### 질문 # 28

A customer has a curriculum containing a safety course that users must retrain on every year. Users can access secured areas only while their curriculum status is complete. The users may take a safety exam instead of the course. If the user fails either the exam or the safety course, they must not be allowed into the secured area. What needs to be set up in the LMS in order for this to work properly? Note: There are 3 correct answers to this question.

- A. The safety course must be set up as a substitute for the exam item and the For-Credit completion status of "complete" must be selected
- B. The Force Incomplete setting on the curriculum must be set to "Yes"
- C. The exam item must be set up as a substitute for the safety course and the Not-for-Credit completion status must be selected
- D. The exam item must be set up as a substitute for the safety course and the For-Credit completion status of "substituted" must be selected
- E. The Force Credit checkbox must be checked

정답: B,D,E

- B. Default Certificate Template for Items
- C. Default Certificate Template for Programs
- D. Program record: Certificate Template

정답: B,C

### 질문 # 32

Which of the following permissions should be assigned to an Administrator to create new instructor accounts, update course materials, and search for specific classes?

- A. Edit Item, Add Instructor, Search Class
- B. Edit Instructor, Add Class, Copy Curriculum
- C. Delete Instructor, Copy Item, Edit Assignment Profile
- D. Add Curriculum, Delete Assignment Profile, Search Instructor

정답: A

### 설명:

Step by Step Explanation with exact Extract from SAP SuccessFactors Learning documents:

\* Understanding Administrator Permissions:

\* In SAP SuccessFactors Learning, permissions are assigned to roles (e.g., Administrator role) to control access to specific actions, such as creating instructor accounts, updating course materials, and searching for classes.

\* Required Permissions for the Tasks:

\* The question specifies three tasks: creating new instructor accounts (Add Instructor), updating course materials (Edit Item), and searching for specific classes (Search Class).

\* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Security Guide, Role-Based Permissions):

"Role-Based Permissions allow administrators to perform specific actions based on assigned permissions. The 'Add Instructor' permission enables creating new instructor records, 'Edit Item' allows updating course materials, and 'Search Class' permits searching for scheduled classes."

\* Breaking Down the Permissions:

\* Edit Item: Allows administrators to modify course content, such as updating materials or settings for learning items.

"The Edit Item permission grants access to modify item details, including course materials, objectives, and settings" (SAP SuccessFactors Learning Admin Guide).

\* Add Instructor: Enables the creation of new instructor accounts in the system.

"The Add Instructor permission allows administrators to create and manage instructor records under Learning Activities > Instructors" (SAP SuccessFactors Learning Admin Guide).

\* Search Class: Permits searching for specific class schedules or offerings.

"The Search Class permission enables searching for classes by criteria such as course ID, date, or location" (SAP SuccessFactors Learning Admin Guide).

\* Why Other Options are Incorrect:

\* Option A (Delete Instructor, Copy Item, Edit Assignment Profile): Deleting instructors and editing Assignment Profiles are

"Delete Instructor removes instructor records, and Edit Assignment Profile manages automatic assignments, not course materials or class searches" (SAP SuccessFactors Learning Security Guide).

\* Option C (Edit Instructor, Add Class, Copy Curriculum):Editing instructors and copying curricula do not cover updating course materials or searching classes.

"Edit Instructor modifies existing instructor records, and Copy Curriculum duplicates curricula, not relevant to the specified tasks" (SAP SuccessFactors Learning Admin Guide).

\* Option D (Add Curriculum, Delete Assignment Profile, Search Instructor): These permissions focus on curricula and instructor searches, not course materials or class searches.

"Add Curriculum creates new curricula, and Search Instructor locates instructor records, not classes" (SAP SuccessFactors Learning Admin Guide).

\* Conclusion:

\* The permissions required to create new instructor accounts, update course materials, and search for classes are Edit Item, Add Instructor, and Search Class, as specified in option B.
