Microsoft MB-335 Questions - With 25% Discount Offer [2026]

ITCertMagic MB-335 valid exam dumps will help you pass the actual test at first time, and you do not try again and again. Try the Microsoft MB-335 free demo and assess the validity of our MB-335 practice torrent. You will enjoy one year free update after purchase of Microsoft study dumps. The comprehensive contents of MB-335 Pdf Dumps will clear your confusion and ensure a high pass score in the real test.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q25-Q30):

NEW QUESTION # 25

An automobile manufacturer leases cars to companies for use as company cars.

A car leased to a company breaks down and requires repairs.

You must open a maintenance request and replace the car with an equivalent model until the original car is repaired and returned to the company. When the manufacturer receives and inspects the car, the replacement car can be released to the company.

You need to select the maintenance request components to use.

Which components should you use? To answer, drag the appropriate components to the correct assets. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Note: Each correct selection is worth one point.

□

Answer:

Explanation:

□ Explanation:

To select the maintenance request components to use, you should use the following:

* The leased car that must be repaired: You should use the Inbound asset component. An inbound asset is an asset that is received from a customer or vendor for maintenance or repair¹. You can use the Inbound assets page to create and manage inbound assets in Asset Management². You can also create a maintenance request for an inbound asset and link it to a work order³.

* The replacement car for the leased car: You should use the Outbound asset component. An outbound asset is an asset that is sent to a customer or vendor as a temporary replacement for an asset that is being maintained or repaired¹. You can use the Outbound assets page to create and manage outbound assets in Asset Management. You can also link an outbound asset to an inbound asset or a work order.

1: Inbound and outbound assets 2: Inbound assets 3: Create a maintenance request for an inbound asset :

[Outbound assets]

NEW QUESTION # 26

An automobile manufacturer leases cars to companies for use as company cars.

A car leased to a company breaks down and requires repairs.

You must open a maintenance request and replace the car with an equivalent model until the original car is repaired and returned to the company. When the manufacture' receives and inspects the car, the replacement car can be released to the company.

You need to select the maintenance request components to use.

Which components should you use? To answer, drag the appropriate components to the correct assets. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Note: Each correct selection is worth one point.

□

Answer:

Explanation:

□ Explanation:

To select the maintenance request components to use, you should use the following:

* The leased car that must be repaired: You should use the Inbound asset component. An inbound asset is an asset that is received from a customer or vendor for maintenance or repair¹.
