

SAP C_TS422_2023 Dumps Cost & C_TS422_2023 Reliable Exam Cram

P.S. Free 2026 SAP C_TS422_2023 dumps are available on Google Drive shared by ITCertMagic:
<https://drive.google.com/open?id=1gkdcSUEG-MQ6z5oi62Nm4Sv5aVGtBdlz>

The quality of our C_TS422_2023 practice engine is trustworthy. We ensure that you will satisfy our study materials. If you still cannot trust us, we have prepared the free trials of the C_TS422_2023 study materials for you to try. In fact, we never cheat on customers. Also, our study materials have built good reputation in the market. You can totally feel relieved. Come to buy our C_TS422_2023 Exam Questions and you will feel grateful for your right choice.

SAP C_TS422_2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Process Orders in SAP S• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.
Topic 2	<ul style="list-style-type: none">• Lean Manufacturing in SAP S• 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.
Topic 3	<ul style="list-style-type: none">• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.
Topic 4	<ul style="list-style-type: none">• Master Data in SAP S• 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.
Topic 5	<ul style="list-style-type: none">• Material Requirements Planning in SAP S• 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.

Quiz Latest SAP - C_TS422_2023 Dumps Cost

In our study, we found that many people have the strongest ability to use knowledge for a period of time at the beginning of their knowledge. As time goes on, memory fades. Our C_TS422_2023 training materials are designed to help users consolidate what they have learned, will add to the instant of many training, the user can test their learning effect in time after finished the part of the

learning content, have a special set of wrong topics in our C_TS422_2023 Guide dump, enable users to find their weak spot of knowledge in this function, iterate through constant practice, finally reach a high success rate. As a result, our C_TS422_2023 study questions are designed to form a complete set of the contents of practice can let users master knowledge as much as possible, although such repeated sometimes very boring, but it can achieve good effect of consolidation.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q64-Q69):

NEW QUESTION # 64

Your project uses process orders for the production of liquid chemicals. What can you define to ensure that production flow only happens in suitable physically connected tanks? Note: There are 2 correct answers to this question.

- A. Resource hierarchy
- **B. Resource selection**
- C. Resource matrix
- **D. Resource network**

Answer: B,D

Explanation:

In SAP S/4HANA process manufacturing (using process orders, transaction COR1), managing production flow for liquid chemicals in physically connected tanks requires:

* Resource selection(B): In the master recipe (C201) or process order (COR2), you can define resource selection conditions (e.g., via classification in the resource, CRC1, Basic Data tab). This ensures only suitable tanks (e.g., based on attributes like material compatibility or capacity) are selected for operations, restricting production to physically appropriate resources.

* Resource network(D): A resource network (Customizing, Production > Process Order > Master Data > Define Resource Networks) defines the physical connections between resources (e.g., tanks, pipes) in a plant. It specifies valid flow paths (e.g., Tank A to Tank B), ensuring process orders (COR1) schedule operations only on connected tanks, enforced during scheduling or dispatching.

Resource hierarchy(A) (CR21) aggregates capacities for planning, not physical connections. Resource matrix (C) isn't a standard SAP term-it might refer to custom setups, but it's not a defined feature for tank connectivity. This is per SAP's process manufacturing controls.

NEW QUESTION # 65

What are some benefits of planning with planned independent requirements for finished materials? Note: There are 2 correct answers to this question.

- A. Option to use maketooorder production
- **B. Reduced times for final assembly**
- **C. Reduced delivery times**
- D. Option to forecast planning for production resources

Answer: B,C

NEW QUESTION # 66

How can you support a GMP (Good Manufacturing Practice)-compliant production process?

Note: There are 3 correct answers to this question.

- A. Approved resources
- **B. Batch record**
- **C. Recipe approval**
- **D. Digital signature**
- E. GMP-compliant flag

Answer: B,C,D

Explanation:

To support a GMP-compliant production process, you can use the following features in SAP S/4HANA:

Digital signature: This allows you to electronically sign documents and transactions that are relevant for GMP compliance, such as

production orders, process orders, batch records, and quality inspections. Digital signatures ensure the authenticity, integrity, and non-repudiation of the documents and transactions¹².

Batch record: This is a document that records the entire production process of a batch, including the materials, resources, operations, quality data, and signatures involved. Batch records provide traceability and documentation for GMP compliance³.

Recipe approval: This is a process that ensures that only approved recipes can be used for production. Recipes are approved by authorized users who sign them digitally. Recipe approval prevents unauthorized changes and ensures consistency and quality of the products.

5: SAP Help Portal: Recipe Approval

6: SAP S/4HANA Production Planning and Manufacturing Certification Guide, Chapter 7: Process Orders

NEW QUESTION # 67

You want to create a production order. What methods can you use?

Note: There are 2 correct answers to this question.

- A. Convert a purchase requisition
- **B. Create in Kanban process**
- C. Create by order release
- **D. Create without material**

Answer: B,D

NEW QUESTION # 68

What does forecasting in the demand planning cycle include? Note: There are 3 correct answers to this question.

- **A. Market intelligence**
- **B. Past sales order quantities**
- C. Past production planning quantities
- D. Past quotation quantities
- **E. Oneoff events**

Answer: A,B,E

NEW QUESTION # 69

.....

Free SAP C_TS422_2023 exam questions demo download facility, affordable price, 100 percent SAP C_TS422_2023 exam passing money back guarantee. All these three SAP C_TS422_2023 exam questions features are designed to help you in SAP C_TS422_2023 Exam Preparation and enable you to pass the final SAP C_TS422_2023 certification exam easily.
