Updated Salesforce Process-Automation Dumps [2026] - Tips For Better Preparation

Without self-assessment, you cannot ace the Process-Automation test. To ensure that you appear in the final Salesforce Process Automation Accredited Professional (Process-Automation) examination without anxiety and mistakes, VCEEngine offers desktop Salesforce Process-Automation Practice Test software and web-based Process-Automation practice exam. These Process-Automation practice tests are customizable, simulate the original Process-Automation exam scenario, and track your performance.

Salesforce Process Automation Accredited Professional Sample Questions (Q43-Q48):

NEW QUESTION # 43
In which three ways can a flow designer distribution flows that involve user interaction?

- A. Custom Lightning web components
- B. Field Portal Mobile App
- C. Flow actions
- D. Microservice Frame
- E. Lightning pages

Answer: A,C,E

Explanation:
A flow designer can distribute flows that involve user interaction through Lightning pages (B), Flow actions (C), and Custom Lightning web components (D). Lightning pages allow embedding flows directly onto various Salesforce pages, such as record pages, home pages, or app pages, providing a seamless user experience. Flow actions enable users to initiate flows from buttons, links, or related lists. Custom Lightning web components can be designed to incorporate flows, offering a highly customizable way to integrate flows into the Salesforce UI.Reference: Salesforce Help Documentation on Flow Distribution Methods.

NEW QUESTION # 44
Universal Containers (UC) Administrator wants to integrate a new external data object with Salesforce. In Salesforce Flow, they are not able to see the External Object. What could be the possible reason?

- A. The External Object is not under "Deployed" status
- B. The service referenced by the External Object is down
- C. The user has not properly configured OAuth
- D. There should be pre-existing data in the External Object

Answer: A

NEW QUESTION # 45
Universal Containers (UC) would like to log a call for a given incident. UC would like to use Salesforce functionality to support the call logging process, allowing internal users to enter call information quickly and easily outside of Salesforce. UC has recently purchased Slack.

What solution should the UC Administrator consider?

- A. It is not possible to enter call logging information in Salesforce from an external system
- B. Download "Slack Plus" app from AppExchange and install for all users
- C. Enable Slack Bot for Service in Setup
- D. Configure the incident call logging Screen Flow to launch from a Slack action

Answer: D

NEW QUESTION # 46
Which three actions can a business analyst take with a process action?

- A. Import field values from another record and merge them with the record that started the process
- B. Create and update the records that started the process or any related record.
- C. Submit the record tor approval.
- D. Send email and/or Post to Chatter.
- E. Export up to 3 resources that are currently being used in the t\ov* or process.

Answer: B,C,D

NEW QUESTION # 47
In which three ways can a flow designer distribute flows that involve user interaction?

- A. Custom Lightning web components
- B. Field Portal Mobile App
- C. Flow actions
- D. Microservice Frame
- E. Lightning pages

Answer: A,C,E

Explanation:
Flows involving user interaction can be distributed in several ways, including through Flow actions (quick actions that launch a flow), embedding in Custom Lightning Web Components (LWCs) for more complex UIs or specific functionality, and adding to Lightning Pages via the Lightning App Builder for visibility on record, app, home, and other page types.Reference: Salesforce Help - Distribute Flows
