2026 UiPath-ABAv1 – 100% Free Latest Test Vce | Newest Exam UiPath-ABAv1 Guide

If candidates need to buy the UiPath-ABAv1 exam dumps for the exam, they must care for the pass rate. The pass rate of our UiPath-ABAv1 exam dumps is over 98 , and we can ensure that you can pass it. If you have some questions about the UiPath-ABAv1 Exam Materials, you can consult us. Furthermore, we have the technicians for our website, and they will check network environment safety at times, we offer you a clean and safety online network environment for you.

UiPath Certified Professional Automation Business Analyst Professional v1.0 Sample Questions (Q26-Q31):

NEW QUESTION # 26
What is the role of UiPath Automation Hub?

- A. Helps in choosing the members of the RPA development team
- B. Discovers the primary stakeholders of the business processes
- C. Manages and tracks the progress of automation projects
- D. Estimates when the business process should be automated

Answer: C

Explanation:
The role of UiPath Automation Hub is to manage and track the progress of automation projects. It acts as a centralized platform where all stakeholders can collaborate, share ideas, and monitor the various stages of automation initiatives, ensuring transparency and efficient management of the automation lifecycle.
Reference: UiPath Documentation on Automation Hub at https://docs.uipath.com/.

NEW QUESTION # 27
What is end-to-end automation with human in the loop in UiPath?

- A. A type of automation that requires a human being involved only at the beginning and end of the process
- B. A type of automation that requires a human being involved only in monitoring the process
- C. A type of automation that requires a human being involved only in decision-making steps of the process
- D. A type of automation that requires a human being involved in every step of the process

Answer: C

Explanation:
End-to-end automation with human in the loop refers to processes automated from start to finish, where human intervention is needed primarily for decision-making points, combining the efficiency of automation with human judgment.

NEW QUESTION # 28

Which option from the Task Mining interface allows the business analyst to change the order of the identified steps within a trace?

- A. Recompute
- B. Edit step
- C. Most frequent path
- D. Export trace

Answer: B

Explanation:

In the UiPath Task Mining interface, the option that allows a business analyst to change the order of the identified steps within a trace is 'Edit step'. This feature enables the analyst to modify the sequence of actions or steps captured during the task mining process. By selecting 'Edit step', the analyst can rearrange the steps to reflect the correct order of the process as it should be executed1. References: The explanation is based on the UiPath Documentation Portal's guide on Task Mining, which details the steps and actions, including editing and rearranging steps within a trace1.

NEW QUESTION # 29

What is the purpose of human in the loop?

- A. Human in the loop enables human validation in the middle of the process.
- B. Human in the loop allows the human to pause a running process.
- C. Human in the loop allows the human to stop a running process.
- D. Human in the loop enables human execution flows.

Answer: A

Explanation:

"Human in the loop" is a core concept in UiPath automation solutions, where automation might require human input or decisions to complete a task. Specifically, UiPath defines it as:
"Human-in-the-loop (HITL) involves incorporating human validation steps within an automated workflow to manage exceptions, validate data, or make decisions that require human judgment." This concept is a fundamental part of processes that require human expertise or compliance checks, typically seen in document processing, data extraction, and exception handling.

NEW QUESTION # 30

Select the statement that best describes an UiPath process.

- A. An action performed by a human
- B. A set of interrelated or interacting activities that transforms inputs into outputs
- C. A group of related processes that share common goals and objectives
- D. A process is a sequence of instructions that a computer follows to perform a specific task

Answer: B

Explanation:

An UiPath process best describes a set of interrelated or interacting activities that transforms inputs into outputs. This definition captures the essence of business processes in RPA, where a sequence of tasks is automated to achieve a specific outcome, enhancing efficiency and consistency.References: UiPath Documentation on Understanding Processes athttps://docs.uipath.com/.

NEW QUESTION # 31

......

ExamCost is a website that not the same as other competitor, because it provide all candidates with valuable UiPath-ABAv1 exam

questions, aiming to help them who meet difficult in pass the UiPath-ABAv1 exam. Not only does it not provide poor quality UiPath-ABAv1 Exam Materials like some websites, it does not have the same high price as some websites. If you would like to try UiPath-ABAv1 learning braindumps from our website, it must be the most effective investment for your money.
