What's more, part of that PassLeaderVCE PL-600 dumps now are free: <https://drive.google.com/open?id=1Cib8EVXS8yVUZMG5aEVOAGM4kajvZ42M>

You know, your time is very precious in this fast-paced society. If you only rely on one person's strength, it is difficult for you to gain an advantage. Our PL-600 learning questions will be your most satisfied assistant. On one hand, our PL-600 exam braindumps contain the most important keypoints about the subject which are collected by our professional experts who have been devoting in this career for years. On the other hand, we always keep updating our PL-600 Study Guide to the latest.

## Exam Requirements

As it is clear that PL-600 Exam is associated with an expert-level certificate, some prior expertise is expected. Before you aim at it, make sure you have already worked as a Power Platform solution architect for 1 to 3 years. Also, a senior consultant or developer with around 7 to 10 years of work experience can also pass this certification exam and excel in the career. So, all these long years of expertise let a test-taker demonstrate a deeper understanding of Power Platform architecture.

Besides, before this exam, the candidate is required to have one of two certificates in advance: Microsoft Certified: Power Platform Functional Consultant Associate or Microsoft Certified: Power Platform Developer Associate. This is due to the fact that each of these accreditations strengthens out the foundational understanding of Microsoft Power Platform and simplifies the exam journey.

## New Exam PL-600 Braindumps | Premium PL-600 Files

In recent year, certificate for the exam has raised great popularity, since certificate may be directly related to the salary or your future development. We have PL-600 Exam Dumps to help you get a certificate you want. The quality of the PL-600 learning materials is reliable, and it has gotten popularity in our customer. Besides if you have any questions, please contact with our service stuff, we will give you reply as quickly as possible, and if you are very urgent, you can just contact our live chat service stuff.

## Microsoft Power Platform Solution Architect Sample Questions (Q39-Q44):

### NEW QUESTION # 39

A company plans to use a combination of model-driven and canvas apps for data interaction and Power BI for data reporting. The company has the following requirements:

- \* Share a canvas app with the auditor team
- \* Ensure account balance values in Power BI are only viewable by the investment team
- \* Streamline user administration and role assignment.

You need to recommend a security component to use for each requirement.

Which security components should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

### NEW QUESTION # 40

Case Study 2 - Relecloud

Background

Relecloud provides regional air service in North America. The company uses a variety of systems, apps, and services to manage the business. You are hired to design a new solution to manage passenger information, reservations, and maintenance.

Current environment

The company uses Microsoft Office 365.

The company has a custom app for managing and tracking passenger luggage. The app uses Microsoft Dataverse.

For flights longer than four hours, passengers receive a meal. Customers can select a meal when they make a reservation and can save the meal choices as a customer preference.

The company offers two types of meals: standard and vegetarian. Meal types can be temporarily unavailable. The airline is considering offering other meal types, such as gluten-free and low- sodium options.

The company uses paper-based reservation checklists to help ensure that all the steps for a reservation are complete.

The company uses vendors to service aircraft.

Environment

Ensure that employees can sign in to all Microsoft apps by using one set of credentials per employee.

Minimize the use of third-party products and custom development.

Reduce customer support call volumes by having the system automatically resolve common issues.

The security rule for agents must contain the privileges in the default Customer Service Representative security role.

Log issues as cases. The case form must show variable sections based on the case type.

Include a custom entity named Seats and grant agents access to the entity.

Application use layout should be role specific.

Agents

You must standardize the format used by agents to enter customer phone numbers.

Agents need a solution to replace paper reservation checklists.

Agents need dashboards to show a current count of all reservations on the entity.

Agents need a way to track reservation issues.

Agents need a visual indicator in the interface to determine the reservation step to provide a seamless customer experience.

Agents need different versions of cancellation policies to send customers. One version must be controllable within the system.

Agents need to view which pieces of luggage match to each passenger, and then need to add the total on the passenger record.

IT

IT staff needs a mobile solution to see IT cases at the top of the menu since this is their primary focus.

IT staff needs a system that is easy to navigate to active cases.

IT specialists want to design Power BI reports. They need to understand the underlying table relationships of the system.

IT specialists need a solution that is visual rather than text-based so they can quickly complete their tasks.

Management

Management requires paginated reports for stakeholders.

Management wants to provide frequent flyers with better service when the flyers call.

Managers need to see all customer dashboards at the top of their menu on their mobile device.

Maintenance

Maintenance supervisors must not have access to Dynamics 365 Customer Service. The supervisors must be able to communicate with the contracts team about contracts.

Aircraft maintenance vendors must have only view and upload privileges to their invoices and receipts.

Contracts with maintenance companies must be stored in Dynamics 365 Customer Service.

### Hotspot Question

You need to recommend a collaboration tool for each group.

Which tool should you use? To answer, select the appropriate tool in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation:

Explanation:

Box 1: Microsoft Teams

Maintenance supervisors must not have access to Dynamics 365 Customer Service. The supervisors must be able to communicate with the contracts team about contracts.

Box 2: Power Apps Portal

"The company uses vendors to service aircraft." This implies they are third party and as such they cannot use workspace.

### NEW QUESTION # 41

A company plans to create a Microsoft Power Platform solution that integrates with Dynamics 365 Sales. The solution must meet the following requirements:

- \* Connect directly with a Microsoft Azure SQL database as an external data source at run time where specific data is available in the Dynamics 365 Sales solution without the need for data replication.

- \* An external system needs to send data to the company's Dynamics 365 Sales solution.

You need to recommend the most suitable solution to integrate Dynamics 365 Sales with both systems.

What should you recommend? To answer, select the appropriate option in the answer area.

#### Answer:

Explanation:

### NEW QUESTION # 42

You are designing a Microsoft Power Platform solution that will be deployed to two separate companies in the same Microsoft Office 365 tenant: Contoso, Ltd. and Contoso Pharmaceuticals.

The solution must meet the following security requirements:

- \* Restrict Contoso, Ltd. users from seeing the Contoso Pharmaceuticals company.

- \* Restrict access to specific forms.

- \* Restrict access to specific tables.

What should you recommend? To answer, drag the appropriate security types to the correct restrictions. Each security type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation:

Explanation:

### NEW QUESTION # 43

You are supporting a recent go-live for a model-driven app that includes mobile offline functionality.

Users report the following issues:

The process of downloading initial metadata for the app takes hours to complete.

Some account views are unavailable when the app is offline.

Changes to users' security privileges are not reflected in the mobile app.

Contact data is not available when the app is offline.

You need to resolve the mobile app performance issues.

What should you review? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.
