swap; images require entitled registry login; custom certificate secrets enhance security, while umask applies to traditional non-container installs.

NEW QUESTION # 200

HCL Workload Automation 10.2 production environment shows Dynamic Workload Broker failing 35% job allocations during peak 2800 jobs/hour across 120 dynamic agents due to ResourceAdvisorConfig.properties resourceSelectAlgorithm=leastLoaded returning capacity=0 for eligible agents. JobDispatcherConfig.properties MaxAllocsPerTimeSlot=1000. DWC reports "No suitable resources". What Broker configuration parameter forces allocation ignoring capacity constraints?

- A. BrokerWorkstation.properties resourceSelection=greedy
- B. JobDispatcherConfig.properties ignoreCapacityCheck=YES
- C. JobDispatcherConfig.properties allocationMode=immediate
- D. ResourceAdvisorConfig.properties enForceAllocation=YES

Answer: D

Explanation:

enForceAllocation=YES in ResourceAdvisorConfig.properties overrides capacity=0 returning leastLoaded agents during 35% allocation failures; forces Dynamic Workload Broker job placement across 120 dynamic agents despite transient capacity reporting versus immediate mode risking starvation or greedy selection ignoring broker optimization algorithms maintaining production workload distribution integrity.

NEW QUESTION # 201

Scenario: After replacing default certificates with custom CA-signed ones on the MDM in HCL Workload Automation 10.2, dynamic agents fail to register with error "SSL peer certificate validation failed". The agents are at version 10.2.1. Which commands and steps are required on the agents to resolve this without reinstallation? (Select three)

- A. Convert agent keystores from CMS to JKS format if using older GSKit
- B. Manually import the new CA certificate into the agent's TWSCClientTrustFile.jks using keytool
- C. Run AgentCertificateDownloader --tdwbhostname <MDM> --tdwbport 31116 to fetch updated trust
- D. Update the agent's ita.ini [ITA SSL] section with verify_cn_string matching the new CN
- E. Restart the agent after copying updated keystores from MDM

Answer: B,C,D

Explanation:

Run AgentCertificateDownloader --tdwbhostname <MDM> --tdwbport 31116 to fetch updated trust automatically propagates the new server certificate to the agent's truststore for validation. Manually import the new CA certificate into the agent's TWSCClientTrustFile.jks using keytool ensures the chain is trusted if automatic download fails. Update the agent's ita.ini [ITA SSL] section with verify_cn_string matching the new CN enforces hostname verification against the updated certificate's subject, preventing mismatches.

NEW QUESTION # 202

For high-availability DWC in 10.2, what is required during installation of secondary console?

- A. Load balancer configuration post-install
- B. Shared DWC_DATA directory

- C. Point to same remote database
- D. Use same installation user
- E. Different https ports

Answer: C,E

Explanation:

Multiple consoles share one remote database for consistency. Different ports avoid conflicts on the same or clustered hosts.

NEW QUESTION # 203

Scenario: Running jobs continue after plan change, but their job stream is not carried forward. Where are they placed in the new plan?

- A. USERJOBS dedicated job stream
- B. Original job stream name with suffix
- C. Lost, require manual rerun
- D. ORPHANEDJOBS
- E. CARRIEDJOBS system stream

Answer: A

Explanation:

Running jobs whose job streams are not carried forward are automatically placed in a system job stream named USERJOBS in the new production plan, allowing them to complete without losing tracking.

NEW QUESTION # 204

.....

We are not exaggerating that if you study with our HCL-HWA-ADM-102 exam questions, then you will pass the exam for sure because this conclusion comes from previous statistics. The pass rate of our customers is high as 98% to 100% with our HCL-HWA-ADM-102 Practice Engine. We believe you are also very willing to become one of them, then why still hesitate? Just come in and try our HCL-HWA-ADM-102 study materials, and we can assure you that you will not regret your choice.

Exam HCL-HWA-ADM-102 Format: https://www.prep4cram.com/HCL-HWA-ADM-102_exam-questions.html

Through the preparation of the HCL-HWA-ADM-102 exam, you will study much practical knowledge, Take action right now; with HCL-HWA-ADM-102 valid questions right now, to bring your ideas to life right now, If you have no idea how to prepare the certification materials for the exam, Prep4cram Exam HCL-HWA-ADM-102 Format serve you, HCLSoftware HCL-HWA-ADM-102 Actual Dump As we all know, it's hard to delight every customer.

Providing Drivers for Hardware Not in the List, We're going to create a class to generate table objects, Through the preparation of the HCL-HWA-ADM-102 Exam, you will study much practical knowledge.
