SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q41-Q46):

NEW QUESTION # 41
Which type of order represents a logical grouping and is used in communication between shippers and consignees?

- A. Sales order
- B. Freight order
- C. Service order
- D. Consignment order

Answer: D

Explanation:
Transportation Planning

NEW QUESTION # 42
A carrier has responded to your request for quotation but was NOT automatically assigned to the freight order. What could be reasons for this? Note: There are 2 correct answers to this question.

- A. The tendering process was set to "Direct Tendering - Send Freight Order Directly".
- B. The tendering profile contains a subsequent step.
- C. The carrier responded after the response time had expired.
- D. The program to evaluate freight quotations was NOT executed.

Answer: C,D

Explanation:
In SAP S/4HANA Transportation Management, automatic carrier assignment during the tendering process depends on specific conditions being met. According to the SAP documentation:
* The carrier responded after the response time had expired (A)prevents automatic assignment because the tendering process only considers responses received within the defined time window. Late responses are ignored for automatic assignment.
* The program to evaluate freight quotations was NOT executed (C)means that the system did not process the carrier's response to assign it to the freight order. The evaluation program (e.g., a background job) is required to analyze quotations and assign the carrier based on criteria like cost or priority.
The other options are incorrect:
* Direct Tendering - Send Freight Order Directly (B)bypasses the quotation process and assigns the freight order directly to a carrier, so it would not prevent automatic assignment.
* The tendering profile contains a subsequent step (D)affects the sequence of tendering but does not inherently prevent automatic assignment if the response is valid and evaluated.

NEW QUESTION # 43
Organizational structures can be maintained directly in SAP TM. Determine whether this statement is true or false.

- A. true
- B. false

Answer: A

NEW QUESTION # 44
You want to set up charge calculation for freight orders. Valid charges should consist of a base charge based on the distance and gross weight of the freight order, and a supplemental charge per container that is included in the freight order. Multiple containers are allowed for each freight order, and the charge is based on the container type. The container type can be small, medium, or large. What is the minimum number of charge lines with instruction type "standard" that you must set up?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION # 45
You want to ensure that the system interprets rates entered into the rate table as percentages where can you make this setting?

- A. In the calculation sheet
- B. In the scale
- C. In the charge type
- D. In the instruction type

Answer: C
