Practice Assessment for Exam MS-700: Managing Microsoft Teams

Question 48 of 50

Your company has a Microsoft 365 subscription. All users are licensed for Microsoft 365 E5 and are configured for Direct Routing. You configure the global caller ID policy to replace the caller ID with anonymous. You need to configure the caller ID to meet the following requirements:

- The caller ID of the CIO must be anonymous, but the CIO must be able to override the setting.
- The caller ID of users in the sales department must always be displayed.
- The caller ID of all other users must be anonymous.

What is the minimum number of required caller ID policies?

1

2

This answer is incorrect.

3

This answer is correct.

4

The answer is 2. To satisfy the requirements, you would do the following: Modify the existing global caller ID policy and configure an anonymous caller ID with override disabled. You would then create a new policy targeting the sales department. This policy will be configured to display 'User's number' with override disabled. Finally, you create a second policy for the CIO, configured for anonymous caller ID but with override enabled.
