Cisco Small and Medium Business Sales Sample Questions (Q11-Q16):

NEW QUESTION # 11

Why are service-centric approaches by Managed Service Providers critical for SMB success with Cisco?

- A. They disregard customer-specific needs
- B. They prioritize short-term engagements
- C. They focus on lowering service quality to reduce costs
- **D. They ensure long-term operational efficiency and adaptability**

Answer: D

NEW QUESTION # 12

What is the primary goal of Cisco SMB solutions?

- A. Replace all infrastructure
- B. Focus only on enterprises
- **C. Provide scalable and secure solutions**
- D. Eliminate cloud services

Answer: C

Explanation:

Cisco SMB solutions help businesses grow securely and efficiently using scalable networking, collaboration, and cloud-managed technologies with lower operational complexity and cost.

NEW QUESTION # 13

Which security feature provides insights into Internet activity and facilitates real-time activity search?

- A. Control Hub
- B. Duo
- **C. Secure Web Gateway**
- D. Cloud-Delivered AI

Answer: C

Explanation:

A Secure Web Gateway (SWG) provides insights into internet activity and facilitates real-time activity search. It monitors and controls web traffic, enforcing security policies to protect against threats and ensuring compliance with corporate policies. SWG solutions offer visibility into user activity on the internet and allow for the analysis and searching of real-time activity data.

1. Internet Activity Monitoring: SWGs provide detailed visibility into web traffic, enabling organizations to monitor user behavior and internet activity.
2. Real-Time Activity Search: They allow IT administrators to search and analyze real-time activity data to identify potential threats

and enforce security policies.

3. Threat Protection: SWGs protect users from web-based threats such as malware, phishing, and malicious websites by filtering and blocking harmful content.

NEW QUESTION # 14

Which Cisco solution provides end-to-end visibility from every user to any application?

- A. ThousandEyes
- B. Meraki Dashboard
- C. Cisco Control Hub
- D. Cisco Overwatch

Answer: A

Explanation:

ThousandEyes provides end-to-end visibility from every user to any application, which is crucial for maintaining optimal network performance and user experience. It offers detailed insights into network paths and application delivery, enabling IT teams to monitor and troubleshoot performance issues across the entire network, including the internet, cloud, and enterprise networks.

1. End-to-End Visibility: ThousandEyes provides comprehensive visibility into the entire network path, from the user to the application, regardless of the location or network segments involved.
2. Network and Application Performance Monitoring: It continuously monitors the performance of applications and the underlying network, identifying bottlenecks and issues affecting user experience.
3. Troubleshooting and Analysis: ThousandEyes offers powerful tools for diagnosing and resolving performance issues, providing detailed metrics and analysis to pinpoint the source of problems.

NEW QUESTION # 15

Which Cisco product is part of the Secure SMB experience for enabling people?

- A. Meraki MX
- B. Cisco Secure Email
- C. Stealthwatch
- D. Umbrella

Answer: D

Explanation:

Cisco Umbrella is a key part of the Secure SMB experience for enabling people. Umbrella provides comprehensive security for SMBs by protecting against internet-based threats, offering DNS-layer security, and blocking malicious domains and IP addresses before they can impact the network. This helps ensure that users can work securely from anywhere, providing a safer and more productive environment.

1. DNS-layer Security: Umbrella blocks requests to malicious domains and IP addresses at the DNS layer, preventing threats before they reach the network.
2. Comprehensive Protection: It provides protection against phishing, malware, and command-and-control callbacks, securing users both on and off the network.
3. Ease of Use: Umbrella is easy to deploy and manage, making it an ideal solution for SMBs with limited IT resources.
