To pass the AP-219 test on your first sitting, you must choose reliable Salesforce Order Management Administrator Accredited Professional exam study material. Don't worry about AP-219 test preparation, because VerifiedDumps is offering AP-219 actual exam questions at an affordable price. Hundreds of IT aspirants have cracked the AP-219 examination by just preparing with our real test questions. If you also want to become a AP-219 certified without any anxiety, download Salesforce updated test questions and start preparing today. These real AP-219 Dumps come in desktop practice exam software, web-based practice test, and AP-219 PDF document. Below are specifications of these three formats.

Salesforce Order Management Administrator Accredited Professional Sample Questions (Q88-Q93):

NEW QUESTION # 88

Which three options are the main types of building blocks when working in Flow Builder?

- A. Async processes
- B. Elements
- C. Connectors
- D. Data lookups
- E. Resources

Answer: B,C,E

Explanation:

The main types of building blocks when working in Flow Builder are:

Elements: These are the components that define the logic and functionality of a flow. Elements include actions, assignments, decisions, loops, screens, subflows, and waits.

Resources: These are the variables, constants, formulas, collections, and record choice sets that store data in a flow. Resources can be used as inputs or outputs for elements.

Connectors: These are the arrows that connect elements and resources in a flow. Connectors determine the sequence and direction of the flow execution. Reference: [Flow Building Blocks]

NEW QUESTION # 89

What type of relationship exists between FulfillmentOrder and Location?

- A. Many-to-One Lookup (Location) FulfilledFromLocationId
- B. Junction (Many to Many)
- C. One-to-many Lookup (Location) FulfilledFromLocation
- D. One-to-one Lookup (Location) FulfilledFromLocationId

Answer: D

NEW QUESTION # 90

Which data type is the Status field on an Order Summary object?

- A. Picklist
- B. Text
- C. String
- D. Number

Answer: A

Explanation:

The Status field on an Order Summary object is a picklist data type. A picklist is a field that allows users to select one value from a predefined list of values. The Status field on an Order Summary object indicates the current state of the order, such as Draft, Activated, Completed, or Cancelled. The values for the Status field are defined in the OrderStatus picklist field on the Order object. Reference: Order Management Objects, [Picklist Fields]

NEW QUESTION # 91

An administrator needs to send an Outbound Message to an external accounting system whenever a Fulfillment Order is created. What is the best practice to create this functionality?

- A. Create a Process Builder
- B. Create an Apex Trigger
- C. Create a Flow
- D. Create a Workflow Rule

Answer: C

NEW QUESTION # 92

What are two items that an administrator should consider when building out a flow for one location vs multiple locations?

- A. Multiple locations can lead to limit exceptions
- B. A default warehouse location should be set first in flows handling multiple locations
- C. Having multiple locations mandates writing custom Apex code
- D. Multiple locations will introduce nested loops which can make the canvas substantially larger

Answer: A,D

Explanation:

When building a flow for multiple locations, an administrator should consider the following challenges:

Multiple locations will introduce nested loops which can make the canvas substantially larger. For example, a flow that handles multiple fulfillment orders per order and multiple fulfillment order lines per fulfillment order will need to loop through both levels of records. This can make the flow more complex and harder to maintain.

Multiple locations can lead to limit exceptions. For example, a flow that queries or updates a large number of records across multiple locations may hit the SOQL query limit or the DML statement limit. To avoid this, an administrator should use bulkified actions and optimize the flow performance. Reference: Order Fulfillment Flows, [Flow Performance Best Practices]

NEW QUESTION # 93

.....

On the one hand, our AP-219 quiz torrent can help you obtain professional certificates with high quality in any industry without any difficulty.
