Dumps C-BCBTM-2509 Collection & Test Certification C-BCBTM-2509 Cost

In order to help all people to pass the C-BCBTM-2509 exam and get the related certification in a short time, we designed the three different versions of the C-BCBTM-2509 study materials. We can promise that the products can try to simulate the real examination

for all people to learn and test at same time and it provide a good environment for learn shortcoming in study course. If you buy and use the C-BCBTM-2509 study materials from our company, you can complete the practice tests in a timed environment, receive grades and review test answers via video tutorials. You just need to download the software version of our C-BCBTM-2509 Study Materials after you buy our study materials. You will have the right to start to try to simulate the real examination. We believe that the C-BCBTM-2509 study materials from our company will not let you down.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q26-Q31):

NEW QUESTION # 26

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Workflow Automation, User Engagement, Security & Privacy
- B. Digital Adoption, Process Optimization, Compliance Management
- C. Data & Analytics, Action & Experience, Platform & Admin
- D. Content Creation, Deployment, Analytics & Insights

Answer: C

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.

NEW QUESTION # 27

What does WalkMe Discovery help organizations achieve?

- A. Translates all tools into multiple languages automatically
- B. Automates training development processes
- C. Identifies underutilized tools and compliance risks
- D. Enhances employee satisfaction scores by 50%

Answer: C

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B:

Identifies underutilized tools and compliance risks.

NEW QUESTION # 28

What is the role of generative AI in SAP Signavio solutions?

- A. It provides instant answers, identifies bottlenecks, and offers recommendations.
- B. It is primarily focused on creating new AI systems unrelated to SAP solutions.
- C. It translates process models from one modeling language to another.
- D. It is limited to performing routine tasks like data entry.

Answer: A

Explanation:

Generative AI in SAP Signavio enhances process intelligence by analyzing complex business process data, identifying inefficiencies, and automatically generating insights and recommendations for optimization.

"Generative AI in SAP Signavio supports business transformation by instantly identifying process bottlenecks, providing intelligent recommendations, and generating process improvement insights based on operational data." Reference:

This AI functionality, embedded in SAP Signavio Process Intelligence and Process Insights, empowers users to accelerate process discovery and analysis using natural language queries and auto-generated improvement suggestions.

"SAP Signavio leverages Generative AI to enable users to query process data conversationally and receive AI-driven insights for faster decision-making." Incorrect Options:

B: Translating process models is done via modeling standards (BPMN), not AI.

C: The AI is purpose-built for SAP's transformation ecosystem, not standalone.

D: It performs high-level analytical and generative tasks, not simple automation.

Verified Correct answer: A: It provides instant answers, identifies bottlenecks, and offers

NEW QUESTION # 29

How can BTM Solutions help organizations manage their business transformation?

- A. They are important because they provide direct support for human resource management and payroll processing.
- B. They are crucial because they exclusively focus on enhancing a company's social media presence and marketing campaigns.
- C. They help businesses better understand and optimize their processes and IT infrastructure, while assisting the end user coping with digital change.
- D. They are revolutionary tools to support financial controlling and reporting.

Answer: C

Explanation:

SAP Business Transformation Management (BTM) Solutions combine tools like SAP Signavio, SAP LeanIX, and WalkMe to give enterprises complete visibility and control over both business and IT transformation efforts.

"SAP BTM solutions enable companies to understand and optimize their processes and IT landscapes, while supporting users through change and adoption." Reference:

Process Optimization & IT Alignment:

SAP Signavio provides process mining and analytics, SAP LeanIX maps IT architecture, and WalkMe ensures user adoption.

Together, they deliver an integrated framework for sustainable transformation.

"By integrating business process management, enterprise architecture, and user enablement, SAP BTM helps organizations manage complexity and digital adoption simultaneously." User Adoption and Change Management:

WalkMe, a core BTM component, assists employees in adapting to new systems, minimizing disruption during digital transitions.

"BTM solutions assist end users in coping with digital change by delivering in-application guidance and real-time support." Incorrect Options:

A: Financial controlling is an ERP capability, not a BTM function.

B: Marketing is unrelated to BTM's transformation scope.

C: HR and payroll are managed in SAP SuccessFactors, not BTM.

Verified Correct answer: D: They help businesses better understand and optimize their processes and

NEW QUESTION # 30

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Exclusive focus on customer experience workflows
- B. Limited scalability for smaller businesses
- **C. Offering a combination of guidance tools and actionable analytics**
- D. Ability to operate without integrating into other software

Answer: C

Explanation:

WalkMe's Digital Adoption Platform (DAP) stands out in the market for its unique combination of real-time user guidance, workflow automation, and actionable analytics. This blend allows organizations to measure and improve digital adoption and employee productivity.

"WalkMe differentiates itself by combining in-app guidance, automation, and actionable analytics that empower organizations to monitor and improve digital adoption at scale." Reference:

Through its AI-driven DeepUI technology, WalkMe provides contextual insights and user behavior analytics to continuously optimize business processes and adoption success.

"The WalkMe platform unifies guidance, engagement, and analytics capabilities - enabling enterprises to measure user experience and optimize adoption journeys." Incorrect Options:

A: WalkMe does integrate with enterprise applications; it overlays them for contextual guidance.

B: Its focus is not exclusive to customer experience workflows; it supports all enterprise systems, including SAP S/4HANA, SuccessFactors, and Ariba.

C: WalkMe is highly scalable and used by global enterprises; it's not limited to small businesses.

Therefore, the correct answer based on SAP BTM and WalkMe documentation is:

D: Offering a combination of guidance tools and actionable analytics.

NEW QUESTION # 31

.....

You can attempt the C-BCBTM-2509 test multiple times to relieve exam stress and boosts confidence.
