ASIS Physical Security Professional Exam Sample Questions (Q109-Q114):

NEW QUESTION # 109

Based on non-delegable duty, contractual provisions that shift liability to the subcontractors have not been recognized by the courts and are called:

- A. None of the above
- B. Unrecognized holds

- C. Hold-on liabilities
- **D. Hold harmless clauses**

Answer: D

Explanation:

Hold harmless clauses are contractual provisions that attempt to shift liability from one party to another- typically from the hiring organization to the contractor. However, under the principle of non-delegable duty, courts often do not honor these clauses when essential legal responsibilities (like ensuring public safety) are involved. This reinforces that certain legal obligations cannot be waived or outsourced.

Options A and B are not recognized legal phrases.

NEW QUESTION # 110

Which approach is dealt with terrorists' personalities, their recruitment, and their induction into terrorist organizations, beliefs, attitudes, motivations and careers?

- A. Physiological Approach
- B. Violence Approach
- **C. Multifactor Approach**
- D. Criminal approach

Answer: C

Explanation:

The multifactor approach examines terrorism through multiple dimensions, including psychological, sociological, ideological, and organizational factors. It analyzes how individuals are recruited, indoctrinated, and motivated within terrorist networks. This is key in understanding the behavioral patterns and lifecycle of a terrorist.

NEW QUESTION # 111

In lens selection, the most important factor in determining the relative magnification of an object is the:

- **A. Focal length**
- B. Image format
- C. Lens format
- D. Image device

Answer: A

Explanation:

Focal length is the primary factor in determining the magnification and field of view in a camera lens. A longer focal length results in a narrower field of view and greater magnification of distant objects.

Conversely, a shorter focal length gives a wider field of view with less magnification.

A (Image device) and B/C (Lens or image format) influence compatibility and image quality, but do not directly affect magnification.

NEW QUESTION # 112

What involves walking or riding a given route to observe the condition of the facility?

- A. Posts
- B. None of the above

- C. Patrol duty
- D. Reserves

Answer: C

Explanation:

Patrol duty involves moving through assigned routes or areas to monitor activity, detect irregularities, and observe the general condition of the facility. Patrolling can be conducted on foot or by vehicle and is a fundamental component of proactive security operations.

Posts (B) are stationary assignments.

Reserves (C) are backup personnel.

"None of the above" (D) is incorrect because patrol duty is the accurate answer.
