As a worldwide leader in offering the best ISO-IEC-27001-Foundation test torrent, we are committed to providing comprehensive service to the majority of consumers and strive for constructing an integrated service. What's more, we have achieved breakthroughs in ISO-IEC-27001-Foundation certification training application as well as interactive sharing and after-sales service. As a matter of fact, our company takes account of every client's difficulties with fitting solutions. As long as you need help, we will offer instant support to deal with any of your problems about our ISO-IEC-27001-Foundation Guide Torrent to help you pass the ISO-IEC-27001-Foundation exam

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39

Who determines the number of days required for a certification audit?

- A. The lead internal auditor from the organization to be audited
- B. The management representative from the organization to be audited
- C. Both the management representative and the external auditor together
- **D. The external auditor from the Certification Body who will undertake the audit**

Answer: D

Explanation:

Certification audits are carried out by Certification Bodies (CBs), not the organization itself. ISO/IEC 27001 requires external certification audits to be independent, impartial, and objective. According to ISO/IEC 27006 (Requirements for bodies providing audit and certification of ISMS), the Certification Body determines the audit duration and number of audit days based on factors such as organizational size, complexity, scope, and risk environment. This ensures consistency across organizations and prevents manipulation by the auditee. ISO/IEC 27001 Clause 9.2 and 9.3 address internal audit and management review, but the determination of certification audit days is outside the organization's control; it rests solely with the accredited Certification Body auditors. Thus, answer: D is correct, as the CB's external auditor formally calculates and assigns the audit time.

NEW QUESTION # 40

Which statement describes the Classification of information control in Annex A of ISO/IEC 27001?

- A. Ensures that security perimeters are used to protect assets
- B. Ensures the rules to control physical and logical access apply to assets
- **C. Ensures that information is classified based on confidentiality, integrity and availability**
- D. Ensures that all information assets are labelled with their classification

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.12 (Classification of information) states:

"Information should be classified according to the information security needs of the organization based on confidentiality, integrity and availability." This aligns directly with option B. Option A (labelling) is a separate control (Annex A.5.13). Option C (security perimeters) is under physical controls (Annex A.7.1). Option D (access control rules) relates to Annex A.5.15 and A.8.2.

Thus, the verified correct statement for the Classification of information control is B.

NEW QUESTION # 41

Which item is required to be considered when defining the scope and boundaries of the information security management system?

- **A. The dependencies between activities performed by the organization**
- B. The regular activities necessary to maintain and improve the ISMS

- C. The lessons learned from the information security experiences of other organizations
- D. The level of quality to which the ISMS must adhere

Answer: A

Explanation:

Clause 4.3 (Determining the scope of the ISMS) requires consideration of:

"the external and internal issues referred to in 4.1; the requirements referred to in 4.2; and interfaces and dependencies between activities performed by the organization, and those that are performed by other organizations." This confirms that dependencies between activities are a required factor when defining scope. Options B (quality levels), C (lessons learned), and D (regular activities for improvement) are not scope requirements, though they may be relevant in planning or improvement processes.

Thus, the verified answer is A: Dependencies between activities performed by the organization.

NEW QUESTION # 42

Which is a control title within Annex A of ISO/IEC 27001?

- **A. Information security in supplier relationships**
- B. Change control
- C. Responsibilities and procedures
- D. Protection of documents

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled: "Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier agreements and relationships. It is part of the Organizational Controls theme. The other options are not control titles in Annex A:

* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.

* "Protection of documents" (C) relates to document control but is not a specific Annex A control.

* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.

Therefore, the correct Annex A control title is A: Information security in supplier relationships.

NEW QUESTION # 43

In which clause would the requirements for internal audit be found?

- **A. Performance Evaluation**
- B. Operation
- C. Planning
- D. Improvement

Answer: A

Explanation:

The requirements for internal audit are explicitly placed in Clause 9.2 (Performance Evaluation) of ISO/IEC 27001:2022. The standard requires:

* "The organization shall conduct internal audits at planned intervals to provide information on whether the information security management system... conforms to the organization's own requirements... and to the requirements of this document." (9.2.1)

* "The organization shall plan, establish, implement and maintain an audit programme(s)..." (9.2.2) This clause clearly falls under Performance Evaluation (Clause 9), not Planning (Clause 6), Operation (Clause 8), or Improvement (Clause 10). Therefore, the correct answer is C.

NEW QUESTION # 44

.....

I think our ISO-IEC-27001-Foundation test torrent will be a better choice for you than other study materials. We all know that most candidates will worry about the quality of our product, In order to guarantee quality of our study materials, all workers of our company are working together, just for a common goal, to produce a high-quality product; it is our ISO-IEC-27001-Foundation

Exam Questions. If you purchase our ISO-IEC-27001-Foundation guide torrent, we can guarantee that we will provide you with quality products, reasonable price and professional after sales service.
