BONUS!!! Download part of It-Tests C-ACDET-2506 dumps for free: [https://drive.google.com/open?id=15CC\\_x3Sw1REeAncIMqtLwWfX79z--91](https://drive.google.com/open?id=15CC_x3Sw1REeAncIMqtLwWfX79z--91)

Solutions is one of the top platforms that has been helping SAP C-ACDET-2506 exam candidates for many years. Over this long time period countless candidates have passed their dream C-ACDET-2506 exam. They all got help from Exams. The SAP C-ACDET-2506 questions are designed by experience and qualified C-ACDET-2506 expert. They work together and strive hard to design and maintain the top standard of It-Tests C-ACDET-2506 Questions. So you rest assured that the SAP C-ACDET-2506 questions you will not only ace your SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite certification exam preparation but also be ready to perform well in the final C-ACDET-2506 exam.

## SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• <b>Project Overview, Roles and Responsibilities:</b> This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• <b>Field Configuration:</b> This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>Deploy and Migration:</b> This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.</li> </ul>

## C-ACDET-2506 Top Exam Dumps | Test C-ACDET-2506 Cram Review

Our C-ACDET-2506 exam dumps are required because people want to get succeed in IT field by clearing the certification exam. Passing C-ACDET-2506 practice exam is not so easy and need to spend much time to prepare the training materials, that's the reason that so many people need professional advice for C-ACDET-2506 Exam Prep. The C-ACDET-2506 dumps pdf are the best guide for them passing test.

### SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q48-Q53):

#### NEW QUESTION # 48

A customer requests a dynamic list from CSV.  
Which field type supports that?

- A. Computed Field
- **B. Flex Master Data-based field**
- C. Hyperlink
- D. Single-Select Enum

**Answer: B**

#### NEW QUESTION # 49

During which SAP Activate Methodology phase do you define the customer requirements?

- **A. Explore**
- B. Discover
- C. Define
- D. Design

**Answer: A**

#### NEW QUESTION # 50

How can you define default values on fields?

- A. Default values are not permitted
- **B. Set as Constants or Expressions based on other field values**
- C. Set only for Constant values
- D. Default values must be manually entered by the user

**Answer: B**

Explanation:

SAP Ariba allows you to definedefault values for fields either as static Constants or as dynamic Expressionsbased on other field values. Expressions use the Ariba expression language, supporting logical comparisons and operators to calculate defaults dynamically during data entry. This enables tailored defaulting logic that adapts to form context or user input. Default values are applied automatically by the system; users do not have to enter them manually unless they override the defaults. This flexibility improves data accuracy and user experience.

### NEW QUESTION # 51

What is the key role of the SAP Deployment Lead assigned to the project?

- A. To perform configuration changes required to the SAP Ariba Strategic Sourcing suite solutions
- B. To advise the customer and partner in solution configurations
- C. To Test and Validate the solution prior to go-live
- **D. To act as the liaison between the customer and SAP Support in resolving technical issues and manage customer escalations**

**Answer: D**

### NEW QUESTION # 52

When preparing to load legacy contracts during a Bluefield deployment in SAP Ariba Contracts, which of the following actions are required to ensure a successful migration?

- A. Manually enter legacy contract data into SAP Ariba Contracts using the application's UI instead of using import tools.
- **B. Use the exact same process and tools as used in the Greenfield migration scenario to upload legacy contracts.**
- C. Skip the legacy contract upload step if the Production site already contains migrated Flex Master Data Templates.
- D. Create a new customized contract upload process specifically for Bluefield deployments to accommodate differences in site structure.

**Answer: B**

Explanation:

In Bluefield deployments, the legacy contract migration process is the same as in Greenfield deployments.

The standard approach uses SAP Ariba's import tools to upload contract data in bulk; no special new processes are needed.

Manual entry via UI is inefficient and error-prone. Also, existing Flex Master Data Templates do not negate the need to migrate legacy contract data.

Following the established Greenfield procedures ensures data consistency and alignment with configured templates and workflows in the target environment. This includes exporting contract data from legacy systems, validating, transforming as needed, and importing through the Production UI under contract management.

This standardization simplifies migrations across different deployment scenarios.

### NEW QUESTION # 53

.....

If you buy online classes, you will need to sit in front of your computer on time at the required time; if you participate in offline counseling, you may need to take an hour or two on the commute to class. But if you buy C-ACDET-2506 exam material, things will become completely different. SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite study questions will provide you with very flexible learning time. Unlike other learning materials on the market, C-ACDET-2506 exam guide has an APP version. You can download our app on your mobile phone. And then, you can learn anytime, anywhere. Whatever where you are, whatever what time it is, just an electronic device, you can practice. With SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite study questions, you no longer have to put down the important tasks at hand in order to get to class; with C-ACDET-2506 Exam Guide, you don't have to give up an appointment for study. Our study materials can help you to solve all the problems encountered in the learning process, so that you can easily pass the exam.
