VMware - Useful 3V0-32.23 - Cloud Management and Automation Advanced Design Certification Torrent

After clients pay successfully for our Cloud Management and Automation Advanced Design guide torrent, they will receive our mails sent by our system in 5-10 minutes. Then they can click the mail and log in to use our software to learn immediately. For that time is extremely important for the learners, everybody hope that they can get the efficient learning. So clients can use our 3V0-32.23 test torrent immediately is the great merit of our product. We have set strict computer procedure to protect the client's privacy about purchasing 3V0-32.23 Study Tool and there is no one which can see the privacy information through online or other illegal channels except us. We have set the rigorous interception procedure to protect others from stealing the client's personal privacy information.

VMware Cloud Management and Automation Advanced Design Sample Questions (Q178-Q183):

NEW QUESTION # 178

An architect is responsible for creating the design for vRealize Operations.

The following requirements, constraints, and recommendations were gathered:

- Enable Continuous Availability
- Monitor two physical locations

- The sizing guide recommends deploying 5 analytics nodes

What are two design considerations for the analytics node deployment? (Choose two.)

- A. Anti-affinity rules will need to be created
- B. High Availability will need to be enabled
- C. A sixth analytics node is needed
- **D. Extra Large Nodes must be used**
- **E. Two fault domains need to be created**

Answer: D,E

NEW QUESTION # 179

An administrator maintains multiple tenants on a vRealize Automation environment. Consumers of Tenant B have requested to modify their current tenant architecture from the default to incorporate their own mail servers so that their user base can respond to notifications for completing work items and approvals. Consumers of Tenant A insist that no change be made to their current mail settings.

Which design changes are required to the architecture to meet the requirements for both tenants?

- A. Log in to Tenant B as an IaaS administrator and grant approval administrator privileges to the required user base of the tenant.
- **B. Log in to Tenant B as a tenant administrator and under the Administration tab, select each mail server and click Override Global, then configure the requested new mail servers.**
- C. Log in to the default tenant as administrator and under the Administration tab, select Tenant B, then add and configure the requested new mail servers for the tenant.
- D. Log in to the default tenant as administrator and under the Administration tab, select Email Servers, then add and configure the additional new mail servers.

Answer: B

NEW QUESTION # 180

When architecting a solution on a Software as a Service (SaaS) platform compared to an on- premises setup with a cloud proxy, what is a key advantage of the SaaS approach?

- A. More customization options for hardware resources.
- **B. Reduced maintenance and management overhead.**
- C. Improved security due to direct server access.
- D. Greater control over infrastructure and network configuration.

Answer: B

NEW QUESTION # 181

An architect is designing a Cloud Management solution for an existing VMware Software-Defined Data Center solution. During the requirements gathering workshop with the customer, the following comment was captured:

The solution must be compliant to Payment Card Industry (PCI) standards.

When creating the design documentation, which design quality should be used to classify the requirements?

- A. Recoverability
- **B. Security**
- C. Performance
- D. Manageability

Answer: B

Explanation:

Compliance with PCI standards is a security-related requirement, as it involves protecting sensitive data and enforcing strict security controls.
