Training H19-341_V1.0 Solutions, H19-341_V1.0 Test Answers

The HCSP-Field-Intelligent Collaboration V1.0 (H19-341_V1.0) certification is one of the hottest career advancement credentials in the modern Huawei world. The Huawei H19-341_V1.0 certification can help you to demonstrate your expertise and knowledge level. With only one badge of H19-341_V1.0 Certification, successful candidates can advance their careers and increase their earning potential.

Huawei HCSP-Field-Intelligent Collaboration V1.0 Sample Questions (Q21-Q26):

NEW QUESTION # 21

What standard SDKs can IdeaHub provide for 3rd-party ISVs for quick integration and customization services? (Select All that can apply)

- A. Whiteboard SDK
- B. System root SDK
- C. Projection SDK
- D. Meeting SDK

Answer: A,C,D

Explanation:

Huawei provides a suite of open Software Development Kits (SDKs) to allow Independent Software Vendors (ISVs) to integrate IdeaHub's hardware capabilities into their own applications:

* Meeting SDK (A): Allows apps to invoke the 4K camera, microphone array, and hardware encoding/decoding.

* Whiteboard SDK (B): Allows apps to utilize the ultra-low latency writing and drawing capabilities of the touchscreen.

* Projection SDK (C): Enables third-party apps to implement wireless content sharing features natively.

System root SDK (D) is not provided. To ensure enterprise-grade security and protect system integrity, Huawei does not grant "root" access to 3rd-party applications.

NEW QUESTION # 22

Huawei IdeaHub S2 can use any non-pre-integrated OPS modules of other brands.

- A. TRUE
- B. FALSE

Answer: B

Explanation:

While the Huawei IdeaHub S2 features a standard 80-pin OPS (Open Pluggable Specification) slot, it is False to say it can use "any" third-party module without qualification. Huawei requires specific driver and BIOS compatibility to support the IdeaHub's specialized hardware functions, such as 4K video hardware acceleration, multi-touch signaling, and seamless system switching. Using non-certified third-party OPS modules often leads to performance degradation or total failure of the 4K display and touch capabilities.

NEW QUESTION # 23

How many high-definition video input ports does the Huawei Box 310 have?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

The Huawei CloudLink Box 310 is a next-generation Ultra-HD video conferencing terminal. It is designed with a specific set of physical ports to accommodate various meeting room setups:

* 2 x HDMI Input Ports: Typically used for one camera input and one presentation/content sharing input.

* 1 x HT-RX Port: This is a specialized all-in-one port that supports video transmission (up to 4K), camera control, and power supply over a single cable (up to 100 meters).

In total, the Box 310 provides 3 high-definition video input ports. Note that while the HT-RX and one of the HDMI ports are often used for the primary camera, they are physically distinct ports on the hardware chassis.

NEW QUESTION # 24

If the SC component fails during a conference call, how long does it take for the Huawei SMC to resume the call?

- A. Within 12s
- B. Within 15s
- C. Within 20s
- D. Within 10s

Answer: D

Explanation:

In the Huawei CloudVC solution, high availability is a core architectural requirement. When an SC (SwitchCenter) is deployed in a cluster or with a standby node, the system monitors the signaling heartbeat.

If the active SC fails, the SMC (Service Management Center) and the remaining SC nodes synchronize to take over the signaling

sessions. Huawei's enterprise-grade reliability ensures that this signaling recovery and call resumption happen within 10 seconds, minimizing the impact on the ongoing conference and preventing the media streams from being disconnected.

NEW QUESTION # 25

Which operating systems does Huawei IdeaHub S2 support for screen projection? (Select All that can apply)

- A. iOS
- B. Mac
- C. Windows
- D. Android

Answer: A,B,C,D

Explanation:

The Huawei IdeaHub S2 provides a universal projection ecosystem that supports all five major operating systems. It allows for seamless content sharing across:

* Android (A) and Windows (B): Supported via the IdeaShare App, IdeaShare Key, and native P2P (Peer-to-Peer) projection for 4K 30fps/60fps content.

* iOS (C) and macOS (D): Supported through the IdeaShare App and industry-standard protocols like AirPlay.

This cross-platform compatibility ensures that in any business or educational environment, participants can share their screens regardless of the device hardware they are using.

NEW QUESTION # 26

.....

Passing the test H19-341_V1.0 certification can help you realize your goal and find an ideal job. Buying our H19-341_V1.0 latest question can help you pass the exam successfully. H19-341_V1.0 exam question provides the free update and the discounts for the old client and our experts check whether our test bank has been updated on the whole day and if there is the update the system will send the update automatically to the client. Thus you can have an efficient learning and a good preparation of the exam. It is believed that our H19-341_V1.0 latest question is absolutely good choices for you
