Cisco 300-745 PDF Questions [2026] To Gain Brilliant Result

To keep pace with the times, we believe science and technology can enhance the way people study on our 300-745 exam materials. Especially in such a fast-pace living tempo, we attach great importance to high-efficient learning our 300-745 Study Guide. Therefore, our 300-745 study materials base on the past exam papers and the current exam tendency, and design such an effective simulation function to place you in the real exam environment.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q51-Q56):

NEW QUESTION # 51

A technology company has many remote workers who access corporate resources from various locations. The company must ensure that security policies are managed and enforced directly on endpoints, and endpoints are protected from threats regardless of location. Which firewall architecture meets the requirements?

- A. next-generation firewall
- B. traditional firewall
- C. web application firewall
- D. host-based firewall

Answer: D

Explanation:
A host-based firewall enforces security policies directly on endpoints, ensuring they remain protected regardless of location. This architecture provides consistent defense for remote workers accessing corporate resources from outside the traditional network perimeter.

NEW QUESTION # 52

When designing security for applications distributed across multiple cloud providers, what is a key consideration?

- A. MPLS cloud backbone routing
- B. Consistent identity and access policies
- C. High-performance DHCP services
- D. Local proxy deployment

Answer: B

Explanation:
Consistent identity and access management policies across cloud providers ensure uniform security controls and simplify governance in multi-cloud environments.

NEW QUESTION # 53

An administrator at a large university wants to ensure that the new employees have the right level of access when they are onboarded. The administrator asked the team to configure the cloud environment and ensure that new employees have the appropriate access based on their roles and responsibilities. Which technique must be recommended to ensure the right level of access?

- A. identity access management
- B. VPN
- C. security groups
- D. network access control list

Answer: A

Explanation:
Identity Access Management (IAM) enforces role-based access control, ensuring that new employees are automatically given the correct permissions aligned with their roles and responsibilities. This approach secures the cloud environment by preventing excessive or inappropriate access.

NEW QUESTION # 54

A video game company identified a potential threat of a SYN flood attack, which could disrupt the online gaming services and impact user experience. The attack can overwhelm network resources by exploiting the TCP handshake process, leading to server unavailability and degraded performance. To safeguard the company's infrastructure and ensure uninterrupted service, it is essential to enhance the security measures in place. The company must implement a solution that manages and mitigates the risk of such network-based attacks. Which security product must be implemented to mitigate similar risks?

- A. Cisco Umbrella
- B. Cisco Web Security Appliance
- C. Cisco Secure Endpoint

- D. Cisco Secure Firewall

Answer: D

Explanation:
A SYN flood attack is a type of DoS/DDoS attack targeting the TCP handshake process. The correct mitigation is deploying a Cisco Secure Firewall, which includes advanced intrusion prevention, SYN flood protection, and traffic management capabilities to prevent resource exhaustion and keep services available.

NEW QUESTION # 55
A furniture company recently discovered that the endpoint detection and response configuration flagged several malicious files on company-managed laptops. The company must enhance security to prevent known malicious files from being delivered to the network and endpoints. The new solution must enhance the company's ability to inspect and filter incoming traffic effectively. Which security product must be used to accomplish this goal?

- A. next-generation firewall
- B. traditional firewall
- C. host-based firewall
- D. eBPF

Answer: A

Explanation:
A next-generation firewall (NGFW) inspects and filters incoming traffic with deep packet inspection, intrusion prevention, and advanced malware filtering. This prevents known malicious files from reaching the network and endpoints, complementing the company's EDR solution.

NEW QUESTION # 56
......

In recruiting employees as IT engineers many companies look for evidence of all-round ability especially constantly studying ability more their education background. 300-745 dumps torrent can help you fight for Cisco certification and achieve your dream in the shortest time. If you want to stand out from the crowd, purchasing a valid 300-745 Dumps Torrent will be a shortcut to success. It will be useful for you to avoid detours and save your money & time.

Latest 300-745 Demo: https://www.testpassed.com/300-745-still-valid-exam.html

This is why our 300-745 prep for sure torrent is famous and our company is growing larger and larger, Cisco Test 300-745 Quiz No equipment limit for the App version, Practice more and study with the 300-745 Designing Cisco Security Infrastructure guide dumps by heart, you will pass the actual test successfully with high score, So we are willing to let you know the advantages of our 300-745 study braindumps.

In case your answer is high great then we guarantee you that you are on the right region, Quality guarantees, This is why our 300-745 prep for sure torrent is famous and our company is growing larger and larger.

Test 300-745 Quiz Valid Questions Pool Only at TestPassed

No equipment limit for the App version, Practice more and study with the 300-745 Designing Cisco Security Infrastructure guide dumps by heart, you will pass the actual test successfully with high score.

So we are willing to let you know the advantages of our 300-745 study braindumps, 100% singup free demo.
