

# Frequent NS0-185 Update | Latest NS0-185 Exam Simulator

After decades of hard work, our products are currently in a leading position in the same kind of education market, our NS0-185 learning materials, with their excellent quality and constantly improved operating system, In many areas won the unanimous endorsement of many international customers. Advanced operating systems enable users to quickly log in and use, in constant practice and theoretical research, our NS0-185 learning materials have come up with more efficient operating system to meet user needs, so we can assure users here , after user payment , users can perform a review of the NS0-185 Exam in real time , because our advanced operating system will immediately send users NS0-185 learning material to the email address where they are paying , this greatly facilitates the user, lets the user be able to save more study time.

The best news is that during the whole year after purchasing, you will get the latest version of our NS0-185 exam prep study materials for free, since as soon as we have compiled a new version of the study materials, our company will send the latest one of our study materials to your email immediately. The experts in our company are always keeping a close eye on even the slightest change in the field. Therefore, we can assure that you will miss nothing needed for the NS0-185 Exam. What's more, the latest version of our study materials will be a good way for you to broaden your horizons as well as improve your skills.

## Latest NS0-185 Exam Simulator, NS0-185 Reliable Test Experience

TrainingQuiz also offer a free demo before the purchase of the Network Appliance NS0-185 exam prep material. You can try a free demo to examine the Network Appliance NS0-185 practice exam material of TrainingQuiz. Similarly, we also provide up to 365 days of free updates of Selling NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) exam product if the content of the real NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) exam questions changes after your shopping.

### Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam Sample Questions (Q120-Q125):

#### NEW QUESTION # 120

A customer wants to replace their ONTAP cluster CN1610 switches with Cisco Nexus 3132Q-V switches. They want to perform a non-disruptive upgrade.

Referring to the exhibit, which cable will be required to non-disruptively migrate to the new switches?

- A. a 100GbE QSFP28+ to 4x25GbE SFP28+ cable
- B. a 40GbE QSFP+ to 4x10GbE SFP+ cable
- C. a 10GbE SFP+ to SFP+ cable
- D. a 40GbE QSFP+ to QSFP+ cable

**Answer: D**

Explanation:

The CN1610 uses 10GbE SFP+, while the Cisco Nexus 3132Q-V provides 40GbE QSFP+ cluster ports. For non-disruptive migration, the interconnect must operate at 40GbE without breakout. AQSFP+ to QSFP+ 40GbE cables supports this requirement and is validated for cluster interconnect traffic. Breakout cables would change port topology and are not used during NDU migration.

### NEW QUESTION # 121

You are installing a new six-node ONTAP 9.8 cluster. You have completed the initial configuration of the cluster interconnect switches and the ONTAP cluster.

In this scenario, which feature should you enable?

- A. **cluster switch health monitor**
- B. cluster switch logging
- C. data center bridging protocol
- D. IPv6 on all cluster ports

#### Answer: A

Explanation:

After completing the initial configuration of a multi-node ONTAP cluster and its cluster interconnect switches, NetApp installation best practices require enabling proactive monitoring of the cluster network. The Cluster Switch Health Monitor (CSHM) is the ONTAP feature designed specifically for this purpose.

CSHM continuously monitors the health of supported cluster switches by collecting information such as switch configuration, port status, firmware versions, cabling, and error conditions. It validates this information against NetApp-supported configurations and best practices. When deviations or risks are detected, CSHM generates alerts and EMS messages that allow administrators to take corrective action before cluster communication is affected.

Cluster switch logging alone does not provide health analysis or proactive validation; it only records switch events. IPv6 is not required or recommended for cluster interconnect networks in standard ONTAP installations. Data Center Bridging (DCB) is used for specific Ethernet storage protocols and is not applicable to ONTAP cluster interconnect networks.

Therefore, enabling the cluster switch health monitor is the correct and required post-installation step.

### NEW QUESTION # 122

You want to add an AFF A400 HA pair to an existing cluster.

In this scenario, which LIF type is required?

- A. node-mgmt
- **B. intercluster**
- C. cluster-mgmt
- D. data

#### Answer: B

Explanation:

When expanding an ONTAP cluster by adding new nodes or HA pairs, intercluster LIFs are required to enable secure communication between clusters or nodes during join and expansion workflows. Intercluster LIFs provide IP-based connectivity used for cluster peering, node addition, and replication setup.

Cluster management LIFs are used for administrative access, node management LIFs provide per-node management access, and data LIFs are used for client I/O. None of these LIF types support the inter-node communication required during cluster expansion. Therefore, an intercluster LIF is required.

### NEW QUESTION # 123

You are assigned to install two DS2246 shelves, three DS4243 shelves, and one DS4486 shelf.

How many rack units (U space) should you account for in this rack layout?

- A. 6U
- B. 22U
- **C. 20U**
- D. 10U

**Answer: C**

Explanation:

NetApp rack unit (U) sizing is defined per shelf model:

- \* DS2246 = 2U each #  $2 \times 2U = 4U$
- \* DS4243 = 4U each #  $3 \times 4U = 12U$
- \* DS4486 = 4U # 4U

Total:  $4U + 12U + 4U = 20U$

Therefore, the correct answer is 20U.

**NEW QUESTION # 124**

You are deploying an 8-node AFF A700 using BES-53248 switches. Ports higher than 16 are not online. Which two steps must be taken? (Choose two.)

- A. Reload the switch
- B. Re-enable each port
- C. Reload the RCF file
- D. Reload the firmware

**Answer: B,C****NEW QUESTION # 125**

.....

First and foremost, we have high class operation system so we can assure you that you can start to prepare for the NS0-185 exam with our study materials only 5 to 10 minutes after payment. Fortunately, you need not to worry about this sort of question any more, since you can find the best solution in this website--our NS0-185 Training Materials. With our continued investment in technology, people and facilities, the future of our company has never looked so bright. There are so many advantages of our NS0-185 practice test and I would like to give you a brief introduction now.

**Latest NS0-185 Exam Simulator:** <https://www.trainingquiz.com/NS0-185-practice-quiz.html>

Once you purchase our NS0-185 study materials, you can download exam materials directly within 10 minutes, no need to wait, When you visit this page, I think you must be familiar with the NS0-185 certification and have some personal views about it, At present, Network Appliance Latest NS0-185 Exam Simulator certification exam is the most popular test, And we have helped thousands of Network Appliance aspirants in earning the NS0-185 certification.

Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam practice exam software has several mock exams, NS0-185 designed just like the real exam, worked as a research assistant in the same university before joining Network Research Belgium.

## **100% Pass Quiz Network Appliance - NS0-185 - Frenquent NetApp Storage Installation Engineer, ONTAP Professional Exam Update**

Once you purchase our NS0-185 Study Materials, you can download exam materials directly within 10 minutes, no need to wait, When you visit this page, I think you must be familiar with the NS0-185 certification and have some personal views about it.

At present, Network Appliance certification exam is the most popular test, And we have helped thousands of Network Appliance aspirants in earning the NS0-185 certification.

Network Appliance website is a valuable resource for you to learn about the NS0-185 exam updates or explore its online courses.
