PRINCE2 Practitioner Exam Sample Questions (Q57-Q62):

NEW QUESTION # 57

MANAGING PRODUCT DELIVERY

Stage 2 is in progress. While producing the team plan, the team manager responsible for the work package to develop the 'classroom-based training material' discovered that the representatives assigned to check the products were unsuitable. Which action should the team manager take in response?

- A. Advise the project manager of this risk.
- B. Discuss the situation with project assurance.
- C. Raise an exception report to the project manager.
- D. Update the quality register with these concerns.

Answer: A

Explanation:

Managing a Stage Boundary and Closing a Project

Question Set 1

NEW QUESTION # 58

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Timing of risk management activities heading?

- A. During stage 4, the selected service provider will manage any risks to their Business Case and report these to the Project Manager on a weekly basis.
- B. When closing a project, the follow-on action recommendations should be updated with any risks relating to the realization of benefits after the outsourced services go live.
- C. The Project Board should hold monthly meetings to review project progress.
- D. When authorizing a stage, the Project Board will check that the exposure to risk is still acceptable.
- E. Any new risks identified during product development should be reported to the Project Manager by the Team Manager when delivering the completed Work Package.

Answer: C,D

NEW QUESTION # 59

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Risk management procedure heading?

- A. Every threat and opportunity identified must be clearly defined in terms of cause, event and effect.
- B. Any risk which has an expected value of more than £1 k will NOT be registered.
- C. Probability will be assessed against the scales defined in this Risk Management Strategy.
- D. When a new problem arises, a full impact analysis will be undertaken to assess the impact on the project' objectives and Business Case.
- E. 'Reduce' Response actions which result in a lower impact and/or probability rating.

Answer: A,C

NEW QUESTION # 60

Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

Do nothing.

Re-engineer selected business functions.

Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

One service provider should be contracted to provide the services currently provided by the Information Technology Division and

the Facilities Division.

A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

Use PRINCE2.

Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost £2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of £20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage.

Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Expected dis-benefits heading?

- A. Staff may lose the opportunity to work in Information Technology.
- B. MFH will lose direct control over the outsourced business functions.
- C. An investment of £2.5m is required.
- D. Staff morale will be negatively affected.
- E. The project will take two years to deliver.

Answer: B,E

NEW QUESTION # 61

Whilst identifying the mailing costs for the calendars the Project Manager was surprised to find the costs could vary considerably depending on the size of the package and the delivery service used. For the purpose of this project, the Project Manager has selected an appropriate service but feels that a corporate standard for postage would have reduced the time and effort invested. It could reduce the company's overheads by up to £20k per year. How should the Project Manager record this observation within the project?

- A. Make an entry in the Lessons Log for future consideration by corporate management.
- B. Record the observation in an Exception Report to the Project Board.
- C. Make a note of the observation in the Daily Log to be transferred to a Benefits Review Plan at the end of the project.
- D. Produce a project mandate, outlining the potential savings to be achieved by the introduction of a corporate standard.

Answer: A
