NEW QUESTION # 117

DreamHouse Realty (DR) plans to invite individuals from several new companies to its Broker Portal and would like to differentiate the user experience for each company.

Which three options should the DR system administrator use to personalize the look and feel of the portal for each new brokerage? Choose 3 answers

- A. Branding Sets
- B. Page Variations
- C. Audience Sets
- D. Partner User Roles
- E. Audience Targeting

Answer: A,B,E

Explanation:

Branding sets allow the administrator to define the colors, fonts, logos, and images for different parts of the site, such as the header, footer, and body. Page variations allow the administrator to create different versions of a page with different layouts, components, and content. Audience targeting allows the administrator to create audiences based on user attributes, such as profile or company name, and display different branding sets or page variations to different audiences within the same site.
