Microsoft AB-730 Reliable Test Labs | Practice AB-730 Exam Pdf

Actual AI Business Professional (AB-730) dumps are designed to help applicants crack the Central Finance in AB-730 test in a short time. There are dozens of websites that offer AB-730 exam questions. But all of them are not trustworthy. Some of these platforms may provide you with AI Business Professional (AB-730) invalid dumps. Upon using outdated Central Finance in AB-730

.dumps you fail in the AB-730 test and lose your resources. Therefore, it is indispensable to choose a trusted website for real Central Finance in AB-730 dumps.

Microsoft AI Business Professional Sample Questions (Q62-Q67):

NEW QUESTION # 62

You plan to summarize a proposal for a partnership between your company and another company.

You need to use Microsoft 365 Copilot to summarize the information in the proposal as a bulleted list of three to five key points for a project kickoff meeting. Each bullet point must be concise and simply worded.

Which two details should you include in the prompt?

- A. a specific knowledge source to ground the response
- B. profiles of both companies generated by using the Researcher agent
- C. concise instructions for what to do with the proposal
- D. a list of contact details for key stakeholders of the partnership

Answer: A,C

Explanation:

Effective prompting in Microsoft 365 Copilot requires two critical components: clear instructions and grounding in authoritative content. Microsoft guidance emphasizes that prompts should explicitly state the desired output format, tone, length, and purpose. In this case, specifying "a bulleted list of three to five concise, simply worded key points" represents concise instructions, making option B essential.

Additionally, grounding the response in a specific knowledge source—such as attaching or referencing the proposal document—ensures factual accuracy and reduces hallucination. Option D ensures Copilot uses the actual proposal content rather than relying on generalized model knowledge.

Profiles and stakeholder contact details are unrelated to summarization requirements. Therefore, the correct selections are B and D.

NEW QUESTION # 63

You have a Microsoft 365 subscription.

You do NOT have a Microsoft 365 Copilot license.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Answer Area | | |
|---|-----------------------|-----------------------|
| Statements | Yes | No |
| Microsoft 365 Copilot Chat lets you upload documents from your local computer. | <input type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat is included with Microsoft 365 Business Standard. | <input type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat lets you create and use agents that can access Microsoft SharePoint folders. | <input type="radio"/> | <input type="radio"/> |

Answer:

Explanation:

| Answer Area | | |
|---|----------------------------------|----------------------------------|
| Statements | Yes | No |
| Microsoft 365 Copilot Chat lets you upload documents from your local computer. | <input checked="" type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat is included with Microsoft 365 Business Standard. | <input checked="" type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat lets you create and use agents that can access Microsoft SharePoint folders. | <input type="radio"/> | <input checked="" type="radio"/> |

Explanation:

| Statements | Yes | No |
|---|----------------------------------|----------------------------------|
| Microsoft 365 Copilot Chat lets you upload documents from your local computer. | <input checked="" type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat is included with Microsoft 365 Business Standard. | <input checked="" type="radio"/> | <input type="radio"/> |
| Microsoft 365 Copilot Chat lets you create and use agents that can access Microsoft SharePoint folders. | <input type="radio"/> | <input checked="" type="radio"/> |

Microsoft 365 Copilot Chat is included at no additional cost for users with qualifying Microsoft 365 subscriptions such as Business Basic, Business Standard, Business Premium, E3, and E5. Therefore, users without a Microsoft 365 Copilot add-on license can still access Copilot Chat.

Copilot Chat allows users to upload documents from their local device within a session for summarization, analysis, and drafting assistance. However, advanced enterprise-integrated features-such as creating agents that access organizational SharePoint folders-require a Microsoft 365 Copilot license.

Agent creation and enterprise data grounding leverage Microsoft Graph integration and are considered premium Copilot capabilities tied to licensed Copilot services.

This distinction reflects Microsoft's licensing model: baseline AI chat access is included with qualifying subscriptions, while deep Microsoft 365 app integration and enterprise data agents require the additional Copilot license.

NEW QUESTION # 64

You have an open Microsoft Word document that has a sensitivity label named Highly Confidential applied. From Microsoft PowerPoint, you plan to use Microsoft 365 Copilot to generate a presentation of the Word document. What will be the result?

- A. Copilot will generate the presentation and will prompt you for a label.
- B. Copilot will be unable to generate the presentation.
- **C. Copilot will generate the presentation and apply the Highly Confidential label.**
- D. Copilot will generate the presentation and will NOT apply a label.

Answer: C

Explanation:

When you use Microsoft 365 Copilot in PowerPoint to generate a presentation from a Word document with a Highly Confidential sensitivity label, the following occurs:

*-> Sensitivity Label Inheritance: The newly generated PowerPoint presentation will automatically inherit the Highly Confidential sensitivity label from the source Word document.

Protection Settings Enforcement: All protection settings associated with that label, such as encryption, watermarks, or restricted sharing permissions, will be applied to the new presentation.

*-> Permission Verification: Copilot will verify that you have the necessary EXTRACT (Copy) and VIEW usage rights for the Word document. If the label's encryption settings or a Microsoft Purview Data Loss Prevention (DLP) policy blocks content extraction for Copilot, the generation process will fail or be blocked.

Strict Access Control: If the Word document uses Double-Key Encryption (DKE) or restricted Extract privileges, PowerPoint Copilot will honor these protections and will not create the presentation.

NEW QUESTION # 65

Select the answer that correctly completes the sentence.

Answer Area

Overreliance is a common risk associated with generative AI, where

- users exploit vulnerabilities to elicit unauthorized behavior.
- the model is tricked into exposing confidential information.
- the model generates misleading, inaccurate, or irrelevant content.
- users accept the AI-generated output without verifying its accuracy

Answer:

Explanation:

Answer Area

Overreliance is a common risk associated with generative AI, where

- users exploit vulnerabilities to elicit unauthorized behavior.
- the model is tricked into exposing confidential information.
- the model generates misleading, inaccurate, or irrelevant content.
- users accept the AI-generated output without verifying its accuracy

NEW QUESTION # 66

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

| Statements | Yes | No |
|---|-----------------------|-----------------------|
| You can add a Microsoft Teams chat as a knowledge source to a Microsoft 365 Copilot agent. | <input type="radio"/> | <input type="radio"/> |
| You can add a Microsoft 365 Copilot conversation as a knowledge source to a Copilot agent. | <input type="radio"/> | <input type="radio"/> |
| You can use an image file, such as a JPG file, as a knowledge source for a Microsoft 365 Copilot agent. | <input type="radio"/> | <input type="radio"/> |

Answer:
