ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q52-Q57):

NEW QUESTION # 52

When creating a planning item, which fields are populated automatically with the Approved start date value and the Approved end date value respectively?

Choose 2 answers

- A. Actual start date
- B. Due date
- C. Planned end date
- D. Planned start date

Answer: C,D

NEW QUESTION # 53

Which stage of the Now Create methodology includes Transition, Mobilize, Prepare and Conduct?

- A. Transition
- B. Close
- C. Initiate
- D. Prepare

Answer: A

Explanation:

The Transition stage of the Now Create methodology includes the activities of Transition, Mobilize, Prepare and Conduct. This stage is focused on transitioning the solution from development to production, mobilizing the stakeholders for the go-live, preparing the environment and data for the launch, and conducting the final testing and validation. You can find more information about the Transition stage in the Now Create ebook or the Project Methodology website for ServiceNow.

NEW QUESTION # 54

What is the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management?

- **A. Generate default mapping configurations.**
- B. Create custom mapping configurations.
- C. Create an alignment integration.
- D. Create personalized portfolio plans.

Answer: A

Explanation:

According to the Portfolio Planning document, the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management is to generate default mapping configurations. This step creates the default mappings between the Portfolio Planning fields and the ServiceNow Project Portfolio Management fields. The other options are not correct, as they are not the first step in the process. Creating an alignment integration is the second step, creating custom mapping configurations is the third step, and creating personalized portfolio plans is the fourth step.

NEW QUESTION # 55

The Business Unit field on a Project or Demand form displays values from a specific table. What type of field is this?

- A. Conditions.
- **B. Reference.**
- C. List.
- D. Journal.

Answer: B

Explanation:

Explanation

According to the ServiceNow documentation¹, the Business Unit field on a Project or Demand form is a reference field that displays values from the cmn_department table. A reference field stores a link to a record on another table, rather than storing the data directly in the field².

1:

<https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/refer>

<https://docs.servicenow.com/bundle/vancouver-platform-administration/page/administer/form-administration/con>

NEW QUESTION # 56

What information are users required to enter on a cost plan for a demand?

- A. Discount Rate %
- B. Functional currency
- C. Total planned cost
- **D. Cost type**

Answer: D

Explanation:

Explanation

According to the Cost plan breakdown document, users are required to enter the cost type for each cost plan line item. Cost type is a mandatory field that specifies the type of cost, such as labor, software, hardware, etc.

The other options are not required fields for a cost plan for a demand. Discount Rate % is an optional field that applies a discount rate to the cost plan. Total planned cost is a read-only field that displays the sum of the planned cost for all the cost plan breakdowns. Functional currency is a system property that defines the currency used for cost management.
