NEW QUESTION # 40

According to GASB, when should landfill closure and post-closure costs be recognized?

- A. when payments for costs are made
- B. every five years until the landfill is closed
- C. when the landfill is closed
- D. each year the landfill is operating

Answer: D

Explanation:

Comprehensive Detailed Explanation:

According to GASB Statement No. 18 (Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs), governments must recognize a portion of closure and post-closure costs each year as the landfill's capacity is used.

This is done using the "units-of-consumption" method, meaning costs are accrued in proportion to how much of the landfill's total capacity has been filled. The total estimated cost is spread over the useful life of the landfill.

- D. serve as a financial planning tool.

Answer: B

- A. proprietary
- B. general
- C. governmental
- D. fiduciary

Answer: C

- B. a message from the head of the agency.
- C. the MD&A.
- D. the financial section.

Answer: A

A Message from the Head of the Agency

Management's Discussion and Analysis (MD&A)

Financial Section (including statements and notes)

The Performance Section is not included in the AFR but is instead part of the alternative Performance and Accountability Report (PAR) or included separately in an Annual Performance Report (APR).

NEW QUESTION # 44

A federal agency received utility bills before the end of the fiscal year. It is the agency's policy to obligate funds upon receipt of the utility bills and to pay the bills immediately upon receipt. Which set of entries would be made to the budgetary accounts?

- A. Debit Allotment Available for Commitment/Obligation
Credit Fund Balance with Treasury
- B. Debit Unobligated Funds Credit Expended Appropriation
- C. Debit Allotment Available for Commitment/Obligation
Credit Undelivered Orders Unpaid
- D. Debit Expended Appropriation
Credit Allotment Available for Commitment/Obligation

Answer: C

Explanation:

In federal accounting, upon receipt of utility bills (and before payment), a government agency records an obligation. Since the service has already been received and payment is imminent, the budgetary accounting entry reduces available allotments and records the obligation.

The entry would look like:

Debit: Allotment Available for Commitment/Obligation

Credit: Undelivered Orders - Unpaid (or potentially Delivered Orders - Unpaid, depending on agency policy) In the case of immediate payment, the next step would move from obligation to expenditure, but the initial obligation entry affects the budgetary accounts as described above.
