

# CPRE-FL\_Syll\_3.0 Test Questions Fee | Test CPRE-FL\_Syll\_3.0 Dumps

One more thing to give you an idea about the top features of IREB Certified Professional for Requirements Engineering, Foundation Level (CPRE-FL\_Syll\_3.0) exam questions before purchasing, the FreeDumps are offering free FreeDumps CPRE-FL\_Syll\_3.0 Exam Questions demo download facility. This facility is being offered in all three FreeDumps CPRE-FL\_Syll\_3.0 exam practice question formats.

The CPRE-FL\_Syll\_3.0 certification exam is ideal for professionals who wish to pursue a career in requirements engineering or those who are already working in the field and want to enhance their skills and knowledge. CPRE-FL\_Syll\_3.0 exam covers a wide range of topics, including requirements elicitation, documentation, validation, and management. CPRE-FL\_Syll\_3.0 Exam is designed to test a candidate's ability to analyze, understand, and document requirements effectively.

## Test CPRE-FL\_Syll\_3.0 Dumps, CPRE-FL\_Syll\_3.0 Updated Demo

For candidates who will buy CPRE-FL\_Syll\_3.0 exam braindumps online, the safety of the website is quite important. If you choose CPRE-FL\_Syll\_3.0 exam materials of us, we will ensure your safety. With professional technicians examining the website and exam dumps at times, the shopping environment is quite safe. In addition, we offer you instant download for CPRE-FL\_Syll\_3.0 Exam Braindumps, and we will send the download link and password to you within ten minutes after payment. And you can start your study immediately.

## ISQI IREB Certified Professional for Requirements Engineering, Foundation Level Sample Questions (Q29-Q34):

### NEW QUESTION # 29

Requirements conflict resolution is considered to be part of which major RE task?

- A. Validation
- **B. Elicitation**
- C. Management

- D. Documentation

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

According to the CPRE syllabus, Requirements Engineering comprises four major tasks: elicitation, documentation, validation and management. Elicitation is not just "collecting" requirements; it also includes dealing with conflicts that emerge when different stakeholders express incompatible needs, expectations or priorities. Conflict analysis, negotiation and resolution are therefore components of elicitation activities.

Validation focuses on checking correctness and quality of documented requirements, while management handles versioning, traceability and change control. Documentation is about representing requirements in suitable forms. Thus, conflict resolution is explicitly placed under elicitation.

### NEW QUESTION # 30

Choose the WRONG sentence regarding life cycle management in Requirements Engineering.

- A. It records the actual transitions between states that occur in a requirement.
- B. It establishes the possible statuses of a work product or requirement.
- C. It is applicable to both requirements and specifications.
- D. It controls the quality of a set of requirements.

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Life cycle management defines allowed states (draft, approved, implemented, retired, etc.) and the transitions between them for requirements and other RE work products, fulfilling A and B. It applies not only to single requirements but also to documents or baselines, so C is correct. However, quality control-checking adequacy, completeness or consistency- is performed by validation, reviews and quality assurance activities, not by life cycle management itself. State transitions may be conditional on quality checks, but life cycle management does not "control the quality" per se. Therefore D is the wrong statement.

### NEW QUESTION # 31

Requirements documentation can either be natural language or model-based. Which two statements are most applicable? (2 Points)

- A. If documentation is model-based, natural language documentation can be dispensed with.
- B. In requirements engineering models are more suitable than textual descriptions to reduce the complexity of the entity being considered.
- C. When deciding between model-based and natural language documentation, model-based is preferable.
- D. As models are more formal, they offer a higher degree of uniqueness compared to natural language.

**Answer: A,D**

### NEW QUESTION # 32

In a linear approach, the decision on a change proposal about a commissioned system is made by the:

- A. Change Advisory Board
- B. Change Control Board
- C. Product Owner
- D. Development Team

**Answer: A**

### NEW QUESTION # 33

According to the Kano model, a feature that customers specifically request is called a:
