ISO-IEC-27001-Foundation Free Brain Dumps - Pdf Demo ISO-IEC-27001-Foundation Download

By reviewing these results, you will be able to know and remove your mistakes. These ISO-IEC-27001-Foundation practice exams are created as per the pattern of the ISO-IEC-27001-Foundation real examination. Therefore, ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) mock exam takers will experience the real exam environment. It will calm down their nerves so they can appear in the APMG-International ISO-IEC-27001-Foundation final test without anxiety or fear.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22
Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an internal audit of the organization
- B. Conduct an audit of an Accredited Training Organization
- C. Conduct an audit of a Certification Body
- D. Conduct a surveillance audit of their own area of the organization

Answer: A

Explanation:
ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 23

Which statement describes Annex A of ISO/IEC 27001?

- A. Provides measures to determine risk treatment effectiveness
- B. Provides a reference list of information security controls and their requirements
- C. Defines a mandatory list of controls that shall be implemented
- D. Defines the criteria for accepting risks

Answer: B

Explanation:
Annex A of ISO/IEC 27001:2022 is titled:
"Reference control objectives and controls." It provides a reference list of information security controls, structured into 4 themes: organizational, people, physical, and technological.
The standard explicitly states in Clause 6.1.3: "Organizations can design controls as required or identify them from any source. Annex A contains a list of possible information security controls." This means controls in Annex A are not mandatory (eliminating option C). Risk acceptance criteria (A) are defined in Clause 6.1.2, not Annex A. Annex A also does not provide measures for treatment effectiveness (D).
Thus, Annex A is best described as a reference list of information security controls. Correct answer: B.

NEW QUESTION # 24
Which aspect of ISO/IEC 27001 requires that contractors know about the organization's information security policies?

- A. Competence
- B. Communication
- C. Nonconformity and corrective action
- D. Awareness

Answer: D

Explanation:
Clause 7.3 (Awareness) requires:
"Persons doing work under the organization's control shall be aware of: (a) the information security policy; (b) their contribution to the effectiveness of the ISMS, including the benefits of improved information security performance; (c) the implications of not conforming with the ISMS requirements." This applies not only to employees but also contractors and external parties under the organization's control.
Competence (B) requires having skills, training, and experience, while Communication (C) covers defining communication processes (Clause 7.4). Nonconformity and corrective action (A) is part of Clause 10 (Improvement).
Therefore, the specific requirement that ensures contractors are made aware of the information security policies is found in Clause 7.3 Awareness. Correct answer: D.

NEW QUESTION # 25
Which statement describes the Classification of information control in Annex A of ISO/IEC 27001?

- A. Ensures the rules to control physical and logical access apply to assets
- B. Ensures that information is classified based on confidentiality, integrity and availability
- C. Ensures that security perimeters are used to protect assets
- D. Ensures that all information assets are labelled with their classification

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.5.12 (Classification of information) states:
"Information should be classified according to the information security needs of the organization based on confidentiality, integrity and availability." This aligns directly with option B. Option A (labelling) is a separate control (Annex A.5.13). Option C (security perimeters) is under physical controls (Annex A.7.1). Option D (access control rules) relates to Annex A.5.15 and A.8.2.
Thus, the verified correct statement for the Classification of information control is B.

NEW QUESTION # 26

Identify the missing word(s) in the following sentence.

When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. communicate
- B. evaluate the effectiveness of
- C. apply competent resources to
- D. improve the effectiveness of

Answer: B

Explanation:

Clause 6.1.1 (Planning) states:

"The organization shall plan:

d) actions to address these risks and opportunities; and

e) how to:

* integrate and implement the actions into its ISMS processes; and

* evaluate the effectiveness of these actions."

This confirms the missing words are"evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 27

......

Our company constantly increases the capital investment on the research and innovation of our ISO-IEC-27001-Foundation study materials and expands the influences of our study materials in the domestic and international market. Because the high quality and passing rate of our ISO-IEC-27001-Foundation study materials more than 90 percent that clients choose to buy our study materials when they prepare for the test ISO-IEC-27001-Foundation Certification. We have established a good reputation among the industry and the constantly-enlarged client base. Our sales volume and income are constantly increasing and the clients' credibility towards our ISO-IEC-27001-Foundation study materials stay high.
