## PECB QMS ISO 9001:2015 Lead Auditor Exam Sample Questions (Q115-Q120):

### NEW QUESTION # 115

Scenario 2:

Bell is a Canadian food manufacturing company that operates globally. Their main products include nuts, dried fruits, and confections. Bell has always prioritized product quality and has maintained a good reputation for many years. However, the company's production error rate increased significantly, leading to more customer complaints.

To increase efficiency and customer satisfaction, Bell implemented a Quality Management System (QMS) based on ISO 9001. The top management established a QMS implementation team comprising five middle managers from various departments, including

Leslie, the quality manager.

Leslie was responsible for assigning responsibilities and authorities for QMS-related roles. He also suggested including a top management representative in the QMS team, but top management declined due to other priorities.

The team defined the QMS scope as:

"The scope of the QMS includes all activities related to food processing." Leslie established a quality policy and presented it to the team for review before top management approval

. Top management also proposed a new strategy for handling customer complaints, requiring biweekly customer surveys to monitor customer perceptions.

Which of the following indicates that Bell has defined its quality objectives?

- A. Assigning responsibilities for QMS roles
- **B. Establishing a new strategy for handling customer complaints and requests**
- C. Implementing a QMS to increase efficiency in the manufacturing process and customer satisfaction
- D. Establishing a QMS implementation team of middle managers from various departments

**Answer: B**

Explanation:

Comprehensive and Detailed In-Depth Explanation:ISO 9001:2015, Clause 6.2 (Quality Objectives and Planning to Achieve Them) states that an organization must establish measurable and relevant quality objectives to improve QMS effectiveness.

Bell's strategy for handling customer complaints aligns with this requirement because it includes specific, measurable goals (biweekly customer surveys) to enhance customer satisfaction and service quality.

Other options are not directly related to defining quality objectives:

\* Option B (Implementing a QMS) refers to the overall system, not specific objectives.

\* Option C (Creating a QMS team) is an implementation step, not an objective.

\* Option D (Assigning responsibilities) is necessary for QMS but does not define objectives.

### NEW QUESTION # 116

Bell is a Canadian food manufacturing company that operates globally. Their main products include nuts, dried fruits, and confections. Bell has always prioritized product quality and has maintained a good reputation for many years. However, the company's production error rate increased significantly, leading to more customer complaints.

To increase efficiency and customer satisfaction, Bell implemented a Quality Management System (QMS) based on ISO 9001. The top management established a QMS implementation team comprising five middle managers from various departments, including Leslie, the quality manager.

The team defined the QMS scope as:

"The scope of the QMS includes all activities related to food processing." Leslie established a quality policy and presented it to the team for review before top management approval.

. Top management also proposed a new strategy for handling customer complaints, requiring biweekly customer surveys to monitor customer perceptions.

The quality policy was established by Leslie and approved by top management. Is this acceptable?

Please refer to scenario 2.

- A. No, the quality policy must be established and approved only by the quality manager.
- B. Yes, as long as top management is informed, the policy can be established by any responsible employee.
- C. Yes, the quality policy can be established by the QMS implementation team and be approved by top management.
- **D. No, the quality policy must be established and approved by top management.**

**Answer: D**

Explanation:

Comprehensive and Detailed In-Depth Explanation: ISO 9001:2015, Clause 5.2.1 (Establishing the Quality Policy) states that top management must establish, implement, and maintain a quality policy.

In the scenario, the quality manager (Leslie) created the policy, but top management did not establish it themselves, which violates Clause 5.2.1. While the policy can be drafted by a team, top management must take full ownership of its development and approval.

### NEW QUESTION # 119

You are carrying out an audit at a single-site organisation seeking certification to ISO 9001 for the first time.

The organization manufactures cosmetics for major retailers and the name of the retailer supplied appears on the product packaging. Sales turnover has increased significantly over the past five years.

You are interviewing the new Product Development Manager. You note that a software application called SWIFT is used to help control the product development process.

You have gathered audit evidence as outlined in the table. Match the ISO 9001 clause 8.3 extracts to the audit evidence.

**Audit evidence**

**ISO 9001 Clause 8.3 extract**

Half of all new products launched in the past 12 months were late. The NPD Manager explains he has not got enough people on his team to cope with the demand for new products.

The NPD Manager explains many changes are made to cosmetic formulations during product development owing to retailer feedback. Only when confirmed by the retailer is the agreed formulation documented on SWIFT.

The NPD Manager explains that the customer confirms their approval to proceed with a new formulation by email. These emails are kept on SWIFT.

The NPD Manager shows you evidence of consumer trials that are carried out for some new products prior to full-scale launch.

The NPD Manager explains that an approved external laboratory is used to perform shelf-life stability trials on some formulations during product development.

*To complete the table click on the blank section you want to complete so it is highlighted in red and then click on the ISO 9001 clause 8.3 extracts listed below. Alternatively, drag and drop each clause to the audit evidence that applies.*
