

# Quiz 2026 Latest Oracle 1Z0-1067-25 Actual Dumps

P.S. Free & New 1Z0-1067-25 dumps are available on Google Drive shared by PassExamDumps: [https://drive.google.com/open?id=1c-v\\_B8IErdR4AiyCky8Q3GbV\\_OnqQqeb](https://drive.google.com/open?id=1c-v_B8IErdR4AiyCky8Q3GbV_OnqQqeb)

Our research materials will provide three different versions of 1Z0-1067-25 valid practice questions, the PDF version, the software version and the online version. Software version of the features are very practical, I think you can try to use our 1Z0-1067-25 test prep software version. I believe you have a different sensory experience for this version of the product. Because the software version of the 1Z0-1067-25 Study Guide can simulate the real test environment, users can realize the effect of the atmosphere of the 1Z0-1067-25 exam at home through the software version.

## Oracle 1Z0-1067-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Implementing Reliability and Business Continuity: This section of the exam focuses on ensuring system reliability and continuity. It covers implementing scalability and elasticity for handling workload demands, automating failover mechanisms for high availability, and applying data retention strategies for long-term storage and recovery.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Utilizing Configuration Management Tools: This section of the exam measures the skills of the target audience and focuses on configuring cloud resources efficiently. It covers the use of configuration management tools for automating resource setup and cloud-init for initializing compute instances, ensuring proper configuration from the start.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Deploying and Managing Resources: This section of the exam covers the deployment and management of core OCI services. It focuses on manual provisioning, using the OCI Command Line Interface (CLI) for managing resources, and utilizing infrastructure as code to create consistent and repeatable deployments.</li></ul>

The Channel Partner Program Oracle Cloud Infrastructure 2025 Cloud Ops Professional 1Z0-1067-25 certification enables you to move ahead in your career later. With the Oracle 1Z0-1067-25 certification exam you can climb up the corporate ladder faster and achieve your professional career objectives. Do you plan to enroll in the Oracle Cloud Infrastructure 2025 Cloud Ops Professional 1Z0-1067-25 Certification Exam? Looking for a simple and quick way to crack the Oracle 1Z0-1067-25 test?

## Oracle Cloud Infrastructure 2025 Cloud Ops Professional Sample Questions (Q32-Q37):

### NEW QUESTION # 32

You are running an old version of PostgreSQL on several compute instances and want to update to the latest version. Which tool must you use to update the PostgreSQL packages on the existing machines?

- A. Ansible
- B. Terraform
- C. OCI Package Manager
- D. OCI CLI

**Answer: A**

### NEW QUESTION # 33

You have created a group for several auditors. You assign the following policies to the group: What actions are the auditors allowed to perform within your tenancy? (Choose the best answer.)

- A. The Auditors are able to delete resource in the tenancy.
- B. The Auditors can view resources in the tenancy.
- C. Auditors are able to create new instances in the tenancy.
- D. Auditors are able to view all resources in the compartment.

**Answer: B**

### NEW QUESTION # 34

You have been brought in to help secure an existing application that leverages Object Storage buckets to distribute content. The data is currently being shared from public buckets and the security team is not satisfied with this approach. They have stated that all data must be stored in storage buckets. Your application should be able to provide secure access to the data. The URL that is provided for access to the data must be rotated every 30 days. Which design option will meet these requirements?

- A. Create a new group and map users to this group, create a IAM policy providing access to Object Storage service only to this group. Users can then simply login to OCI console and retrieve needed files.
- B. Use Pre-Authenticated request, even though there will be multiple URLs this will provide better security.
- C. Create a private bucket only to share the data.
- D. Create multiple bucket and classify them as Public and Private. Use public bucket for non-sensitive data and private bucket for sensitive data.

**Answer: B**

### NEW QUESTION # 35

You created an Oracle Linux compute instance through the Oracle Cloud Infrastructure (OCI) management console then immediately realize you forgot to add an SSH key file. You notice that OCI compute service provides instance console connections that supports adding SSH keys for a running instance. Hence, you created the console connection for your Linux server and activated it using the connection string provided. However, now you get prompted for a username and password to login. What option should you recommend to add the SSH key to your running instance, while minimizing the administrative overhead? (Choose the best answer.)

- A. You need to terminate the running instance and recreate it by providing the SSH key file.

- B. You need to configure the boot loader to use ttyS0 as a console terminal on the VM.
- C. You need to reboot the instance from the console, boot into the bash shell in maintenance mode, and add SSH keys for the OPC user.
- D. You need to modify the serial console connection string to include the identity file flag, to specify the SSH key to use.

**Answer: C**

#### NEW QUESTION # 36

You have been contracted by a local e-commerce company to assist with enhancing their online shopping application. The application is currently deployed in a single Oracle Cloud Infrastructure (OCI) region. The application utilizes a public load balancer, application servers in a private subnet, and a database in a separate, private subnet. The company would like to deploy another set of similar infrastructure in a different OCI region that will act as standby site. In the event of a failure at the primary site, all customers should be routed to the failover site automatically. After deploying the additional infrastructure within the second region, how should you configure automated failover requirements? (Choose the best answer.)

- A. Deploy a new load balancer in the primary region. Create one backend set for the primary application servers and a second backend set for the standby application servers. Create a listener for the primary backend set with a timeout of 3 minutes. Create a listener for the secondary backend set with a timeout of 10 minutes.
- B. Create a failover policy in the Traffic Management service. Set the IP address of the public load balancer for the primary site in answer pool 1. Set the IP address of the public load balancer for the secondary site in answer pool 2. Define a health check to monitor both sites.
- C. Create a new A record in DNS that points to the public load balancer at the secondary site. Create a CNAME for the sub-domain failover that will resolve to the new A record. Inform customers to prepend the website URL with failover if the primary site is unavailable.
- D. Create a load balancer policy in the Traffic Management service. Configure one answer for each site. Set the answer for the primary site with a weight of 10 and the answer for the secondary site with a weight of 100.

**Answer: B**

#### NEW QUESTION # 37

.....

If you fail in the exam, we will refund you in full immediately at one time. After you buy our Oracle Cloud Infrastructure 2025 Cloud Ops Professional exam torrent you have little possibility to fail in exam because our passing rate is very high. But if you are unfortunate to fail in the exam we will refund you immediately in full and the process is very simple. If only you provide the scanning copy of the 1Z0-1067-25 failure marks we will refund you immediately. If you have any doubts about the refund or there are any problems happening in the process of refund you can contact us by mails or contact our online customer service personnel and we will reply and solve your doubts or questions timely.
