Salesforce Certified Nonprofit Cloud Consultant Exam Sample Questions (Q166-Q171):

NEW QUESTION # 166

A nonprofit organization wants to automate some of its routine activities. Which declarative Salesforce solution is designed for process automation?

- A. Einstein
- **B. Lightning Flow**
- C. Pardot
- D. NPSP TDTM

Answer: B

NEW QUESTION # 167

A nonprofit organization wants to integrate its event management system and Salesforce. The organization wants to automatically send event and event attendee data from its event management system and create Campaigns and Campaign Members in Salesforce on a daily basis. What should the consultant recommend?

- A. Export event and event attendee information to the NPSP Import Template and import into Salesforce
- B. Export Campaign and Campaign Member information and import into the event management system
- C. Consider using Salesforce Connect
- **D. Consider using a middleware tool to integrate the event management system with Salesforce**

Answer: D

Explanation:

Integrating an external event management system with Salesforce can be efficiently achieved using a middleware tool. Middleware tools are designed to facilitate communication and data transfer between different systems, automating processes and ensuring data consistency.

* Middleware Tools:

* Middleware tools like Mulesoft, Dell Boomi, or Jitterbit are commonly used to integrate Salesforce with external systems.

* They offer robust functionalities for data transformation, real-time integration, and scheduled data synchronization.

* Integration Process:

* Data Mapping: Define how data fields in the event management system correspond to Salesforce fields.

* API Connectivity: Set up API connections between the event management system and Salesforce using the middleware tool.

* Automation: Schedule daily data transfers to automatically send event and attendee data to Salesforce, creating Campaigns and Campaign Members.

* Advantages:

* Real-time Data Transfer: Ensure that data is updated in real-time or at scheduled intervals without manual intervention.

* Data Consistency: Middleware tools help maintain data consistency and integrity across systems.

* Scalability: Easily handle large volumes of data and complex integration requirements.

* Implementation Steps:

* Choose a middleware tool based on the organization's requirements and budget.

* Configure the tool to connect to the event management system and Salesforce.

* Map the data fields and set up the necessary transformations.

* Test the integration thoroughly before going live.

NEW QUESTION # 168

The vice president of development of a nonprofit organization wants to be able to review giving in the pipeline at a high level, and track the organization's process towards finding new potential donors. The VP also wants to track program metrics as compared to donor histories. What should the consultant advise?

- A. Packaged NPSP dashboards cannot be edited. Recreate the NPSP Development Forecasting dashboard components. Add additional components to track program data.
- B. Review the reports on the NPSP Fundraising Reports folder. Create additional reports to track program data. Schedule each report to be sent to the vice president every morning.
- C. Packaged NPSP reports cannot be edited. Recreate all the reports found on the NPSP Development Forecasting dashboard to edit appropriately. Add additional reports to track program data.
- **D. Review the components that are already on the NPSP Development Forecasting dashboard. Create additional reports and edit the dashboard to add components to track the program data.**

Answer: D

Explanation:

To address the VP of development's needs:

Review Existing Dashboard: Start by reviewing the existing components on the NPSP Development Forecasting dashboard. This provides a high-level view of the current giving pipeline.

Create Additional Reports: Develop new reports to track program metrics and compare them to donor histories. These new reports should capture the necessary program data.

Edit Dashboard: Modify the existing dashboard to include the new components that reflect the additional program data and metrics. This approach leverages the existing infrastructure and enhances it to meet the organization's specific needs.

NEW QUESTION # 169

A nonprofit wants its supporters to send advocacy messages to elected officials and then record which supporters sent the messages.

Which two solutions should the consultant recommend to meet the requirement?

Choose 2 answers

- A. Set a new NPSP Engagement Level on a Contact every time a Contact sends an advocacy message.
- **B. Organize advocacy messages into Campaigns and add the Contacts who take action as Campaign Members.**
- **C. Use an online advocacy platform from the AppExchange that syncs to Salesforce.**
- D. Configure Marketing Cloud to send advocacy messages from the supporters.

Answer: B,C

Explanation:

To track supporters who send advocacy messages to elected officials, the nonprofit can use the following solutions:

* Organize Advocacy Messages into Campaigns:

* Create a Campaign in Salesforce for each advocacy initiative.

* Add Contacts who take action (send messages) as Campaign Members. This allows the nonprofit to track participation and engagement within each advocacy campaign.

* Use an Online Advocacy Platform from the AppExchange:

* Select an advocacy platform from the Salesforce AppExchange that integrates with Salesforce.

These platforms are designed to facilitate advocacy efforts and automatically sync supporter actions with Salesforce.

* The platform can record which supporters sent messages and update Salesforce accordingly, ensuring accurate tracking and reporting.

These solutions provide a comprehensive approach to managing and tracking advocacy efforts, leveraging the capabilities of Salesforce and specialized advocacy tools.

NEW QUESTION # 170

A nonprofit wants to predict the likelihood of a contact recurring donor.

What should the consultant recommend to meet

- A. Create NPSP Levels for number of donations
- **B. Implement Einstein for Nonprofits**

- C. Create a Customizable Rollup Field for number
- D. Implement NPSP Enhanced Recurring Donations

Answer: B
