the pricing model structure.

- C. Providing analytics and insights for cloud-based HR systems
- **D. Driving measurable ROI across SAP and non-SAP applications**

Answer: A,B,D

Explanation:

Based on WalkMe's positioning within the SAP ecosystem, the three key objectives of their SAP-focused sales plays are:

☐ C. Enabling ERP transformation through user engagement and adoption

WalkMe plays a central role in digital transformation by driving user engagement, increasing software adoption, and ensuring smooth rollouts of SAP ERP like S/4HANA and SuccessFactors

☐ A. Ensuring compliance and efficiency in finance and spend management WalkMe's in-app guidance helps prevent user errors, ensure policy compliance, and streamline critical finance and procurement workflows-especially within SAP S/4HANA and Ariba environments [blog.sap.com](https://blogs.sap.com/2018/08/01/walkme-sap-s4hana-ariba/)

☐ E. Driving measurable ROI across SAP and non-SAP applications

WalkMe emphasizes actionable insights, highlighting software usage, and driving ROI not just in SAP but across heterogeneous systems through analytics and usage data visibility.

☐ Not correct:

* B. Providing analytics and insights for cloud-based HR systems

While WalkMe supports HR applications like SuccessFactors, the offering is broader-including ERP, procurement, and cross-app usage-so this choice is too narrow.

* D. Simplifying procurement processes to enhance competitive differentiation WalkMe does simplify workflows in SAP Ariba, but the "competitive differentiation" language doesn't match their core positioning.
