## New 300-745 Test Prep - 300-745 Best Vce

We invited a large group of professional experts who dedicated in this 300-745 training guide for more than ten years. To improve the accuracy of the 300-745 guide preparations, they keep up with the trend closely. Every page is carefully arranged by them with high efficiency and high quality. Up to now, there are three versions of 300-745 Exam Materials for your choice. So high-quality contents and flexible choices of 300-745 learning mode will bring about the excellent learning experience for you.

## Cisco Designing Cisco Security Infrastructure Sample Questions (Q59-Q64):

### NEW QUESTION # 59

An engineering company's Chief Financial Officer recently fell victim to a phishing scam by responding to an urgent email. The email appeared to be from a trusted business partner, and it requested sensitive tax information. The incident led to significant financial and reputational damage. To prevent similar occurrences in the future, the security team must implement an effective mitigation strategy. Which mitigation strategy must the security team implement to prevent similar occurrences in the future?

- A. targeted education campaign
- B. granular port security strategy
- C. upstream traffic filter
- D. data loss prevention strategy

**Answer: A**

Explanation:

A targeted education campaign directly addresses phishing by training employees, especially high-value targets like executives, to recognize social engineering attempts. While technical controls help, phishing primarily exploits human behavior, so awareness and training are the most effective preventive measures.

### NEW QUESTION # 60

A pharmaceutical company needs hub-and-spoke VPN topology. The design must be capable of building either partial or full mesh

overlay networks. Which VPN solution must be implemented in the environment?

- **A. DMVPN**
- B. SSL VPN
- C. L2TP
- D. crypto maps

**Answer: A**

Explanation:

Dynamic Multipoint VPN (DMVPN) supports hub-and-spoke topologies while allowing flexibility to build partial or full mesh overlays as needed. It provides scalable and dynamic VPN tunnels without requiring static configuration, making it the best fit for the requirement.

#### NEW QUESTION # 61

An administrator at a large university wants to ensure that the new employees have the right level of access when they are onboarded. The administrator asked the team to configure the cloud environment and ensure that new employees have the appropriate access based on their roles and responsibilities. Which technique must be recommended to ensure the right level of access?

- A. security groups
- **B. identity access management**
- C. network access control list
- D. VPN

**Answer: B**

Explanation:

Identity Access Management (IAM) enforces role-based access control, ensuring that new employees are automatically given the correct permissions aligned with their roles and responsibilities. This approach secures the cloud environment by preventing excessive or inappropriate access.

#### NEW QUESTION # 62

How does a SOC leverage flow collectors?

- **A. It provides data for analysis in threat detection and response system.**
- B. It performs data backup and recovery.
- C. It provides real time content filtering.
- D. It performs load balancing capabilities across systems to optimize performance.

**Answer: A**

Explanation:

A flow collector gathers metadata about network traffic (such as NetFlow or IPFIX), which SOC analysts use to analyze communication patterns. This data is critical for threat detection and response, helping identify anomalies, lateral movement, or potential attacks.

#### NEW QUESTION # 63

Network administrators at a medical facility cannot log in to network devices because of excessive resource consumption and high CPU utilization. The situation has led to delays in routine maintenance and troubleshooting, which affects overall network performance. An engineer must optimize the handling of traffic to reduce the impact and maintain consistent access and operational efficiency. Which approach must be implemented to meet the requirement?

- **A. Control Plane Policing**
- B. SNMP
- C. RBAC
- D. AAA

**Answer: A**

Explanation:

Control Plane Policing (CoPP) protects the CPU of network devices by filtering and rate-limiting control plane traffic. This prevents excessive resource consumption, ensures stability, and maintains administrator access for maintenance and troubleshooting.

## NEW QUESTION # 64

.....

If you fail to get success in the Cisco 300-745 test, you can claim your money back according to some terms and conditions. If you want to practice offline, use our Cisco 300-745 desktop practice test software. Windows computers support this software. The 300-745 web-based practice exam is compatible with all browsers and operating systems.
