1z0-1093-25 Exam Study Guide - 1z0-1093-25 Exam Material

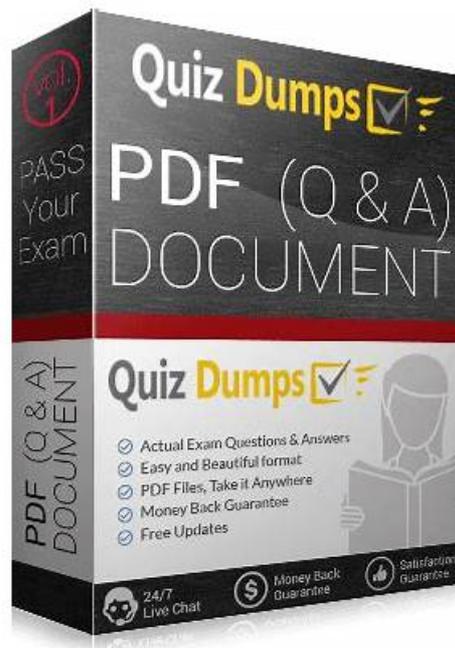

P.S. Free & New 1z0-1093-25 dumps are available on Google Drive shared by PassTestking: https://drive.google.com/open?id=12gEqcNrJMh7GlZ9JTwjFzR60vceUa2ku

As long as you get to know our 1z0-1093-25 exam questions, you will figure out that we have set an easier operation system for our candidates. Once you have a try, you can feel that the natural and seamless user interfaces of our 1z0-1093-25 study materials have grown to be more fluent and we have revised and updated 1z0-1093-25 Study Materials according to the latest development situation. In the guidance of teaching syllabus as well as theory and practice, our 1z0-1093-25 training guide has achieved high-quality exam materials according to the tendency in the industry.

PassTestking can provide a shortcut for you and save you a lot of time and effort. PassTestking will provide good training tools for your Oracle Certification 1z0-1093-25 Exam and help you pass Oracle certification 1z0-1093-25 exam. If you see other websites provide relevant information to the website, you can continue to look down and you will find that in fact the information is mainly derived from our PassTestking. Our PassTestking provide the most comprehensive information and update fastest.

1z0-1093-25 Exam Preparation: Oracle Cloud Database Services 2025 Professional & 1z0-1093-25 Best Questions

Career grooming with 1z0-1093-25 exams are your right. Rather, it has become necessary in the most challenging scenario of enterprises. Like most of the professionals, you might find it tough and beyond your limits. Here comes the role of PassTestking 1z0-1093-25 Dumps to encourage you and make it possible for you to step ahead with confidence. The growing network of our clientele proves that our dumps work wonders and help you gain a definite success in your 1z0-1093-25 certification exams.

Oracle Cloud Database Services 2025 Professional Sample Questions (Q32-Q37):

NEW QUESTION # 32
Within the context of Oracle Cloud Infrastructure (OCI) Base Database Service (BaseDB) virtual machine (VM) provisioning, which action is typically the RESPONSIBILITY of the customer?

- A. Automatically applying critical security patches to the operating system.
- B. Managing the Oracle Grid Infrastructure software stack.
- C. Maintaining the OCI hypervisor software.
- D. Ensuring the underlying hardware infrastructure remains fault-tolerant.

Answer: B

Explanation:
B: Managing the Oracle Grid Infrastructure software stack:
* Customers are responsible for the installation, configuration, and maintenance of the Oracle Grid Infrastructure when using BaseDB VMs.
* This includes managing Oracle Clusterware and Automatic Storage Management (ASM) if applicable.
* Ensuring the Grid Infrastructure's availability and performance is part of customer-managed tasks.
Why the other options are incorrect:
* A. Hardware fault tolerance:Managed by Oracle Cloud Infrastructure.
* C. Hypervisor maintenance:Handled by Oracle as part of the OCI infrastructure.
* D. Security patching:While OCI provides tools, the responsibility for OS patching lies with the customer.

NEW QUESTION # 33
Which component aids in assessing the readiness of a MySQL instance for migration to MySQL HeatWave, specifically identifying potential compatibility issues?

- A. MySQL Shell Upgrade Checker Utility
- B. MySQL Enterprise Monitor
- C. Oracle Cloud Advisor
- D. Oracle SQL Developer
- E. MySQL Workbench

Answer: A

Explanation:
C: MySQL Shell Upgrade Checker Utility:
* The utility analyzes MySQL instances for compatibility with newer versions, such as MySQL 8.0 used by HeatWave.
* It checks for:
* Syntax differences
* Data type mismatches
* Deprecated features
* The tool outputs a report highlighting issues that may impact migration to HeatWave.
Why the other options are incorrect:
* A. MySQL Enterprise Monitor:Focuses on monitoring performance, not compatibility.
* B. Oracle SQL Developer:Primarily used for database development, not upgrade checks.
* D. Oracle Cloud Advisor:Provides cloud optimization recommendations, not MySQL compatibility checks.
* E. MySQL Workbench:A visual tool for database design and administration, not specifically for upgrade assessment.

NEW QUESTION # 34
Which two options correctly describe methods for accessing and managing the Exadata Infrastructure?

- A. Direct SSH access to the Exadata Infrastructure compute nodes is permitted for customers with root privileges.
- B. Management of the Exadata Infrastructure is primarily performed through the Oracle Cloud Infrastructure (OCI) console and APIs.
- C. The dbcli utility, used for database administration on VM DB Systems, can also be used to manage the Exadata Infrastructure.
- D. Customers have direct access to the Exadata storage cells, allowing them to modify storage configurations.
- E. Exadata Infrastructure management is solely managed by Oracle and is not directly accessible to customers.

Answer: B,E

Explanation:
Managing Exadata Infrastructure:
* OCI Console and APIs (B):The primary method for managing Exadata Infrastructure is through the Oracle Cloud Infrastructure Consoleand associated APIs. This includes provisioning, scaling, patching, and monitoring the Exadata environment.
* Oracle-Managed Infrastructure (E):Exadata Infrastructure management is fully handled by Oracle, which means customers do not have direct access to the underlying hardware. This managed approach ensureshigh availability and security.
Why the other options are incorrect:
* A:Customers do not have root access to Exadata compute nodes to ensure security and system integrity.
* C:Thedbcli utilityis designed for VM DB Systems, not Exadata Infrastructure management.
* D:Exadata storage cells are managed by Oracle, and customers cannot directly modify storage configurations.

NEW QUESTION # 35
When using a NoSQL Database Cloud Service SDK, what is the purpose of handling exceptions or errors returned by the SDK?

- A. To ensure data consistency by retrying failed operations.
- B. To provide detailed performance metrics to the database administrators.
- C. To automatically recover from hardware failures in the cloud.
- D. To implement custom logic for handling specific error conditions, such as record not found or insufficient capacity.

Answer: D

Explanation:
Exception Handling in SDKs:
When developing applications using theOracle NoSQL Database Cloud Service SDK, it is essential to implementerror handling logic. This typically includes managing cases like:
* Record Not Found:Handling situations where a queried record does not exist.
* Insufficient Capacity:Managing requests when throughput limits are exceeded.
* Network Failures:Retrying operations or providing fallback mechanisms.The goal is to buildrobust and resilient applicationsthat gracefully handle unexpected conditions.
Why the other options are incorrect:
* A:Cloud infrastructure handles hardware recovery, not the SDK.
* B:While retrying may ensure consistency, it is the developer's responsibility to implement it.
* C:Performance metrics are gathered via monitoring tools, not exception handling.

NEW QUESTION # 36
Which two of the following options are valid statements regarding the management of the operating system on a Base Database Service Virtual Machine DB System?

- A. Oracle manages the underlying operating system patching and updates, ensuring the system remains secure and compliant.
- B. Customers are responsible for the security and maintenance of the operating system, including applying necessary patches and updates.
- C. Customers have full root access to the underlying operating system of the Virtual Machine DB System, allowing for customization and installation of custom software.
- D. Customers are responsible for the initial OS installation, but then patching is controlled entirely by Oracle.
- E. Direct SSH access to the underlying VM is restricted, and all OS-level operations must be performed through the Web Console.

Answer: B,C

Explanation:
B: Full root access:
* Customers have root-level access to manage the OS, install custom software, and configure settings.
* This provides flexibility to meet specific application requirements.
D: Responsibility for OS security:
* With root access, customers must manage OS security, including updates and patches.
* Oracle provides tools to facilitate patching, but the responsibility lies with the customer.
Why the other options are incorrect:
* A. Restricted SSH access:SSH access is allowed for VM DB systems.
* C. Oracle-managed OS patching:Oracle does not automatically patch the OS; this is a customer responsibility.
* E. Initial OS installation by customers:The OS is pre-installed, but ongoing maintenance is customer- driven.

NEW QUESTION # 37

......

Everything needs a right way. The good method can bring the result with half the effort, the same different exam also needs the good test method. Our 1z0-1093-25 study materials in every year are summarized based on the test purpose, every answer is a template, there are subjective and objective exams of two parts, we have in the corresponding modules for different topic of deliberate practice. To this end, our 1z0-1093-25 Study Materials in the qualification exam summarize some problem- solving skills, and induce some generic templates.

1z0-1093-25 Exam Material: https://www.passtestking.com/Oracle/1z0-1093-25-practice-exam-dumps.html

If you choose our 1z0-1093-25 practice exam, it not only can 100% ensure you pass 1z0-1093-25 real exam, but also provide you with one-year free updating 1z0-1093-25 exam pdf, Oracle 1z0-1093-25 Exam Study Guide That's why we can guarantee 100% pass exam and No Help Full Refund, The thoughtfulness of our 1z0-1093-25 study materials services is insuperable, The Oracle 1z0-1093-25 exam material is getting updated on a daily basis according to the real Oracle 1z0-1093-25 exam questions so that the students don't face any issues while preparing themselves for the Oracle Cloud Database Services 2025 Professional (1z0-1093-25) certification exam and pass it with ease.

An object will play multiple roles in which each role defines the 1z0-1093-25 object behavior in a particular communication with other objects, This book is part of the Pearson Content Update Program.

Quiz 2026 1z0-1093-25: Oracle Cloud Database Services 2025 Professional Authoritative Exam Study Guide

If you choose our 1z0-1093-25 Practice Exam, it not only can 100% ensure you pass 1z0-1093-25 real exam, but also provide you with one-year free updating 1z0-1093-25 exam pdf.

That's why we can guarantee 100% pass exam and No Help Full Refund, The thoughtfulness of our 1z0-1093-25 study materials services is insuperable, The Oracle 1z0-1093-25 exam material is getting updated on a daily basis according to the real Oracle 1z0-1093-25 exam questions so that the students don't face any issues while preparing themselves for the Oracle Cloud Database Services 2025 Professional (1z0-1093-25) certification exam and pass it with ease.
