Salesforce Process Automation Accredited Professional Sample Questions (Q20-Q25):

NEW QUESTION # 20

An Administrator at Universal Containers (UC) needs to develop a flow to get the Sales reps' feedback on closed opportunities. The Administrator wants to use the Opportunity object-specific action to launch it. Which standard feature can help UC accomplish this?

- A. Use Salesforce Survey functionality to help capture feedback
- **B. Use a flow with Object specific action on the Opportunity object**
- C. Create a custom detail page button and add it to opportunity page layout
- D. Use Salesforce Survey functionality with Object specific action on the Opportunity object

Answer: B

Explanation:

You can create Object-Specific Actions that launch a Flow directly from a record page (e.g., Opportunity).

This allows users to launch feedback flows with record context automatically passed into the flow.

D). Correct - Object-Specific Actions can launch flows tied to specific record types like Opportunity.

Incorrect Options:

A). While buttons can launch flows, object-specific actions are more user-friendly and are shown in quick actions.

B, C. Surveys are valid for feedback collection but not integrated as Object-Specific Actions directly in this context.

Reference Extracts from Salesforce Process Automation Study Guide:

"Use Object-Specific Actions to launch Screen Flows from record pages."

"Flows can automatically receive the recordId from the object when triggered by a quick action."
